

Comment by Chester H. Rowell.

MORE ABOUT NORTH DAKOTA—FARGO, North Dakota, March 17.—Not all of the publicity or co-operatively owned businesses whose organization and growth in North Dakota have been described, are now bankrupt; but all of them have had picturesque and instructive histories.

The Bank of North Dakota is not formally insolvent, though, without the credit of the state behind it, it would be difficult for its balance sheet to pass a critical bank examiner. However, except for its farm loan department, it is practically in liquidation.

A law was passed making it optional with the counties, municipalities and school districts whether to deposit their public funds with it, and most of them ceased to do so. It never succeeded in getting many private deposits, so its available funds were reduced to the state tax deposits. When the financial slump came, all the credits in the state became "frozen" and the whole bank system, public, co-operative and private, got into bad shape.

Fundamentally, the resources and therefore the finances of the state are sound, but temporarily it has taken much nursing along to avoid a crash. This situation has not been confined to the league banks. Most of the former activities of the Bank of North Dakota have been suspended and are being liquidated. Its farm loan department is being actively continued.

Many of the "main stores" are bankrupt. They were over-capitalized and not always well run and they suffered, in getting supplies, under the boycott to be described later. One daily has suspended and another is losing money, but many of the weeklies are solvent and running. The state experimental mill and some other enterprises are losing money, and it is not yet known whether the big state elevator and mill will be profitable or a losing business. The state home building enterprise is frankly bankrupt, and is being liquidated by the state at a considerable loss.

Various explanations are given of this general fiasco. One, of course, is the general depression which struck everything in the grain growing district during the period of deflation. These new enterprises, capitalized mostly on pyramided credit, were first and foremost hit. The state home building enterprise had happened to the personal flax business of their founder, A. C. Townley, before 1915; and it is not a remote inference to assume that his personal temperament and its resultant methods had much to do with the fate of the paradoxically automatic democracy which he founded.

Probably the least factor has been the personal element, which has filled the largest part of North Dakota's economic life. When the state went into the housing business, there was more "thunder" in the charge than one of the houses had been built for Attorney-General William Lemke, than there would have been in the demonstration that the scheme was unsound as a business proposition.

It was easier to show that Townley had once been a Socialist than it would have been to analyze the economic dance and economics of his schemes. A more relevant explanation is the extreme bitterness of the political fight of which these business undertakings were the football. When the radical government undertook to finance these businesses by bond issues, the conservative business men of North Dakota began knocking the state's credit. The bonds would never sell, partly because the business men nearest at hand said they were worthless. It was also charged that there was a deliberate boycott by "Wall Street," which refused to invest in the securities of a state of whose government it disapproved.

Speculation in land at inflated values had been one of the major evils in the other states during the period of high prices. North Dakota, having lost its credit, had not inflated land values to deflate. The focus of state business was precipitated in part by the successful conspiracy of the apostles of sound business to prevent these businesses from being soundly financed.

But a more essential weakness, only partly official, has been acknowledged by Townley himself and is generally accepted by his associates. That is that the state and the league established more business institutions than they could get competent business men to run. The farmers did not have sufficient men of business training and ability among their own number. They were generally not willing to pay sufficient salaries to attract such men from other circles. And if they had been willing, the competent business men would not have dared accept the positions. They would have been ferociously boycotted by their own class.

This statement does not come more from the league side. It is confirmed by eminent business men who know what was going on in the newspaper business—

GERMANY APPEALS TO U. S.

Mitchell Not to Enter Vote Race

MESAN IN SCHOOLS CONTEST

H. B. Woodrugh Candidate For Board of Education Member
F. L. BURNS, J. S. TREW SEEKING CITY POSTS

Vegely Files Nominating Petition for Return As Clerk

Definite announcement made today by Mayor John G. Mitchell that he would not be a candidate for city councilman, from the first ward; taking out of a nomination petition for H. B. Woodrugh, of Costa Mesa, as a candidate for member of the board of education, and filing of nomination petitions by Frank L. Burns, for treasurer, and James S. Trew, for city recorder, were feature developments in today's political situation in Santa Ana.

Mrs. Ruby Bush, assistant city clerk, announced that she was not nor would she be a candidate for treasurer. She made the statement in refutation of persistent rumors to the contrary.

Mayor Mitchell said that business propositions that he now had under consideration influenced his decision not to contest for re-election.

The taking out of a nominating petition for Woodrugh indicated that residents of Costa Mesa planned to make a fight to have a representative on the Santa Ana board of education, which directs school activities of the Santa Ana high school district, of which the Costa Mesa grammar school district is a part.

Woodrugh had the support of voters in others of the six outside grammar school districts in the high school district, was not known here.

Burns has been a resident of Santa Ana for five years. For several years he was a solicitor in the circulation department of The Register. He is an Elk and makes his home at the Elks' club. "Some time prior to settling in Santa Ana he was a salesman with A. B. Rousseau, assisting the latter in disposing of property when what is now known as Costa Mesa was opened up to subdivision.

Before coming to California Burns was engaged in the real estate business at Cleveland, O. He also was with the Mutual Life Insurance company, in the Cleveland office, for a number of years.

Trew is a Santa Ana 30 Years man. With the exception of brief intervals of absence, Trew has been a resident of Santa Ana for approximately thirty years and is well known here.

He is now in the real estate business. Friends who induced him to cast his hat into the political ring believe that he will make an excellent city magistrate. He is the fourth candidate for election to the office of city recorder.

City Clerk Ed Vegely has filed his nominating petition. His friends point to the fact that he has served four years under a salary that is low as compared with that generally paid for the type of qualifications demanded of one filling the position, and they say that he should have the advantage of another term under the higher salary recently established by the city council. For the next term the salary will be \$325 a month. So far no one has been mentioned as a possible opponent to Vegely.

Pledges Aid of Calif. Club Women in War Against Narcotics

WASHINGTON, March 17.—California club women will co-operate with federal government in stamping out narcotic evils on the Pacific coast, Colonel R. G. Nutt, head of the narcotic bureau announced today following a lengthy conference with Mrs. William A. Fitzgerald of San Francisco, president of the California Woman's Clubs.

Mrs. Fitzgerald's offer of the utmost co-operation of the California club women was accepted by Colonel Nutt who said "it was very gratifying to have the aid of such organizations as Mrs. Fitzgerald represents."

FUGITIVE IN BRIBE CASE SURRENDERS

Man Who Disappeared After Conviction Gives Self Up at Prison to Serve Term.

SAN QUENTIN PENITENTIARY, Calif., March 17.—John C. Calvert, who was convicted in Placerville a short time ago on a charge of conspiring to bribe county officials, was taken to Placerville from the prison here today to be formally sentenced and committed to the penitentiary.

Calvert disappeared while awaiting sentence and yesterday a note saying he had committed suicide and purporting to be written by him, was found on a Sacramento river boat.

Last night he appeared at San Quentin and surrendered today and was taken back to Placerville.

SUSPECT BOOZE GANG AS FOUR DIE IN FIRE

(By United Press Leased Wire) EVERETT, Wash., March 17.—The alleged murder of four persons—a widow, her two little children and her brother-in-law—was revealed early today when fire, said to have been of incendiary origin, destroyed the rear part of a bakery.

The dead: Mrs. Cleopatra Karas, proprietress. Alexander Karas, 4. Gust Karas, brother of Mrs. Karas' dead husband.

Mrs. Karas and her brother-in-law were evidently beaten to death. No marks of violence were found upon the children and it is believed they suffocated as they slept.

Deepest mystery surrounds the crime. Not a single clue has been discovered as to the identity of the slayer but it is believed that the quadruple murder is in some way connected with the killing of Mrs. Karas' husband, Peter Karas, four months ago.

Pete Karas' body was found near the Mulatto road where it had been hidden. No trace was found of the slayer but it has been rumored that his "removal" was ordered by a powerful "bootlegging ring."

The theory is advanced that Mrs. Karas and Gust Karas had ferreted out information which might lead to the arrest of the murderer and that they were slain to keep them silent.

During the morning officers attempted to question George Karlos, aged 19, brother of Mrs. Karas, who was sleeping in a building adjacent to the home. They said that he collapsed under questioning and had to be taken to a hospital to be revived, after which he was removed to jail and held as a material witness.

PROBER'S PAY ROW SUIT FILED

HOLDS PEACE IS LOOMING FOR IRISH

Leader of Free State Confident of Victory Against Rebels

(Copyright 1923 by United-Press) DUBLIN, March 17.—Sixty-seven rebels executed.

Thirteen thousand imprisoned, of whom 5,000 have been released. Two thousand insurgents conducting guerrilla warfare at present. Thirty thousand national troops under arms, hunting from hamlet to hamlet the remnants of the once formidable rebel army.

The above is the official account of the situation this St. Patrick's Day, furnished the United Press by the Free State government as the first year of its rule closes.

A year ago today Eamonn De Valera issued a proclamation declaring civil war would follow creation of the Free State. Ten days later the Irish Free State bill passed its third reading in the House of Lords, became an act and received royal assent.

Peace with Ulster followed within three days, Michael Collins and Sir James Craig signing an armistice agreement. Its trouble with the rebels, and the Free State struggled into being, harassed by insurgents who followed Eamonn De Valera in open rebellion. At that time there were two outstanding figures not counting De Valera on either side—Michael Collins and Arthur Griffith, mainstays of the Free State; Erskine Childers, brains of the rebels, and Rory O'Connor, fiery military leader.

All are dead. Griffith died of a sudden illness and within a month Michael Collins was assassinated. Since then O'Connor and Childers have been caught and executed.

The Free State government today is confident it has the situation better in hand than at any time since its establishment. Rebellion is being steadily stamped out. Only Eamonn De Valera, will o' the wisp, "president of the Irish republic," remains at large.

With his eventual capture or flight from the country president Liam Cosgrave is confident an era of peace and prosperity will be born out of Erin's troubles.

PLACE DEATH TOLL IN TORNADO AT 15

(By United Press Leased Wire) SAVAGE, Miss., March 17.—Fifteen persons were reported dead and scores are homeless following a cyclone which tore across northern Mississippi Thursday night.

A dozen persons were seriously injured and probably a score in addition were bruised and battered when the gale ripped up trees and tossed houses about. Some homes, with their occupants in night attire were deposited in Coldwater river by the storm.

Communications in the storm area had not been re-established today.

The gale struck four nearby towns causing heavy property damage.

Weather Bureau Says Spring's Arrival To Rout Cold Spell

WASHINGTON, Marc 17.—Abnormally cold weather throughout the United States will precede the theoretic arrival of spring next Wednesday, the weather bureau forecast today.

Beginning tomorrow night a cold wave will blanket almost the entire nation and continue until the time spring is due to arrive.

Snow is predicted for many sections with frosts probable in Florida and along the Gulf coast.

Spring's debut on Wednesday is expected to be the signal for warmer weather, which will continue during the latter part of the week.

BROTHERS IN DEATH FIGHT OVER WOMAN

Lynwood Man Kills Kin Because of Alleged Attention to Wife; Police Start Probe.

LOS ANGELES, March 17.—Defending himself with a shotgun when attacked with a chair, W. B. Stevens, of Lynwood, shot and instantly killed his brother, James Stevens, who lived next door, early today, according to the police.

The brothers quarreled, the police declared, over the dead man's attentions to his sister-in-law, Mary Stevens, wife of W. B. Stevens.

The dead man is said to have pursued his brother into the house armed with an automobile crank. Then he seized a chair and started to attack him. W. B. Stevens seized a shotgun and fired. His brother fell dead. Stevens is being held in jail for investigation.

SIKI LOSES FIGHT TITLE TO MCTIGUE

DUELIN, March 17.—Mike McTigue, freckle-faced, red-headed Irishman, became the world's light heavyweight champion here tonight when he won a twenty round decision from Battling Siki, the Senegal cave man.

It was one of the poorest fights ever seen and it brought continuous jeers from a crowd that packed the Scala Opera house.

Siki swung continuously for a knockout but the superior boxing ability of the Irishman enabled him to keep away from the black man's punches.

McTigue hadn't enough steam in his punches and he failed to hurt Siki when he landed on him. Siki did much rushing in the first fifteen rounds and he seemed to be leading on points.

"30" BULLETIN

NEW ORLEANS, La., March 17.—Amole today won the \$10,000 Louisiana Derby, the closing event of the winter racing season here.

CARR HIRED ILLEGALLY IS CLAIM

Jerome In Answer to Salary Mandamus Action Hits Nelson Claim

Declaring that the board of supervisors acted in violation of the state constitution, that there was no need for an investigator, and that the reasons advanced by District Attorney A. P. Nelson in seeking the aid of an investigator were not sufficient, County Auditor W. C. Jerome at once answered mandamus proceedings instituted against him in superior court here today to compel him to honor the salary warrant of Investigator O. K. Carr.

Carr was appointed special investigator, and took office February 1, the mandamus suit declared. March 1 his warrant was passed by Jerome by Superior Court S. H. Eley, but Jerome refused to honor it.

District Attorney A. P. Nelson, in an effort to procure payment of the salary, which was \$200, filed the mandamus suit.

The board, in authorizing the appointment of an investigator, acted in violation of the state constitution, Jerome stated in his answer. There was no necessity for an investigator, since the sheriff and his deputies are authorized to perform the duties prescribed for the investigator, and the act constituted the appointment of an additional salaried deputy for the sheriff, which is in direct violation of the recent supreme court decision rendered in connection with the question of employing deputies, Jerome said.

Nelson advanced the argument that an additional man was needed to enforce the Wright act, Jerome stated. The Wright act gives the sheriff the authority of enforcement, and does not provide for additional help.

BURKE TO LEAD QUIZ OF FILM LIQUOR RING

(By United Press Leased Wire) LOS ANGELES, March 17.—Prohibition officials announced today they had secured confessions from bootleggers who have been supplying Hollywood movie society.

The evidence will be placed before the grand jury next week. Full exposure of the workings of the booze ring is expected to result. A thorough "dope" investigation is also under way.

The bootleggers' client lists and scores of cancelled checks bearing the signatures of customers have been seized. Legal interests of Jack Pickford, two of whose children are alleged to have been found in possession of a bootlegger under arrest, have been placed in the hands of Douglas Fairbanks and Mary Pickford's battery of high priced attorneys. They would not discuss the case today nor would Jack.

All the evidence has been placed in the hands of United States District Attorney Joe Burke, who declared that all of the principal persons whose names have been found in connection with the conspiracy will probably be called to explain.

Burke declared today that he believes one of the largest liquor rings on the Pacific coast has been uncovered, and that its ramifications will lead to practically every city on the coast.

A large number of checks given by movie people, and marked "no funds" were found in the seized papers, it is said.

The ring, according to Burke, was operating under the guise of a taxicab company. The company's "cabs" were taken as any other company would take them except that when the taxi rolled up to some elaborate film star's home the driver would deliver a case of liquor.

40 French Soldiers Die as Trains Are Wrecked in Ruhr

BERLIN, March 17.—Forty French soldiers are reported to have been killed in a train wreck in the Ruhr valley today.

According to a dispatch from Frieremsheim, a French troop train collided with a freight train near that city. In addition to the forty soldiers reported dead, many were injured.

The French threw a cordon of troops around the scene of the wreck. No one was allowed to approach the wreckage and details were unobtainable.

From vantage points outside the cordon, however, it could be seen that many cars in the troop train had been telescoped.

INDICT COAL MEN IN HUGE FRAUD CASE

Sacramento Dealers Said to Have Confessed to Giving Shortweight to Schools.

SACRAMENTO, March 17.—C. S. Ralph, local coal dealer and former city official, and Augustus Kennedy, associated with Ralph in the coal firm, are under grand jury indictment today, charged with conspiring to defraud the city.

The indictments followed confessions of the two accused men that they had delivered short weight coal shipments to Sacramento schools. They claimed that they had bid too low on a coal contract and had devised a scheme to short-weight the deliveries to avoid losses.

The charges against the men resulted from the publication of an open letter to "Citizens of Sacramento" from Barney Brooks, held in the county jail under the criminal syndicalism act. Brooks claimed he worked for Ralph when the school coal was delivered.

SUES WIFE ON DEATH SHADOW PACT CLAIM

On his supposed deathbed, Robert Boyd drew up a deed to property in Anaheim, conveying it to his wife, Harriett Boyd, and her heirs.

This deed he sent to his wife, at Anaheim. She refused to accept it, and when he subsequently recovered from his illness, they agreed to disregard the transaction. Later, he discovered that the deed had been recorded, and that he did not own the property.

This was the gist of a suit entered in superior court here today by Boyd, against his wife, Robert Boyd Jr., Ruth Ward, William Ward and James B. Ward.

Boyd was seriously ill at Columbus, O., in February, 1919. Fearing that he might die, he drew up papers which conveyed to his wife a life interest in the property, and to her heirs an interest following her death.

This document he sent to his wife. She declined to accept it, he claimed, and on his recovery there was an agreement to destroy the paper.

February 23, 1923, Boyd discovered that despite the asserted agreement, the wife and heirs had recorded the deed, and that he no longer owned the property, he set forth.

Since the deed was recorded, he inherited money from his mother, he said, and paid off a mortgage of \$1,500, and in addition had improved the property to the value of \$1,600.

SEEK HELP IN RUHR TANGLE

Hughes Receives Plea for American Intervention In Crisis

TEUTONS SILENT ON REPARATIONS PLAN

Urge U. S. and Great Britain to Lead In Settling Big Problem

WASHINGTON, March 17.—Germany has officially laid her case in the Ruhr crisis before the United States government, it was learned authoritatively today.

A communication from the Berlin government outlining in a general way how far Germany is willing to go to bring an end to the Ruhr occupation was placed before Secretary of State Hughes last night by the German ambassador here.

While neither Secretary Hughes nor Counselor Dierkhoff of the German embassy, who presented the note, would discuss it, the United Press learned that this communication is the explanation of the recent cloud of conflicting reports from Europe of secret negotiation between Berlin and London to bring about settlement in the Ruhr.

The same exposition of Germany's proposition has been laid before the British government. The real object of Germany's action is to start negotiations which will end the Ruhr occupation with the United States and Great Britain playing the roles of peace makers.

Germany is anxious to end the occupation, but at the same time in presenting her case to the two governments, she is showing no willingness to surrender to the French demands. But she is expressing a willingness to negotiate the reparations question and is indirectly inviting the British and American governments to take the lead in this matter.

The United Press learned that the note handed to Secretary Hughes did not specify any definite reparations sum which Germany is willing to pay for the occupation nor does it specifically demand the withdrawal of the French and Belgian troops as a pre-requisite to negotiations.

Whether Secretary Hughes will feel warranted in communicating the text or sense of the German statement to French Ambassador Jusserot is a question, but there undoubtedly will be some conversations concerning the subject.

STEEL MAGNATE ASKS AMERICA AID EUROPE

NEW YORK, March 17.—Europe needs the support of America, Charles M. Schwab said today upon his arrival here aboard the Cunard Liner Aquitania. An inter-allied commission of bankers, manufacturers and diplomats should be established to straighten out financial affairs of Germany, he said.

"I am sorry that illness interfered with my trip to the Ruhr," said Schwab. "I have come from Europe with the impression that things will come out all right but what Europe needs is the moral and psychological influence and support of the United States."

"An inter-allied commission would be an excellent thing for the financial aid of Germany. If such a commission is formed, I think the United States should participate."

"I think that such a commission should be composed of good bankers, diplomats and reputable manufacturers and I am sure that it would be acceptable to Germany and tend to straighten out her affairs."

Discussing the steel situation, Schwab said: "Recent mergers of the Bethlehem Steel corporation make this corporation the second largest in the United States and in the world for that matter, from the standpoint of production. These mergers are a step forward in the economic process because they facilitate cheaper and better deliveries."

\$1 BILLS SENT OUT IN DRIVE TO AD TOTS

A dollar bill was found in a letter by each of scores of Santa Anans today.

It was a surprise-part of a unique plan for raising money for the Los Angeles Orthopaedic Foundation, which mends the twisted legs and arms of crippled children.

In each of the envelopes is a stamped envelope addressed to Austin O. Martin, treasurer of the foundation, at the First National Bank, Los Angeles.

In the envelope, too, is a letter from F. G. Calkins, president of the Merchants' Ice and Cold Storage company of Los Angeles, who states that he is sending out 1,000 one-dollar bills, with the expectation that each person who receives a dollar bill will place it in the envelope addressed to Austin, and send it and another dollar bill or a \$5 bill or a \$10 bill in the envelope addressed to Martin.

W. S. Gregg, county aid commissioner, said that the plan is but one of many that is being used to raise money for a new building for the care of crippled children. He said a number of cripples have been sent there by the county aid department to this institution, and that the institution is deserving of support.

HART DIVORCE SUIT TO COME UP IN MAY

(By United Press Leased Wire) LOS ANGELES, March 17.—Winifred Westover, estranged wife of William S. Hart, the best known actor of western parts in the movies, will file suit for divorce in May, it was learned today.

She will ask the divorce on grounds of desertion, it is said. Technically, a year must elapse so constitute desertion in the eyes of the law, and that is the purpose of waiting until May, the Harts having separated during that month last year.

The asking of a divorce on grounds of desertion will eliminate the necessity of airing the real cause of the separation in court, it is said. Both Hart and his wife have refused to give the slightest hint of the cause of their trouble and it is reported that this course will be maintained throughout.

A property settlement for Miss Westover and their eight months old son, Bill Jr., has already been arranged, it is said. Miss Westover is living with her mother at Santa Monica.

NEW DISTRICT HEAD NAMED FOR YEOMEN

J. S. "Daddy" Freeman has been appointed Orange county district manager of the Brotherhood of American Yeomen, it was announced here today.

Freeman, who plans an intensive campaign in this territory, to inaugurate a campaign of strengthening Yeomanry in this territory, contemplates in the near future to confer with representatives of each homestead in the county, it was said.

PREVENT FLU AND GRIPPE

For a few cents you can ward off Flu and Grippe by promptly checking your coughs and colds with Foley's Honey and Tar. Also gives quick relief from coughs resulting from Flu, Grippe, Whooping Cough, Asthma and Bronchitis. Forty-eight years of satisfaction to users has made Foley's Honey and Tar the world's largest selling cough medicine. Contains no opiates—ingredients are printed on the wrapper. Refuse substitutes. Insist upon Foley's. Sold everywhere.—Adv.

COMMENT

BY Chester H. Russell

(Continued From Page 1.)

competent newspaper men who accepted employment on league papers now say they are compelled to remain on the league side, since they have been blacklisted against employment on any other papers. They claim that this blacklisting has even extended to school officials who, after leaving North Dakota, were followed into distant states, where school boards were warned against them.

So, with theoretical Socialism in the background, and political radicalism on the immediate environment; with unsound financing at the beginning, political undermining and boycotting along the way; business incompetence in management, a nation-wide financial conspiracy, and finally an unsympathetic government put in charge at the critical moment—thus enmesh the first chapter of North Dakota's political and economic adventure.

PHYSICIANS REPORT LENIN IMPROVING

(By United Press Leased Wire) MOSCOW, March 17.—Premier Nikolai Lenin's condition is improved, according to an announcement by the official Rosta news agency. His paralysis appears to be wearing off. It is possible for him to move his hand and his speech is more clear. For the first time he is able to move the foot which was affected. His general condition is favorable. Pulse and temperature are normal.

COPENHAGEN, March 17.—Professor Hensher, famous Swedish brain specialist, has been summoned to Moscow by telegram to examine and possibly attend Premier Nikolai Lenin. The summons came from Doctors Forster and Mikovsk.

FARM CENTER WOMEN SEEK DEMONSTRATOR

Advised that the University of California has taken over the farm home demonstrator activities, which threatened to be discontinued by omission of an appropriation for this purpose in the Governor's budget, women of the farm centers of Orange county today were preparing to petition the university for a representative, according to Edwin F. Whedon, secretary-manager of the Orange county farm bureau.

"We do not know whether the university intends to appoint new agents in addition to supporting the service now being extended," Whedon explained. "However, the petition will be prepared and forwarded because women in the agricultural districts of Orange county desire the farm home demonstrator."

MUSIC SCHOOL WILL MOVE ITS STUDIOS

The Santa Ana branch of the Shedd School of Music plans to move into new studios in the Ramona building, corner Fifth and Sycamore streets, Monday, it was announced today.

This is necessitated by the rapid growth of the local branch since it opened but a short time ago, it was stated.

MAN, GIRL SLIGHTLY HURT IN CAR CRASH

A man and a girl were recovering today from injuries received in an automobile collision at the intersection of First and Birch streets late yesterday afternoon.

A touring car driven by George Gray collided with a coupe operated by G. S. Burton. According to Gray's report, he was crossing the intersection at a speed of 25 miles an hour when the collision occurred.

Louise Brokan was slightly injured but was able to return to her home after receiving medical attention. Burton's arm was injured.

13 NEW MEMBERS IN LOCAL SUNSET CLUB

The addition of thirteen new members and the receipt of glowing reports from the house committee and the finance committee were the special features of the Sunset club meeting last night.

Plans for furnishing the clubrooms, plans for a ladies' night in the near future and the reception of the new members occupied the time of the evening's business meeting.

New members enrolled last night were S. Buck, William Wagner, M. S. Doig, J. P. Raitt, A. E. White, E. P. Smith, E. P. Stafford, Alex Brownridge, Rolla R. Hayes, E. M. Wellington, Stephen Ross, Felix Ambrerch, and F. L. Abbott.

SLAYING OF BEAUTY VEILED IN MYSTERY

NEW YORK, March 17.—Forty-eight hours after Dorothy King, beautiful artists model was murdered in her luxurious apartment, the police knew that she was slain, by Chloroform—and nothing more.

One man is under arrest in connection with the case on a technical charge of possessing firearms. He is Albert E. Guimares, a close friend of the murdered girl. His lawyers have obtained a habeas corpus writ which will be argued today.

The theory that the girl was murdered for her jewels is only one of many upon which police are working.

SUBCONTRACTS FOR NEW 'Y' TO BE LET

George J. Cocking, plumbing contractor of Santa Ana, and the Robertson Electric company, also of Santa Ana, probably will be named as the successful bidders for the plumbing and wiring contracts of the \$200,000 Y. M. C. A. building being erected here it was learned today.

Cocking's bid for the plumbing was \$8,329, while Robertson bid \$4,495.50 for the wiring, according to R. C. Smedley, building secretary.

Other bids submitted to S. H. Finley, president of the S. A. Y., and the building committee, included Hess Plumbing company, Los Angeles, \$15,000; McFadden Hardware company, Santa Ana, \$12,383; Hill & Son, Santa Ana, \$9,987; and Dale Hardware company, Santa Ana, \$9,265; Granger Electric company, Santa Ana, \$5,900, and Cope Electric company, Santa Ana, \$5,210, it was reported.

Contracts yet to be let, Smedley said, include art stone and marble, heating, filter equipment and other interior equipment.

Excavation work at the site of the building at Church and Sycamore streets today is progressing rapidly. Trees there were found to be within lines of the building were uprooted.

SAN FRANCISCO PAYS TRIBUTE TO HARBOR

SAN FRANCISCO, March 17.—Business and military circles view with one another today in entertaining Major General James G. Harbord, American war hero who recently became head of the radio Corporation of America.

General Harbord arrived yesterday and was greeted by military officers here and by representatives of business organizations.

We were devoting much of his time to an inspection of the radio corporation's plans in San Francisco.

SEEK TO LEGALIZE S. A. SCHOOL BONDS

In what was said to be a friendly effort to validate the \$150,000 Santa Ana school bond issue, recently authorized by voters, the Angelo California Trust company today brought suit here against the Santa Ana school district and others involved in the bond procedure.

The complaint recited how the voters had authorized the issuance of the bonds, how the supervisors had called for bids, the company had submitted a bid, which was declared highest, and the bonds were awarded.

Then it was discovered that on the ballots, the phrase "to be used for repairs and alterations" had been omitted, and the supervisors declined to sign the bonds for that reason.

The complainant desire a court ruling to declare the bonds valid. In the suit, the school district, the Santa Ana board of education, the board of supervisors, and the members of the board, County Clerk J. M. Backs, and County Auditor W. C. Jerome were made defendants.

Bishop and Wellington, attorneys, prepared the suit.

FIND NO CLUES IN 'SNAKE' BURGLARY

While authorities of Southern California were searching for the "snake burglar" and his pretty girl companion, who were held responsible for the \$4,000 series of burglaries in the southern portion of the city Thursday afternoon, City Marshal Claude Rogers and Investigator Sid Smithwick continued an intensive search for clues.

Since the hour when four homes were entered, and valuables were stolen, nothing has been seen of the well-dressed young man, and his fair companion, police stated today. The swiftness with which they operated was rivaled in the suddenness and silence with which they disappeared.

The burglar visited all of the homes during thirty minutes while residents were absent.

Police attached little significance to the report of A. G. Deihl, 605 East Chestnut avenue, that a burglar had been seen trying to remove the screen door at his residence late last evening. The man seen there did not answer the description of the "snake," it was said.

PEOPLE BITTEN BY DOGS TO RECOVER

ANAHEIM, March 17.—That the two victims who were attacked and bitten by a dog here this week may not suffer any serious results from the injuries since treatment was given immediately after the wounds were inflicted, was the statement made by physicians.

Although one of the dogs was killed by officers a few minutes after it had attacked C. G. Harper, real estate man, it was not determined whether or not the animal was suffering from rabies.

The little son of L. L. Myers, who was attacked by a dog while playing in the yard at his home, was reported to be recovering from the injuries, but the case is being closely watched by physicians.

THREE NATIONS ARE SEEKING OIL FIELD

TOKYO, March 17.—Japanese American and Russian interests are trying to secure control of supposedly rich and undeveloped oil fields in Northern Saghalien. Interest in this potential oil supply may influence Japan in a more liberal Russian policy, and cause a Russo-Japanese commercial agreement resulting ultimately in diplomatic recognition of the Moscow government.

The Sinclair Oil Corporation of America is supposed to have secured Moscow an exclusive oil concession in Northern Saghalien. But it would be very simple for Moscow and Tokyo to reach an agreement whereby general Japanese concessions and commercial and development privileges would offset the Sinclair concession.

If Saghalien is as rich in potential oil supply as is reported, it is certain, authorities here believe, that Japan, which needs a nearby oil supply, will never permit, if she can prevent it, exclusive possession of such fields by foreign concerns.

Japanese troops still occupy Northern Saghalien, as security for Russian indemnity demanded for massacre of Japanese troops at Nikolaievsk, during Japan's Siberian expedition. There are strong indications that Japan may voluntarily withdraw these troops, as she did those in Siberia, because of criticism both at home and abroad. But Japan will continue to insist upon economic privileges there. A high official of the foreign office said to the United Press:

"Japan does not desire exclusive privileges or concessions in Saghalien, with regard to oil or anything else. But we cannot consent to anybody else having exclusive privileges or concessions, either. Our position is for an 'open door' in Saghalien. We want an even break with others, and we want others to have an even break with us, in developing oil and other natural resources and trade."

American oil scouts have been prospecting in Saghalien for several years. Since the country has been under military occupation it has been very difficult for foreigners to get into the interior, but the "oil hounds" made it and reported rich prospects.

Wintersburg, Smeltzer

WINTERSBURG AND SMELTZER, March 17.—In spite of the inclemency of the weather Wednesday, an interesting mission study and missionary society business meeting was held at the home of Mrs. George Harris, who was hostess of the occasion.

A feature of the session was the reading of a circular letter sent out to the missionary societies by a little group in Cologne, N. D., asking for financial assistance in the building of a church at that place. The small town of Cologne is a new place in which it is said a great deal may be accomplished, and deeming the call a worthy one, the local society voted for the purchase of 200 bricks toward the building of the church.

The day's lesson study was led by Mrs. E. M. Fox, with Mrs. Eva Beem as the story teller and Mrs. G. M. Roberson, leader of the devotional service.

A tempting collation composed of coconut cream pie, cake, coffee and lemonade was served by the hostesses to the following women: Mrs. Emil Kettler, Mrs. G. M. Roberson, Mrs. W. T. Slater, Mrs. E. M. Fox, Mrs. Eva Beem, Mrs. A. H. Moore, Mrs. C. L. Jordan, Mrs. J. Scott Willmarth, Mrs. Russell and Mrs. O. B. Byram and Mrs. John Swanson, the latter two of Westminster.

The April meeting of the society is to be held at the home of Mrs. Muff who, with Mrs. G. M. Roberson, will be the hostesses.

A number of local young people, members of the Huntington Beach high school boys and girls Glee club took part in the production of "The Mikado" Thursday and Friday of this week.

John Soden took one of the lead-

ing parts, that of "Nanki Poo" and Miss Dorothy Matthews that of "Peep Bo." Clayton Murdock, Susan Russell, David Russell, Alice Willmarth, Charles Mallette, Raymond Vandrun, Ira Dille and Verna Worth, all of this vicinity, were among the members of the chorus.

Mr. and Mrs. A. H. Moore and Mr. and Mrs. Ray Shaver were in Los Angeles Tuesday, the men going in on business and the women spending the day with Mrs. Grace Collins, daughter of Mrs. Moore and sister-in-law of Mrs. Shaver.

Mrs. C. T. Cox of Santa Ana spent the day Saturday at the home of her uncle, J. L. Chisum and was joined in the evening by Mr. Cox who was a dinner guest of the Chisums.

Mrs. Raymond Beem visited her sister, Mrs. George McGirk at Seal Beach Wednesday morning and found both of the McGirk children ill. It was thought probable they had contracted the measles as the disease is prevalent there.

Mr. and Mrs. A. Steck had a Sunday guests at their home a party of friends and relatives from Colton who motored down for the day. Included in the party were Mrs. Sison, her daughter and son-in-law, Mr. and Mrs. Alvin Hunter, and two children Miss Anna Johnson, also a sister and Kenneth Elley.

Mr. and Mrs. Otis Taylor and baby spent Sunday at Huntington Beach at the home of the former's brother, George Taylor and family.

Miss Beale Grana is ill at her home having suffered an attack of appendicitis.

R. J. Morgan, who has several extensive fields to irrigate preparatory to spring planting, finished on the home place Wednesday and Thursday began on another piece of land.

Mrs. George Foote of Santa Ana was a guest Tuesday of her daughter, Mrs. Otis Taylor.

Charles Parr and E. A. Jones of Smeltzer, in company with Messrs. Abbott and Curtis of Westminster, attended Tuesday evening the initiation at the Woodman lodge at Huntington Beach at which time six new members were initiated by the Upland team.

On Sunday Mr. and Mrs. Clinton Brush and daughter Edith of this place and Mrs. Brush's parents, Mr. and Mrs. D. H. Pierce, and brother, A. H. Pierce, spent the day picnicking at Orange County park.

A nine pound son was born Thursday, March 8, to Mr. and Mrs. Lyle Soden at the J. W. Soden home. They have named him Leonard Wylie.

Mrs. Sara Gordy, a cousin of Mr. Richard Morgan and her two daughters, Mary and Mildred, have moved to the Morgan home. They have been staying at Huntington Beach with Mrs. Gordy's mother since their arrival two weeks ago from New Mexico.

Fred Parr of Anaheim was a Sunday evening visitor at the home of his father, Charles Parr.

Mr. and Mrs. Jackson of Los Angeles, the latter a daughter of Mr. and Mrs. George Appleberry, spent the day Sunday at the Appleberry home.

Walter Dille returned to work in the Huntington Beach oil fields Wednesday. He has been at home following an operation for the re-

moval of his tonsils and adenoids. Mr. and Mrs. Paul Duc entertained Sunday Mr. Duc's mother and stepfather, Mr. and Mrs. August Wagner of Los Angeles.

Mr. and Mrs. Elmer Haas of Yorba Linda were Tuesday visitors at the Charles Parr home.

Mr. and Mrs. E. G. Jones spent Saturday in Los Angeles, motoring there in company with Mr. and Mrs. Charles Parr.

Mrs. G. M. Roberson very pleasantly entertained one evening the past week a group of her women friends. Dainty refreshments were served during the social hour by the hostess.

The guest list included Mrs. B. A. Farrar and her niece, Mrs. Frank Jenkins, of Bufile, Mont. and now a house guest at the Farrar home, Mrs. George Anna Rogers, Mrs. W. C. Carson of Santa Monica.

Clemmont Maddux, Santa Ana, visited Sunday at the home of his parents, Mr. and Mrs. C. H. Maddux.

James Letson was taken ill Sunday and on Tuesday a physician was called in to attend him, his temperature having reached 104.

Mr. and Mrs. Lloyd Edwards and family motored to Anaheim Sunday afternoon and visited with the former's brother, Glenn Edwards, Santa Ana, who is at the sanitarium.

Mr. and Mrs. W. H. Blodgett and son, Arthur, and Mrs. J. W. Ball and daughter, Elaine, were guests of relatives here Saturday when they motored down from Los Angeles for the day. The party were luncheon guests of Mr. and Mrs. Paul Appleberry, the latter a niece of Mr. Blodgett and Mrs. Ball and in the evening they were entertained at dinner by their sister, Mrs. L. Moldal.

Mr. and Mrs. R. L. Draper of Berkeley motored down the first of the week. They were over night guests Monday of Mr. and Mrs. Ast Hadley.

Mrs. C. H. Maddux spent Thursday at Anaheim as a guest at the home of her son and daughter-in-law, Mr. and Mrs. Jim Maddux.

Mrs. Carolyn Nankervis of Westminster visited Sunday with her daughter, Mrs. Charles Houser and family of Smeltzer.

Albert Maddux who has been on the sick list had sufficiently recovered Monday to return to school and is driving the high school bus on which Charles Cook substituted as driver during his illness.

Mrs. G. M. Roberson had as luncheon guests at her home Saturday her cousin, Miss Irma De Barr of Santa Ana and two friends, Mrs. Stinson and Mrs. Wheeler of Taylorville, Ill., who were her guests for a time. Miss De Barr and Mrs. Wheeler recently met while both were on a sight seeing trip to San Gabriel, neither knowing the other was even in the state.

Mr. and Mrs. Porter who made a trip the past week with friends to Chowchilla returned home Saturday evening after a most enjoyable trip. The party stopped both going and coming at Bakersfield where they remained over night as guests of Mrs. Porter's sister. The ridge route drive they declare to have been beautiful, snow covering everything.

In a perfume factory in France, 3,000,000 blossoms are collected to get one pound of essence.

A GOOD BEEF SCRAP MASH

A good beef scrap mash is generally conceded to be the best egg producing food for laying hens. In "Big N Mash" we offer you one of the most efficient egg foods known to science. It is correctly balanced and made only of the highest quality foods. It cannot but please you because it is of excellent quality. Try a sack today.

DOCTORS OF ALL SCHOOLS PRESCRIBE PORT OLIVE

No matter whether your physician is an allopath, homeopath, osteopath, chiropractor or naturopath. Ask them why they all agree on old Port Olive. It is a food tonic. If you are suffering from indigestion, dyspepsia, nervousness or constipation, just try Port Olive for one week and you will understand why all doctors prescribe it. C. S. Kelley and all druggists, Portolive Co., 316 S. Broadway, Los Angeles.—adv.

"Six Days," based on Elfinor Glyn's story, will be directed by Charles Brabin.

Coupons are Ready

From now on, as long as this great offer lasts, a Bible Coupon is being printed in these columns daily. Three of those coupons will enable the holder to take advantage of our offer explained therein. The idea is to encourage Bible reading in order to overcome the world's unrest—a movement which is being sponsored by leading newspapers of this country. Make your selection early tomorrow—style A as shown in the accompanying illustration; or style B, which is less elaborately bound but just as complete and durable.

Wonderful Lessons in the Bible's English for Writers and Speakers

Shakespeare was master of nearly twenty thousand words. Milton of about thirteen thousand. But the whole King James Version of the Bible contains not over six thousand words; not a half of Milton's, not a third of Shakespeare's vocabulary.

Short words are always strong words; they explode like bullets. Do you know that the average word in the English Bible, including even the proper names, is composed of less than five letters? Leave out the proper names and the average word wouldn't have even four letters. In the beloved 23rd Psalm there are 119 words; 95 are words of one syllable. In the Sermon on the Mount more than 80 per cent are words of one syllable. In the Ten Commandments, on which are based all the laws of all the world, there are 319 words; 259 are words of one syllable; and only 60 of two and more syllables. In Lincoln's Address at Gettysburg, perhaps the greatest in the world, there are 266 words. Of these, 194 words are of one syllable; 53 of two syllables; and only 19 of three or more syllables.

There is food for thought in these figures. What an improvement in our writers and speakers, if, like Lincoln, they would only give study to the English of the Bible.

Santa Ana Daily Register's BIG OFFER TO ITS READERS

STYLE A—The large print, large size, Red Letter Edition, as illustrated, three coupons and only \$1.98	
STYLE B—The medium large print Edition, with all the Bible helps, but not so elaborately bound, three coupons and only 98c

ing, March 18th, to attend devo-
tional exercises. By order of Ad-
visor
W. V. WHITSON.

**TO DEDICATE DRIVE
AT PARK SATURDAY**
Details of the ceremonies to ac-
company the dedication of Mem-
orial drive, at the west entrance of
Orange county park, at 2 p. m. next
Saturday were arranged at a meet-
ing of the Memorial drive com-
mittee late yesterday afternoon at
the local Boy Scout headquarters.
The planting of an oak is to be a
part of the ceremony.
Patriotic organizations of the
country are to be invited to attend.
A dedicatory address is to be de-
livered, with a response by a rep-
resentative of the American Legion.
Boy Scouts from all over the
county are to be assembled at the
park on that day, and will attend
the dedication in a body. The drive
has been partially planted by Boy
Scouts. Oaks, Catalina cherries,
California holly and mountain
laurel are among the trees that
have been planted.

**LAY CONTEST PLANS
FOR MUSIC MEMORY**
The musical memory contest is
on.
At a meeting here late yesterday
afternoon of the school music su-
pervisors of the county, plans were
laid and music selections made for
the contest which is officially to in-
clude all of the school pupils in
the county, from the fourth grade
through the high school.
Twenty-five selections have been
listed, including those taken from
operas, oratorios, and also the most
popular single classical composi-
tions.
The date for the final contest will
be set, at another meeting of the
supervisors during the Music Fed-
eration convention in this city,
April 3, 4 and 5. At this time also
the judges will be chosen, accord-
ing to Miss Margaret Wickes, head
of the music department in the
Santa Ana high school, who is also
chairman of the music memory com-
mittee.
At the time of the final contest,
to be held in the local high school
auditorium late in May, each school
in the county will enter a team of
five students. These teams will
hear the twenty-five selections, and
be graded on their accuracy in giv-
ing the correct name of the selec-
tions, the name of the composer,
his nationality and the source of
the selection.
Moving picture theaters and
churches as well as schools are to
be asked to play the contest selec-
tions whenever possible.

certs furnished by Carl G.
Strook. The excellent piano
and an Edison phonograph were
also furnished by Mr. Strook.

NEWS BRIEFS

Orange county schools will be
closed for the Easter vacation dur-
ing the first week in April, R. P.
Mitchell, county superintendent of
schools, announced here today.
"Indications are that Santa Ana
will have \$1,000,000 in buildings
begun this year, as represented by
building permits issued, before
April 1, even though the permit for
the \$200,000 Y. M. C. A. building
is not issued this month," W. S.
Decker, building inspector, said
today. "The total to date has
reached \$377,421, according to 374
permits issued. Seventy-nine per-
mits issued this month to date call
for \$192,257 in buildings."

First class members of Orange
county troops of Boy Scouts today
were attending rifle practice at
Orange county park, which was
being held under command of Col-
onel M. B. Wellington. Small bore
rifles at short range were to be
used, according to Roland E. Dye,
county scout executive, who de-
clared that military features were
eliminated from the practice.

Membership plans as suggested
by Charles P. Bayer, manager of
the organization department of the
Los Angeles Chamber of Com-
merce, at a conference held here
late yesterday were being consid-
ered today by the membership
committee of the local Chamber.
W. D. Rudd is chairman of the
committee. J. C. Metzgar, secre-
tary of the Chamber, announced
that a report of the committee
would be released for publication
early next week.

Members of the high school En-
gineering club were today giving
glowing accounts of the club's trip
to Torrance last night to visit the
Lewellyn iron works and the Tor-
rance window glass factory. Leav-
ing here at 6 o'clock, twelve boys
and their faculty advisor, Charles
Tibbetta, spent the entire evening
going through these industrial cen-
ters.

Miss Goldie Hughes, of this city,
who recently at the Anaheim hospi-
tal underwent a severe opera-
tion for acute mastoiditis and tonsil
removal has now sufficiently
recovered to be able to return to
her home.

A fire hydrant has been placed
by the water department, at the
northeast corner of French street
and Wellington avenue.

Receiving a telegram today an-
nouncing the serious illness of his
father, J. C. Darnell, G. B. Darnell
arranged to leave here via the
Santa Fe tomorrow for Sumner, Ia.
The local man's father is 78 years
of age and has been ill a year.
The telegram indicated a serious
turn in his condition.

**DESERT VICTIM
FOUND AFTER
LONG HUNT**

LOS ANGELES, March 16.—The
body of O. C. Jacobson, 34, Bakers-
field watchmaker formerly of Brigh-
am City, Utah, and Los Angeles,
has been found in the desert, ac-
cording to dispatches from Tono-
pah, Nevada.
Jacobson picked up a man named
Nelson shortly after he left Los
Angeles last October, starting to
drive to Salt Lake city. His car
broke down in the heart of the
desert, and after being repaired
ran out of water.
The last word that was brought
of Jacobson was when Nelson stag-
gered into Tonopah, October 28,
relating a harrowing experience.
He said that Jacobson, crazed by
the lack of water and the terrific
heat, forced him out of the ma-
chine and then sped across the
desert wastes far from the beaten
roads.
Searchers finally found the auto-
mobile near the spot where Nel-
son had been forced out. It had
been driven round and round in a
circle until it finally plunged too
deep in the shifting sands, and be-
came stalled. No trace could be
found at that time either of Jacob-
son or his body.
The search was continued at the
request of Mr. Jacobson's bride,
living here, and his relatives in
Utah.
The body was discovered only a
short distance from where the ma-
chine was originally found by
searchers, according to dispatches
from Tonopah. Mr. Jacobson had
wandered for days in a great circle,
meeting his death near where he
originally started from.
An insulated carrier has been de-
signed in which ice cream may be
shipped without the necessity of
packing in ice.
WANTED—Several boys Sunday
morning. Possible to earn from
\$1.00 to \$2.00. Call 7 o'clock, 307
N. Broadway.

**LAY PLANS FOR
COUNTY TOUR
OF SOLONS**

Tickets for the dinner to be
given at St. Ann's Inn here next
Wednesday at 6:30 p. m. com-
plimentary to forty-four visiting con-
gressmen and their wives, will be
on sale at the Chamber of Com-
merce Monday, R. L. Bisby, chair-
man of the entertainment commit-
tee, announced, following a meet-
ing of the committee here today.
This menu will include turkey and
the charge per plate will be \$1.50.
The committee is composed of
Bisby, J. K. Hermon, J. A. Cranston
and A. S. Ralph.
According to the program ar-
ranged today, the visitors will be
met at the Santa Fe station by au-
tomobiles and taken to Balboa.
There the congressional party will
be taken for a ride over the har-
bor under direction of the New-
port Beach Chamber of Commerce.
Anaheim and Fullerton residents
will be asked to provide automo-
biles and the following morning to
convey the visitors on a tour of the
county and take them to the Santa
Fe station at Fullerton about 10:25
a. m.
At the dinner here local speakers
will briefly present data and facts
concerning the harbor, with time
being provided for some of the
congressmen to express their
views on the harbor.
The mayors of Orange, Anaheim
and Fullerton will be extended spe-
cial invitations to be present. It
is intended to make the dinner a
county-wide affair.
Near Santa Ana the party of
congressmen and their wives was
to be entertained at a banquet at
the Barbara Worth Hotel at El
Centro tonight, according to the
program of the trip.
The visitors have been con-
ducted through the Imperial valley
and given a view of the Colorado
river project. They spent last
night at Yuma, Ariz., following a
trip into Mexico.
From El Centro the party will be
escorted to San Diego by Mayor
Bacon of the latter city. They will
be the guests of civic organizations
at San Diego for several days.

**FRENCH ARGUE
AS TO STOUT,
SLIM GIRL**

PARIS, March 16.—Following
the recent inquiry here as to
whether women cared for or could
love stout men comes another,
this time addressed to men, to
ascertain whether they prefer
slim or stout women. Several
prominent Frenchmen also have
been asked their opinion on the
endurance of the present fash-
ions, which tend to make all wom-
en appear slim. By the scores
of replies received it is evident
Frenchmen do not care for thin
women.
Some remarked, "Women who
are shapeless are of little inter-
est. And one said: "It is indif-
ferent to me whether a woman is
stout or slim. When I wish to
see and admire slim women I go
to the dancing halls in the after-
noon, but to the theater at night
to see stouter women, for a wom-
an must be shapely to wear eve-
ning dress."
One of the most curious re-
plies, however, is that of the
author and playwright, Henri Du-
vernois, who says: "The taste
which for a long time sought
inspiration in antique statuary is
completely modified by the movies
today. Only very rarely the
stout women are seen in the
movies. The women of today
look more like furled umbrellas.
Their dresses give them the
shape."
"Today, because they believe
the vogue to call for litheness,
women take all kinds of drugs
and various foods to keep their
weight down. Happily, history re-
peats itself, and in the same
manner fashion will reverse itself.
Then we shall see women give up
drinking vinegar or exhausting
themselves in sports which, con-
trary to expectations, do not en-
courage masculine affections."
Edouard Bourdet, another auth-
or, ascribes the cause of wom-
en's dress to the fact that "dres-
smakers encourage women to be
thin, because probably they are
more easily fitted so. It is cer-
tain that women's power of se-
duction is in proportion to the
amount of clothes they wear.
Covered with heavy garments and
furs, they are naturally charming,
but their advantages diminish
when such garments are remov-
ed."
Fernand Odonard, one of the
best known lawyers, who is fre-
quently called upon by women to
defend their cases, believes that
nature alone is accountable for
the current mode, and the hard-
ships of war, even as far back
as 1870, are partly to blame. "I
think the frail form is not the
result of men's preference for
such forms in women," he says.

BEATEN BY THUGS
PARSONS, Kas., March 16.—
Earl Wade, 26 years old, who said
his home was in Kansas City, is in
a hospital here in a critical con-
dition following an attack by four
men who threw him from a box car
of a Missouri, Kansas & Texas
freight train.
Wade staggered into a farm
house six miles from here and told
of being robbed by four men he
met in a box car when he boarded
the train at Vinita, Ok. When he
refused to give them \$20 he had
they clubbed him into uncon-
sciousness and threw him off the train,
he said. He was operated on and
the toes of his left foot amputated.
They were mangled by the wheels
of the car, he said. His face was
bruised, several ribs broken and
both arms fractured.

**TREMAINE AUTO
CASE ECHO IN
THEFT PROBE**

The attorney who represented
D. H. Willey, 35, when the latter
was arrested, in company with
Albert Tremaine, father of Al-
berta Meadows, hammer murder
victim, on speeding charges here,
was being sought today in con-
nection with grand larceny
charges for which the two men
were being held in Los Angeles.
The men were said to have been
in conspiracy in the theft of a
considerable sum of money and a
quantity of chocolates from the
automobile of J. L. Friedman,
salesman.
The car owned by Friedman,
carrying a trunk which contained
fifty pounds of chocolates and
\$570, was stolen at Pico and Wall
streets, Los Angeles. It was lat-
er recovered and the trunk was
found in an empty lot in that
city.
The trunk had been broken
open and the money and candy
taken, it was asserted.
Hat Check Is Clue
The officers found a hat check,
which led to the Tremaine home.
Tremaine was said to have had
about \$130 on his person, while
records showed that \$150 had been
deposited to the \$1800 account of
his dead daughter.
Tremaine was said to have
claimed that he won the money
at Tia Juana, but finally admitted
that he had not been there, po-
lice declared. He mentioned
Willey's name and address and
officers went there and arrested
him.
Willey was said to have had a
ticket for San Francisco but lit-
tle money.
The men were said to have ad-
mitted that they had driven about

considerable in the light coupe in
which Mrs. Meadows took the fa-
tal ride. Officers declared it was
discovered that Tremaine had
given a mechanic, who did some
work on the car yesterday, a box
of candy. The candy was recov-
ered.

Arrest Here Recalled
Willey was driving the car, with
Tremaine as a passenger, when
Motorcycle Officer Vernon ("Shor-
ty") Meyers arrested them on the
San Diego boulevard, about a
month ago.

At that time Tremaine had
claimed that they were going to
Mexico to search for Clara, al-
though their immediate destina-
tion was said to have been Tia
Juana.
Willey appeared before Justice
J. B. Cox, and through an attor-
ney, pleaded guilty. The police
were today searching for his at-
torney, to question him regarding
any money that Willey might
have given him. Had he re-
ceived money from Willey, this fact
might account for the fact that
Willey had virtually none on his
person when he was arrested, of-
ficers thought.

Sport Flashes

ANNAPOLIS.—Chief Bender,
former pitching star of the Phila-
delphia Athletics, started work
here today with the pitching can-
didates of the navy squad. He will
handle the midshipmen for two
weeks.

KANSAS CITY.—The K. C. A.
C. of Kansas City and the Hill-
yards of St. Joseph, Mo., will meet
here tonight in the final game of
the national A. A. U. basket ball
tournament. The Larry Semon A.
C. of Hollywood, Calif., and the
Two Harbors All-Stars of Two
Harbors, Minn., losers in last
night's games.

CHICAGO.—Michigan is favored
to win the big ten indoor track
meet at Patten Gym, Evanston, to-
night. The meet will get under
way at 8 p. m. and four places will
count.

**CONDITION OF
JUDGE WEST
IMPROVES**

Having spent what physicians
said was "as comfortable and as
restful a night as could be expect-
ed under the circumstances," Su-
perior Judge Z. B. West today was
slightly improved from the serious
illness with which he is confined
at his residence at 1210 North Ross
street here.
Judge West slept well last night
and this morning much of his fever
and pain had subsided.
While admitting the seriousness
of the case, the Los Angeles spe-
cialist, summoned to the bedside
of the veteran Orange county ju-
rist yesterday, said Judge West had
"a good chance to recover if pneu-
monia did not set in with the other
complications."
Judge West was stricken Thurs-
day night while he was motoring
to Santa Ana with his son, Frank-
lin, and his niece, Miss Stella
Groff. Previously he had fainted
while in the office of a Los Ange-
les attorney, but, apparently re-
covered, insisted on returning to
his home here.
Mrs. R. V. Langford of Holly-
wood and Mrs. P. C. Hill of Pasa-
dena, daughters of Judge West,
are at the home of their father.

CHEATS DEATH
SPRINGFIELD, Minn., March 16.
—Charles Moose, an Indian mail
carrier, whose route leads across
the Missouri river from the Santee
Indian agency in Nebraska to
Springfield, narrowly escaped
drowning when the ice in the river
gave way, immobiling the driver
and his outfit. He succeeded in
getting onto solid ice and removing
the mail bags and unhooking one
horse. The other animal was car-
ried away in the waters.

THE ELECTRO SYSTEM

—will charge your battery in 20 to 30 minutes
time. It has proven a BIG SUCCESS.
This is not "dope," but only what is in your
battery now put through an electrical process,
purifying and eliminating internal resistance to
a great extent.

**This method does not heat your
battery**

—overheating is very injurious.
Absolute satisfaction guaranteed, or
no charge made.

**Scatter Time
Around Like Money!**

IT IS often that good bankers advising people
as to investments say: "Don't put all your
eggs in one basket."

Scatter your money in the best securities
you can get, and if, here and there, something
happens to an investment you will still have
enough.

But while considering the scattering of
money investments, would it not be wise to
consider that "time is money" and just as capa-
ble of being scattered wisely as coin of the
realm!

A bit of time reserved each day for reading
Advertising News is evidence that you value
your time and believe in scattering it in fer-
tile places where the return is greatest.

Advertising Is News

In Santa Ana Churches

The Theosophical Society—Santa Ana lodge holds public meetings every Wednesday evening at 8 o'clock at 117-12 East Fourth street. Next Wednesday evening Mr. R. Valdemar Bray of Los Angeles will speak on "Psycho-Physical-Parallels." Lectures are free and public is cordially invited. Tel. 581.

U. S. PROBE OF CRUDE RUBBER HELD WASTE

"The recent decision of the government to spend \$500,000 on an investigation of the crude rubber situation means a plain waste of that much of the people's money," declared William O'Neill, vice president and general manager of the General Tire & Rubber company, in a statement received here today.

O'Neill is a director of the American Rubber association, has given the subject careful study and is a member of the committee of four American rubber men who recently conferred with the representatives of the British rubber growers.

"Much as every American," he said, "would like to see the production of crude rubber dominated by Americans, and all the rubber necessary for American use grown under the American flag, the fact remains that it is not practical as an economic proposition. The subject has long since been investigated very carefully and thoroughly, and the results are available in dozens of responsible places, so that the recent decision of the government to spend \$500,000, for 'investigation' means a plain waste of that much of the people's money."

"This refers of course to the highest grade rubber, hevea, of which Great Britain grows about 70 per cent of the world's supply, on the Malay Peninsula, and of which the United States uses the greater part. Hevea rubber is a native of Brazil, and was transplanted across the world, in plantation form, more than ten years ago, when the Brazilian government, which then had a monopoly, held its supply and ran the price up to three dollars a pound.

"The Dutch have developed other plantations not far from the British rubber territory, so that the two now supply virtually all the world's needs, and the output of original Brazilian rubber is now negligible."

RUMOR L. A. BANK TO OPEN ORANGE BRANCH

So far as is known to bankers of Orange, the Bank of Italy is not contemplating the establishment of a branch in that city, although a Los Angeles morning paper announced today that Orange was among a group of Southern California cities in which the big financial institution contemplated opening branches.

It was pointed out that the state banking department has just ruled that branch banks may not be established except by purchase of an institution that has been in operation three years or where necessity is shown for additional banking facilities.

These are not fanciful pictures, they are taken from real life. Scarcely an adult who reads these words but knows men and, alas, women, too, who have walked the downward way in spite of prayers and tears—as they have also known those who have passed through repentance to forgiveness and into the joys of a new life.

The Line of Human Life. If I had my audience before me I might present the thought on canvas.

I would draw a line from the upper corner of the canvas on one side to the lower corner on the other side, and then suggest that the line, extended upward, would reach the highest plans to which a human being can aspire and, extended downward, the lowest level to which a human being can fall. Every soul is somewhere on this line and traveling in one direction or the other.

The natural tendency is downward, but the God who, by endowing man with free will, made it possible for him to descend to the lowest depths, also made it possible for him to rise to the most exalted heights. The Heavenly Father's love is the lifting power that pervades the world, and Christ was made manifest in the flesh. He can save all and save to the uttermost; no matter to what level the individual has fallen, he can go back.

Any point upon the line can be made a turning point. Lifting Man's Load. Man carries his sins on his back as he descends, and the load grows heavier as he travels, but the Christ who has power to forgive has power to lift from him his burden of sin so that all his strength can be used in the upward journey toward that perfection which is enjoined upon all.

A Limitless Love. Only a word more; the love of God revealed in Christ is as limitless as all is universal. His fall is not only to all who labor and are heavy laden," but it continues while life lasts.

Christianity has been called "the gospel of the second chance"; it is more—it offers chances innumerable. It is no invitation to sin to state that those who fall may rise again. The test is not in the number of falls, but in the sincerity of the repentance.

Separation from Christ brings its own punishment because there is happiness in constant communion with Him. Prostration does not forfeit the sinner's chance, but it postpones his satisfaction. The world never needed a Savior more than now, the proof of His salvation is conclusive.

DISPLAY NEW MODELS OF CHANDLER AUTOS

L. E. Carpenter, local distributor for Chandler and Cleveland automobiles, today was making his first local display of the new Chandler touring car and chummy roadster. The new cars have pretty lines and are powered with the famous Pike's Peak motor.

PAIGE AND JEWETT SALES IN '22 TOLD

Sales of Paige and Jewett automobiles in the amount of \$32,749, 666.47 for 1922 and net profits of \$2,103,267.23 were reported by President H. M. Jewett at the annual stockholders' meeting of the Paige-Detroit Motor Car company held at the main plant March 5, according to reports received today by Edgar and Hays, local dealers. Jewett Motors is a subsidiary corporation, all of whose stock is being owned by the Paige Detroit Motor Car company.

Jewett also announced to the stockholders the completion of the plans for the erection of large additions to the West Warren avenue plant to increase the capacity to 500 Jewett sizes a day.

"During 1922 the Paige Detroit Car company shipped 29,743 six-cylinder cars, of which 9,323 were Paiges and 20,420 Jewetts; 26.88 per cent were closed cars," said Bruce Hays, a member of the firm. "Jewett production was started in a small way March 23. Full production was not reached until midsummer."

"The 1922 business showed an increase of 84.8 per cent over the first six months of 1920, when 16,000 cars were shipped."

Charles Ray will present his model of the Mayflower to the Los Angeles Museum when he completes "The Courtship of Miles Standish."

1922 BIG HUPP YEAR. DEALER POINTS OUT

"The year 1922 was the most successful the Hupp Motor corporation and its subsidiaries ever had both from the standpoint of volume and profits," said Otto Haan, manager of the Cadillac Garage company, Hupmobile dealer here.

"Total assets as of December 31, 1922, are given as \$19,079,551.78, of which \$833,373.33 is cash and United States certificates," Haan said. "Sight drafts for cars in transit and parts protected by dealers' deposits are listed at \$964,171.19 and inventories at \$6,832,050.95. Plant assets are set down at \$8,137,432.20, less \$1,607,501.54 for depreciation.

"December 31, 1922, the corporation carried forward the largest surplus in its history, \$8,091,136.30, a reserve strength that probably is not surpassed by any other automotive company, in proportion to its assets and liabilities. "So strong is the corporation financially that its surplus fund is considerably larger than all its preferred and common stock and that of its subsidiaries outstanding."

CHANGE IN BACK TAX BILL WINS SUPPORT

Owners of taxable property that has evaded the eagle eyes of the assessor and his deputies for a series of years may be made to pay taxes on such property for a period as far back as five years, if a bill approved by the legislative committee of the State Association of County Assessors is adopted by the state legislature, it was learned today.

W. G. Jerome, county auditor, and chairman of the committee,

has returned from Sacramento, where he was in conference with state legislators. As the law is at present, an assessor may levy a double tax for only one year, when discovery is made that a piece of property has been overlooked in assessing periods.

Jerome pointed out that instances of this kind are not of frequent occurrence in Orange county.

Theater Party Plans Prove Surprise to Birthday Honoree

When Miss Elizabeth Witman with her mother and sisters, went to Yost theater Thursday evening to see Oliver Twist, the party seemed to be a merry little affair until entry in one of the loges of the theater disclosed the fact that it and the one adjoining were filled with laughing young friends of Miss Witman who was celebrating her birthday.

The affair was planned by Mrs. W. C. Witman to surprise her young daughter and following the enjoyment of the film, all returned to the Witman home, 730 Orange avenue where they found a delicious supper awaiting them at a table gay with St. Patrick decorations.

A pretty birthday cake sparkling with green candles and individual loaves as typical "Paddy" were among the dainties of the menu.

The remainder of the evening was devoted to games enjoyed by the honoree, Miss Witman, her sisters the Misses Virginia and Margaret Witman and the Misses Lorene Porter, Veda Mitchell, Lois Winslow, Ninette Rowland, Helen Bows, Edith Karp and Virginia Lowell together with a group of boy friends, Percy Martin, Walter Karp, Ned Johnston, Fred Johnston, Gerald Twist, Harlan Kittle, Alan Dermott, Arthur Norman and John Thompson.

California Alumni To Meet Soon

Some real Golden Bear pep is to be uncorked at the rally of University of California alumni next Friday night.

All Orange County alumni of the university are to meet at the J. N. Anderson home at 501 Wellington street Friday, March 23, at 8 o'clock p. m. for a California Charter Day rally.

A program has been arranged which will mean a good time for everyone. California songs and yells will start the evening and no doubt be sprinkled through the whole program, from the Bear Yell to All Hall, the music to be led by Miss Florence Randall of Fullerton and Mr. Mattner of Brea; the yells to be led by Graydon Oliver of Fullerton.

E. J. Marks and Dr. Udder of Fullerton are to give short talks and plans are being made to get Dr. Moore, Director of the Southern Branch in Los Angeles down for the event.

It is also expected that there will be radio news from other Charter Day affairs throughout the states. These plans are being made today.

Chance is offered for Californians to get together in the brain's spirit to heart recent events and no campus and reports from the athletic and administrative activities.

Miss Isabel Anderson and Warren Hilliard are the committee for Santa Ana and would like to be informed as to how many of the local alumni can attend and urge any former California students in the city to save Friday, March 23 for the rally.

REAL ESTATE MAN PICKS CAPISTRANO

SAN JUAN CAPISTRANO, March 17.—E. W. Alexander is opening a real estate office in Capistrano. The old telephone office which has been vacant for some time, is being remodeled and will be used for this purpose. Mr. Alexander also has offices in Ocean-side, Anaheim and Long Beach.

Mrs. R. A. Bird and sons, Jennings and Thomas Bird, motored to Los Angeles Thursday evening, where they attended the evening performance at the Orpheum theater.

Mr. and Mrs. Harry Le Bas of Brawley, were visitors in Capistrano, Thursday. Mr. Le Bas was formerly the manager of the Standard Oil station here.

Mr. and Mrs. W. Charles entertained Mrs. J. Clarke, Miss Marie Kirker and Miss Josephine Peterson at dinner Thursday night.

A number of boys from the high school attended the track meet in Santa Ana, Friday afternoon. Those who went were Jack Congdon, Hugo Forster, Edward McHenry, Melvin Rosenbaum, Laurence Oliveras and E. Harper.

John Robertson will film exterior of "The Fighting Blade," starring Richard Barthelmess, in England.

TONE UP THE KIDNEYS. "Symptoms of kidney trouble are all gone. Water is clear and does not burn. Foley Kidney Pills certainly do the work," writes W. J. Grady, New Orleans, Louisiana. Backache, rheumatic pains, tired feeling, are symptoms of distressed kidneys. Foley Kidney Pills tone up the kidneys and quickly relieve kidney and bladder trouble. Refuse substitutes. Insist upon Foley's. Sold everywhere.—Adv.

St. Patrick's Program Entertains Guests at Fraternal Aid Union

Sure an it was a gr-r-r-r-and night last night up at the Fraternal Aid Union when R. Pay. Mitchell in his green vest and Wiley Harris in his tall hat which his old father wore, and all the rest of the boys and the pretty colleens too, gathered to honor St. Patrick himself.

And it was Miss Norma Wingood herself that was after tellin' the folks all about the lilts and the whistlin' that followed the supper. And such a supper! Sure and the boys and their swatehearts from Pomona, Long Beach, Orange, Pasadena, Los Angeles and such-like places had the best supper yet could ask, set formin' 'em. And the tables all had green candles on 'em too, and lots of the folks gathered round 'em were green caps, but there wasn't a shillalah nor even a good old dudheen in the bunch.

And when nearly 150 of the folks was after eatin' their suppers why thin it was that Miss Norma, wid her bib and tucker all of green and wid a cute little hat atop of the head of her pitty-pat, towid as how Mrs. Frank Harris would be after singin' a song.

Sure an she did it too, the saucy colleen, wid the hair of her all hangin' in curls and herself all gr-r-r-and-loke in a silk dress saved over from her wedding day. She sang "When Irish Eyes are Smilin'" and everybody joliked it so well they asked for more.

And did yez iver hear Miss Mildred Marchant and Miss Elizabeth Miller whistle the gither? Sure and it sounds like the mavis singin' in the hawthorn hedge and when they finished one chune, sure and they had to give us another.

Wiley Harris still in his old fokes's hat) could some clever jokes on some of the boys and thin Miss Harriet Owens wid her blue eyes rubbed in wid a smutty finger, sat and told one of the funniest stories about Daniel in the Lion's Den which a colored mammy was after tellin' her pickannin' tales. And the all joliked it fomp and she had to tell another about the "Grand Match."

And yez should have heard Mrs. Freda Moesser Barger playin' the pianny and singin' "How Ireland Got Its Name" and "My Wild Irish Rose." And then was a wee broth of a boy, the gr-r-r-and-son of the district manager, Miss Catherine Kern of Long Beach, who did some great jiggin' while his grand-daddy played the harmonium. 'Twas great it was and so was the talk his grand-daddy was after givin'.

Sure and there was Mr. and Mrs. Mit Phillips all'in all about "Johnny Smoker" and makin' us all wipe our eyes list from the laughin' we was doin'. And then they had to go on and sing about "Me Father and Mother Were Irish" and that was even better.

And after Eleanor Young Elliott towid some stories and Mrs. Harris lilted again about "That Sweet Irish Mother of Mine" they had a penny march and prizes were given wee Sam Peet the broth ar a boy dancer, Mrs. George Prather, Mrs. Royer of Pomona and J. R. Leach of Orange.

Sure Pat and yez should have stuck your dudheen in the pocket of your best coat and lined us.

Nurses' Association

At a meeting of the Orange County Nurses' association, held yesterday afternoon in the parlors of the Church of the Messiah, plans were made for compiling a nurses' directory for the county. Miss Ann Lieberman, Miss Carrie Morris of Santa Ana, and Mrs. Bauch of Anaheim were appointed as a committee to arrange the plans.

A clever one act play entitled "Dregs," put on by the Junior College drama class under the direction of Ernest Crozier Phillips was a feature of the program.

A talk was given by Dr. Sutton of Anaheim and was followed by the business meeting conducted by Mrs. Sydney Saunby, president of the association.

Judge Thomas Class

A full attendance of members of the Judge Thomas class of the First Presbyterian Sunday school is desired for tomorrow at 9:30 a. m. The meeting will be held in the class room as usual and will feature election of officers.

SALES OF OVERLAND AND 'KNIGHT' CARS

Shipments and retail sales of Overland and Willys-Knight automobiles substantiate, very definitely, predictions made before the new year by officials of the Willys-Overland company, Toledo, that 1923 will be a year of outstanding demand for Overland and Willys-Knight cars, according to George Ash of the Overland Santa Ana company.

From the first showing of the new models at the New York show, and simultaneously with dealers and distributors' exhibitions of the new line, there has been an unprecedented buying wave, that would indicate nothing but public approval of Willys-Overland products," Ash said.

"There were four times as many Willys-Knight cars sold this January as were sold in January, 1922, and January factory shipments were three and one-half times as great as in January of last year."

"During the first two weeks of February, production figures reached the highest point to date this year and further increased production is scheduled."

"Nervous America" Is Topic Discussed By Physician-Speaker

Responding to the call to bring thimbles and come at ten o'clock Friday morning, members of the Sixth Household Economics section of Ebell met at the home of Mrs. J. G. Quick on East Fourth street.

There they busied themselves tying small quilts for the Day Nursery with the result that nine were completed when luncheon was announced.

With Mrs. Quick were associated Mmes. J. E. Liebig and P. A. Robinson as joint hostesses. Erin's patron saint was honored in the appointments of the dainty two course tray luncheon served by them.

Mrs. John Clarkson presided during the business session in the absence of the leader, Mrs. S. M. Davis.

This section has delved into varied subjects throughout the year which has proven quite stimulating.

Mmes. F. W. Wesselman, W. D. Baker and T. L. Warren, the committee on program for the meeting, had arranged with Dr. Elizabeth Davis of the medical staff of Loma Linda sanitarium to give a talk.

Choosing for her subject "Nervous America," Dr. Davis gave a splendid talk along the line of early training of the child with the view of developing a strong character in the adult, and enabling him to find his own place in life. Many illustrations were made of cases coming under her own observation.

"The great fight of today is to 'keep up,'" declared the speaker. "Americans are more ambitious and progressive than any other nation and it takes nervous energy to keep up, and without that energy, one amounts to very little. Each one must know his own speed limit for we pay the price for the rate we go."

Members present to enjoy her talk were Mesdames W. D. Baker, J. P. Baumgartner, George Baldwin, Neal Beisel, G. E. Bruns, Charles Caruthers, John Clarkson, J. E. Gowen, C. F. Hell, F. P. Jayne, C. C. Langley, J. W. McCormac, George Preble, W. H. Smith, Herbert M. Sammis, T. L. Warren, H. T. Trueblood, F. W. Wesselman, Miss Ada O'Brien and the following guests, Miss Catherine Elliott of Philadelphia with Mrs. Robinson; Mrs. Davis of Los Angeles with Mrs. Baker, and Mrs. Baccas of Berkeley, mother of Mrs. Heil.

Household Economics

When members of Ebell's second section of Household Economics gathered recently at the spacious home of Mrs. Elmer Burns, 916 Spurgeon street, it was to be greeted by the very atmosphere of the Old Sea for Mrs. Burns, Mrs. Nat. H. Neff and Mrs. Bruce Monroe chose to use an Irish color harmony in honor of the genial saint who freed the Emerald Isle from its serpents.

From decorations to delicious luncheon menu, green was predominant, and each of the hospitable trio introduced clever touches of the color in her costume.

Following the luncheon Freeman Bloodgood was introduced as the speaker and addressed the members on "State Industries." He was followed by Mrs. John Clarkson, Ebell president, and Mrs. Samuel W. Nau, who were interested guests of the section and who each discussed the Women's Exchange and Tea Room.

Mrs. Swales also spoke and issued an invitation to the section to be present at the Memorial unveiling to take place the following day. Those present were Mesdames Fred Cole, J. C. Lamb, R. G. Tut-till, Charles D. Brown, A. P. Nelson, R. B. Newcomb, Ward Sutton, Elliott Rowland, M. A. Patton, Frederick Elsey, Leonard G. Swales, Berda Walker, Marshall Keeler, L. M. Forney, H. J. Selway, Roy Hall, A. G. Flagg, W. L. Delming and Miss Inez Cloyes.

A clear one act play entitled "Dregs," put on by the Junior College drama class under the direction of Ernest Crozier Phillips was a feature of the program.

A talk was given by Dr. Sutton of Anaheim and was followed by the business meeting conducted by Mrs. Sydney Saunby, president of the association.

REALTORS WAR FOR MORE POLICE HERE

Members of the Santa Ana Realty board today had renewed their effort to secure better police protection and better pay for members of the force, following discussion of the subject at a meeting of the board at St. Ann's Inn yesterday.

J. C. Wallace, secretary, called attention to the series of robberies Thursday afternoon and to the increasing crime wave, and declared that merchants and residents of the city should co-operate in efforts to secure better police protection. Members of the board will discuss the situation with members of the council.

George S. Bentley, who recently came here from Hutchins, Kans., to engage in the real estate business, discussed multiple listing, reporting that the system has been used very successfully by the Hutchins board, of which he formerly was a member.

Robert Agnew, juvenile lead in "Clarence," has signed a long-term contract with Paramount.

Miss Phil Athea Of Baptist Church Entertains Her School

School mates of Miss Phil Athea at Trawick Hall, a select school for girls, were delightfully entertained by that young person last night at the hall, otherwise known as the home of Mrs. T. R. Trawick, 826 South Sycamore street.

Miss Athea, supposed to be a student in the school, gathered together the members of the Phila-thea class of the Baptist church all of whom matriculated at the school where Mrs. Trawick was matron. Mrs. Earl Morris as Sarah Vandenberg, registrar and Miss Ida Ney, class president, as school head, Miss S. Wellesley Vassar.

Of the different departments, Mrs. McCosh as Betsy Ross gave instruction in domestic arts especially needlework while Mrs. Otto Russell as dean of music offered instruction under the name of Schuman-Heink to Jennie Lind, Adelina Patti, Anna Gluck and other famous song-birds.

Mrs. M. M. Holmes as Sarah Bernhardt, presided over the elocution department her pupils including Helen Modjeska, Pola Negri, Mary Pickford and Marguerite Clark.

Clara Barton, Madame Curie, Emma Goldman, Martha Washington, Alice Roosevelt and Miss Tut-tanhams were some of those registered for orthography under Jane Lathrop Stanford while Mrs. E. A. Davidson as Miss Wilhemina Shakespear enrolled Phoebe Hearst, Louisa M. Alcott, George Eliot and Kathleen Norris in the writing department.

Under Miss Grace Roberts as Sarah Tyson Rorer, Jimmie P. Cake, Carnation Borden, R. M. Davidson as Miss Wilhemina Shakespear enrolled Phoebe Hearst, Louisa M. Alcott, George Eliot and Kathleen Norris in the writing department.

Mrs. Trawick, inquiring as to lunches, found that no student had remembered to bring a basket so gave each one a dainty white box decorated with St. Patrick emblems. These contained sandwiches, cake and ice cream and the forty or more girls "students" arrayed in wondrous garments of childhood days had an enjoyable social time over their school lunches.

Daughters of Confederacy

With Mrs. Ray Stedman and Mrs. C. E. Price as hostesses at the home of Mrs. Stedman, 1406 West Fourth street, Daughters of the Confederacy were pleasantly entertained at their latest meeting.

The afternoon opened with a business session during which Mrs. Alice Overshiner and Mrs. Stedman were named as delegates to the state convention to be held in Berkeley in May. Mrs. Victor Montgomery and Mrs. Price were selected as alternates. Much interest was expressed in a letter from the president general regarding the national convention scheduled for mid-summer in Atlanta, Georgia.

Mrs. Stedman's pretty home was rendered more attractive by the lavish use of purple and white fleurs de lys while in the dining room where the two hostesses served ice cream and home-made cake, a variety of spring blossoms were used. During the refreshment hour, a Brunswick recital of Southern melodies added to the pleasure of the occasion.

Relief Corps

One new member, Mrs. Fanny Mather, was welcomed to the ranks of the W. R. C. at the latest meeting in G. A. R. hall. A pleasant afternoon was devoted to minor matters of business and a discussion of the department convention and other interesting matters of the future.

Calumpit Auxiliary

Members of Calumpit auxiliary plan to spend Tuesday in preparing delicacies to fill boxes which they will carry to the box social that night at G. A. R. hall when members of Calumpit camp will be expected to purchase them. A merry time is anticipated and the advent of March 20 is anxiously awaited by the interested members. The affair will be open at 8 p. m.

Sets for "Dorothy Vernon of Hadden Hall" will be erected while Mary Pickford is acting the role of the dancing girl in "Rosita."

Stocks, Markets and Financial News

PRICE OF POTATOES MAKES GAIN IN S. F.

SAN FRANCISCO, March 17.—Prices on southern strawberries were unchanged. Best Imperial valley stock sold from \$5 to \$5.50 per crate, while poorer berries sold for \$4.

Asparagus receipts are increasing. 305 boxes arriving today. Prices ranged from 15 to 25 cents per pound with a few sales at 20 cents.

There appears to be quite a flurry among potato and onion dealers with prices on both commodities steadily advancing. Potato receipts are very light, very few cars coming from river sections. Good river stock is bringing \$1 to \$1.75 per cwt, while Idaho russets are selling as high as \$1.50 per cwt. Dealers are feeling more optimistic on onions and are asking from \$2 per cwt. for dry and cold storage stock.

There was very little activity in the poultry market. Receipts of live poultry are lighter, 65 coops arriving by express. Only 1123 pounds of dressed poultry received.

Northern California shipments for 1922-23 season: Oranges, 323 cars; Lemons, 37 cars. Shipments 1921-22 season: Oranges, 373 cars; Lemons, 8 cars.

LOS ANGELES, March 17.—(Of the Fruit World).—Blizzards and storms throughout the greater part of the country east of the Rocky Mountains have slowed down the movement of California navel oranges.

Prices in some instances have ruled lower during the week although a general summing up of the situation at the end of the week discloses few price changes. The slackened demand is attributed entirely to unfavorable weather conditions. With open weather permitting the free movement of oranges all interests are agreed that the market will show immediate improvement.

Shipments of navel oranges are increasing. A total of 1296 cars were forwarded the passed seven days as against 1033 cars the previous seven days.

No Change in Price
F. o. b. California quotations show no change over last week. The range is as follows: Size 80s, \$1.75 per box; 96s and 100s, \$2.25; 126s, \$2.75; 150s, \$3.00; smaller sizes, \$3.25.

PORTLAND—\$7,483,586.
SEATTLE—\$7,483,586.
TACOMA—\$3,453,000.

TALBERT

TALBERT, March 17.—Mr. and Mrs. A. B. Presson and two children, Mr. and Mrs. Alva Stroh and baby were at Orange county park for the day, Sunday.

Miss Doris Jessie of Greenville was a Sunday guest of Miss Vera Bushard.

L. A. Lindsey of Willets, Cal., came Friday for a visit at the home of his daughter and son-in-law, Mr. and Mrs. Charles McDowell.

Mr. Lindsey and family will move soon to Santa Ana Heights where each has purchased a home site upon which they will build soon.

Mr. and Mrs. A. C. Gilbert had as a week-end visitor at their home Mrs. Gilbert's brother, Hershel Wells, Huntington Beach. Tuesday Wells left for Beverly Hills where he will be employed. He has purchased a lot there and will build a home.

Friends of Mrs. Francis Fowler, who before her marriage to Mr. Fowler was known here as Miss Ora Hill, daughter of Rev. and Mrs. Silas Hill, will be interested to learn of the birth of a son Sunday, March 11. The young man weighed ten pounds. Mr. and Mrs. Fowler reside at Bolsa.

Mr. and Mrs. Louis Bushard and daughter, Fay, with their niece, Rose Bushard, as their guest moved Sunday to Orange county park where they picnicked for the day.

Mrs. A. C. Burney had the pleasure of a visit Tuesday from an old

Oregon friend, Mrs. Snider, who is now a resident of Long Beach. It had been over twenty years since the ladies last met and Mrs. Burney had the opportunity of hearing directly from many of her former Marshfield friends as Mrs. Snider is but recently from there.

Mrs. Maud Wells was a dinner guest Tuesday of Mrs. A. C. Burney.

Dora Davis, Helen West, Ted Presson and Earl Presson spent Sunday at Huntington Beach.

Miss Deidah Gilbert was a guest from Friday until Sunday of her chum, Miss Vanona Worthy.

Mr. and Mrs. Charles McDowell are the parents of a little new daughter whom they call Betty Lee.

TALBERT, March 17.—A large crowd congregated Saturday evening and gave Mr. and Mrs. Frank Harper a rousing charivari. The newly-weds most hospitably entertained their callers and a pleasant social evening resulted with an abundant treat in evidence.

The party present included, beside local friends, a number from Santa Ana.

On next Sunday morning the first of a series of revival services will be held at the Talbert Methodist Episcopal church, South. The meetings will be held each evening and will continue in all probability for two weeks. Cottage prayer meetings are being held each afternoon this week.

Miss Dora Tucker a sister-in-law of Mrs. E. E. Elbertson, and her daughter, who have been house-guests at the Elbertson home, left Monday for their home at Vernal, Utah. The travelers expected a tedious trip as their home town is 200 miles distant, over a mountain road from the railway station and this distance has to be made by stage, making the journey a hard one for winter weather.

Mr. and Mrs. Polhemus motored to Banning Saturday where they visited until Tuesday with the

latter's aunt.

Mr. and Mrs. A. E. Gardner were week-end visitors at Hemet. Mrs. O. A. Ralph spent a couple of days this week in Santa Ana with Mr. Ralph's mother.

Mrs. E. B. Elbertson is confined at his home with an attack of influenza.

Mrs. A. F. Swift in company with other ladies, members of the Huntington Beach Rebekah lodge, visited the Whittier Rebekah lodge, Tuesday evening of this week.

Mrs. M. C. Hoepfner is away on a two weeks' visit with her mother in Pasadena.

Anton Giraud, wife and small daughter arrived Monday from Idaho and will remain at the home of Mr. Giraud's brother-in-law, Emil Leirich, where they are now guests until they locate. The Girauds were here but a few months ago and upon their return north decided on California as their future home, so sold all property interests there and returned as soon as possible.

Mrs. A. E. Gardner attended on last Saturday the district convention of the Rebekah lodge which convened in Santa Ana for the day.

To overcome the trouble occasioned by the interference of quick sand in the laying of sewer pipe the ditch for the line is being dug to a depth of six feet, one foot deeper than the depth up to this point and a foot of coarse gravel put in. The gravel is secured at the Meyer's gravel pit located not far distant from the point where the quicksand was discovered.

A camp has been established here with cook house for the men and accommodations for the teams employed. Formerly headquarters were in Talbert. Mr. Dowd of San Diego who has the contract for the laying of the division of the pipe line south of here and on into the bay, has arrived on the scene of operations and is preparing for the carrying on of the line.

The alfalfa harvest is on in full swing here about and an abundance of green feed is being secured from the numerous fields.

Rev. and Mrs. S. C. Bockmon

WALL ST. JOURNAL FINANCIAL REVIEW

NEW YORK, March 17.—From the standpoint of volume of dealings, today's stock market session was the least important of any two hour day since the start of the aggressive phase of the market.

But one point was strikingly emphasized. That was the complete absence of liquidation at current levels.

Professional operators succeeded in forcing some recessions among the speculative leaders in the early dealings but offerings dried up on the reaction.

When they saw no stocks coming out, traders began to cover their short contracts and the general list showed a considerably improved tone in the remainder of the session.

Ample explanation for the reluctance of investors and speculators alike to part with their holdings at prices now prevailing was found in the unrestrained enthusiasm of the appraisal of business conditions made by mercantile agencies.

In view of their optimism, the dominant feeling in the speculative community appeared to be that stock values had not yet measured the full scope of the business expansion and that current irregularity represented the protest of grouping technical strength in preparation for immediately higher prices.

The market closed higher.

LaHabra Heights AVOCADOS

Must have frost and wind protection. This property of 3600 acres situated in the hills north of La Habra, has proved itself as the ideal location for growing avocados and winter vegetables.

The keenest citrus and avocado men in Orange County are steadily buying up this property. They are buying because they know the soil is fine, the water supply is ample, and the insurance against frost and wind damage to their groves would make this land cheap at much higher prices than it is being sold for.

We can sell almost any sized acreage desired, with water piped to each piece.

We are equipped to plant and care for groves should the purchaser desire.

See us for appointment to show this property.

THE STORY OF THE TRUST COMPANY

A Trust Company is generally looked upon by "the man in the street" as an institution designed to serve people of wealth, only. Whereas the idea was born one hundred years ago for exactly an opposite reason. To correct this erroneous view point, we are commencing today to tell the story of our business. A short installment will appear each Saturday giving an outline of the history and functions of a Trust Company.

NUMBER ONE

The Trust Company is an American invention. It was first presented as a corporate trusteeship one hundred years ago. At that time there were comparatively few wealthy men in this country with the time, intelligence and financial responsibility necessary for the private management of estates and trusts, as they were generally administered in England. So incorporated trustee institutions were tried, and have been found so satisfactory that the idea was embodied in the Public Trustee, a

government office empowered to act in all matters of personal trusteeship, as we know them.

The Trust Company had few or no banking powers when it was first chartered, but trust functions involved banking functions to such a degree that the growth toward banking was inevitable. At the same time, demands for Trust Service were made upon the banker, until finally the two institutions have merged, the Trust Company becoming a bank and banks adding trust departments to their other functions.

MOVING BEE IS BUZZING NOW AT LAGUNA

LAGUNA BEACH, March 17.—Spring and moving are synonymous in many parts of the country and they seem to be in Laguna.

But when anyone feels the desire to move coming over them they do not go house-hunting, after the manner of dwellers in other communities, they simply decide upon a suitable location, gather up all their belongings, including the house and depart hence, to the new site.

No Location Suits

There is hardly a house in Laguna, of any age, that has not been moved at least once.

Even the old Laguna Beach Hotel has known the racking discomforts of travel, for it started out in life at Arch Beach, near the place where the Colman studio now stands and was moved to its present situation by the Yach's many years ago.

Mrs. Catherine A. Brooks' residence stood on the ocean front a few years ago and has been moved three times in the past six years.

The Raven Cafe building, modern in appearance and pleasing to the eye, now, once stood next to the post office store and was known as the 'Grey Gables' and has, at one time or another, changed every old time visitor to Laguna.

It also contained the first library in Laguna, a much appreciated and widely read collection of books.

One house, built in 1887 at Arch Beach, was moved in 1896 to the lot next to the 'Grey Gables' and was moved from there in 1922 to Miss Alice Beardsley's property on the road to the school house.

A block below that is a cottage that was brought to Laguna from Orange in 1915.

Shuffle Houses Again.

The moving fever has struck Laguna again this year.

The 'Polinetta' Apartment, built in El Toro and moved to Laguna some years ago, has been split and taken to Laguna.

A block where it will be made into three houses.

Murphy brothers will move their small store to another site to make room for the new building they are going to erect.

Francisco Manrique has bought a house on the Heights which he intends to move, also.

On the Cliffs another house is preparing to travel to a new location.

O. V. Dort of Santa Ana has supplied the motive power that has transferred this year's 'ramblin' habitations to their latest resting places.

BRAINY ENGINE, ONLY ONE IN CAPTIVITY, FOILS ANAHEIM COP

ANAHEIM, March 17.—Inventors are always boasting of new types of motors for automobiles, but Officer Bert Moody declares that he has found one that wins the gnat's highspeed for efficiency. This one is 'top proof.'

The other day, Moody was walking along Center street and came upon a car which had been parked at the curb and abandoned by the driver, who had forgotten to turn off the motor.

'Chug, chug,' laughed the motor as the officer pulled a red tag and pencil from his pocket. But as the patrolman began to write on the tag, the motor grew less hilarious until just as he started to hang the red cardboard on the steering wheel the engine sounded a final 'chug' and stopped dead.

Being a little embarrassed Officer Moody put the tag back in his pocket and walked away without waiting to identify the owner of the trained engine.

NO OPENER ON ONLY IRISH DAY OF YEAR; AH ME, A SAD TALE

ANAHEIM, March 17.—Members of the Anaheim police force recalled 'the good old days' as they looked over the 'Lost or Stolen' file at headquarters this morning for, among keys and other things listed by Charles M. Murphy as having been taken from his automobile, appeared the item: 'One beer bottle opener.'

This relic, explained Mr. Murphy, was fastened to a ring of keys taken from the Ford car while it was parked in front of 244 South Los Angeles street. Since the article has become obsolete, it is said that the thief may keep the bottle opener if he will return the keys.

FORMER MAYOR OF NEWPORT IS BURIED

NEWPORT BEACH, March 17.—Grief over the death of his wife, two months ago, caused the demise of Charles A. Barton, former mayor of Newport Beach, who was 75 years of age. His funeral took place this week.

Mr. Barton served for four years on the board of trustees, and was mayor in 1908. He lived for a number of years at Eureka and Yucipa.

Radio Expert at Hawley's

ANAHEIM WOMAN IS ABLE TO SLEEP NOW AFTER PIGEONS FLY

ANAHEIM, March 17.—Mrs. Anna Van Leer is sleeping nights again, it is said. She lives at 411 East Cypress street and the cooing of the doves, (she called them pigeons), across the street caused her to leave her bed at 3 o'clock in the morning and seek the solace which walking the streets is reported to give.

In the morning she protested to some extent.

Arizona Car Recognized

WOULD TIGHTEN CODE

FULLERTON, March 17.—Recommending that the state legislature adopt measures now before them with reference to making more drastic the criminal laws for the state and the adoption of a three-fourths jury system, except in cases where the death penalty is involved, in the Fullerton Chamber of Commerce has forwarded to Orange county representatives in Sacramento, a series of resolutions which deal with the amendments to the penal code. It is said that the pending changes in the penal code would have the effect of creating better conditions throughout the state and would give both the courts and police departments greater power and jurisdiction over the habitual criminal.

HUNTINGTON HUSBAND

HUNTINGTON BEACH, March 17.—Mrs. J. N. Francis, Huntington Beach, is looking for her husband and, besides asking police of several Central California towns to help her, she has sought the aid of Mayor T. G. Hart of Fresno, according to information received here today. The missing husband was last seen traveling in an antique pink and trimmings in the 'mobile bungalow' in the past.

Francis is said to have left the beach town several weeks ago in the colorful conveyance, bound for San Francisco. Letters to him have been returned unopened, says his wife.

ARIZONA CAR RECOGNIZED

ANAHEIM, March 17.—When Ronald Teeter visited Charley Lucas at Phoenix, Ariz., last fall he rode in Charley's car. It was colored like a camouflage ship, if that word may be revived. Ronald didn't ever forget how that car looked. When Ronald saw Charley's car shuffling down an Anaheim street he called police because he knew that it had been stolen. Officers are looking for E. M. Lyle who they said sold the car to a local dealer.

MANY PLEDGES UNPAID

ANAHEIM, March 17.—All those residents who subscribed to the Anaheim Chamber of Commerce fund but have failed to meet their pledges were scratched from the roster of the organization by the directors. Several of the claims were referred to the 'Put and Take' club. The secretary was given the official task of 'putting and taking.'

He said a man should consider a pledge to the chamber as binding as one made to a church.

COMPANY SHOOT SCENES

BALBOA, March 17.—The Universal Motion Picture Production corporation had a large company under the direction of 'Duke' Warner here recently 'shooting' scenes for a feature production to be released in the near future.

Miss Ann Little and Fred Thompson carried the leading parts. Night scenes were taken in front of Roger brothers marine ways Tuesday and Wednesday evenings, when the 'Louise,' owned by E. D. Burge of Santa Ana, with Capt. Reld in charge, was used as the main setting.

MAN DENIES DEATH

BALBOA, March 17.—When C. F. Stanciliffe, expert boat builder and a resident of Balboa island, first heard rumors of his own death, he was inclined to believe with Mark Twain that they were greatly exaggerated. When, however, things came to a pass that his bank refused to honor his checks until his estate had been settled, he began to become doubtful as to whether he was alive or not. Mr. Stanciliffe is at a loss to know how the report of his death became circulated about, but it has received such widespread publicity, even having appeared in a leading Los Angeles morning paper, that the results have been very annoying to him.

EASTER MUSIC AT WINTERSBURG CHURCH

WINTERSBURG & SMELTZER, March 17.—Mrs. E. A. Jones is planning a young people's choir church and wishes all those interested to attend Epworth League Sunday evening so songs for a special Easter musical program may be practiced. Regular practice on the program will be held all next week.

WINTERSBURG & SMELTZER

March 17.—Mrs. Paul Dufresne is suffering this week from a burn on one of her eye balls. The injury was sustained Saturday when a hot curling iron slipped, leaving its mark on the eye. It is not now thought that the injury will prove serious although for a day or two it was feared her sight would be impaired.

Orange Man Tells How 'Con' Sharks Got Him to Part With \$14,000 in Savings; Alleged 'Swindlers' Now Are on Trial

ORANGE, March 17.—After his name had been revealed in Denver as one of twenty-eight men who had been swindled out of approximately \$228,000, himself having lost \$14,000 to bunco men, A. H. Dushin of 133 North Shafter street, Orange, today told a Register representative just how the money was dropped.

Dushin's name was given by George L. Reamey, confessed bunco stealer, at the first session of the trial of twenty alleged swindlers. Reamey said that one of the alleged managers of the confidence ring, told his fellow workers that police protection for the gang was 'iron-clad.' The million dollar bunco ring made big killings from tourists passing through the Colorado city in 1920, 1921 and 1922 by selling them fake stock, Reamey declared, and the Orange man, a former resident of Stuttgart, Kansas, corroborated his statement.

Others Left More

Dushin's 'contribution' was well up among the leaders, Paul Schalkel of Chelsea, Mich., having left \$25,000 with the men, and several middle westerners somewhat smaller sums.

Dushin explained that each year he makes a trip to his old Kansas home at Stuttgart. It was on his return to Cal-

ifornia from one of these trips that he got off for several hours at Denver to make connections, he said. He looked about for an eating place and soon a stranger, well dressed and debonaire, approached him saying he, too, wanted to find a cafe. The two decided to eat together.

Would 'Make Some Money'

While they were eating a third man, whom the second man introduced as a member of the New York board of trade, came up and struck up an acquaintance with Dushin and his friend, who said he was from Los Angeles. The Los Angeles man wanted to 'make some money' and ventured the assertion that the board of trade man might be able to help him do that.

The two, the board of trade agent and the alleged Los Angeles man, drew up a contract to buy a large amount of Mexican Petroleum stock, which at that time, the last of August, 1922, was soaring.

Dushin was to receive twenty per cent of the 'billings' as was the Los Angeles man. The board of trade representative was to repay the Los Angeles man his money and twenty per cent of what he made as well, for the use of his money.

'Big Killings' Is Made

The deal went through, a

big killing was made. The agent claimed that the money \$40,000, was on deposit in a Denver bank but that in order to play on the 'change, the funds must be left there for 30 days to establish the credit of the dealers. The game seemed so absolutely on the level that Dushin said the men had his confidence completely.

The second deal was made but it was a 'flivver,' the agent broke down and 'cried' when he told his two friends that he had lost all, he must raise a large amount of money to cover his losses. Dushin said he drew \$14,000 from his private funds to cover the losses and was ready to play again.

His Wife Talks

He came home to his home and told his wife of his strange adventure. It was Mrs. Dushin that persuaded the former Kansas man to stop his transactions with the men, telling her husband that 'it might be a trick or scheme.' Dushin quit cold and gave up hope of ever recovering any of his funds.

The county attorney in Denver has subpoenaed him repeatedly but Mr. Dushin has felt; he said, that he could not leave his wife alone and make the trip to Denver to appear as witness against the men.

SACRED CEREMONIAL OF CAMPFIRE SUN.

HUNTINGTON BEACH, March 17.—The local Camp Fire Girls will mark the eleventh anniversary of the organization of their society with a sacred ceremonial Sunday afternoon at 5 o'clock in the kindergarten building of the grammar school. The 'Wohelo' call, signifying work, health and love, the watchwords of the Camp Fire Girls, will be given as well as the hand sign of the fire, 'Wohelo for Aye,' the ceremony of 'Burn, Burn, Burn,' and candle ceremony. Scripture will be read and a talk given by Rev. Luther Arthurs. Mrs. Stout and Mrs. Howard will also address the girls. A song will close the ceremony.

RETURNING COUNCIL AWAITED AT BEACH

HUNTINGTON BEACH, March 17.—Wives of the absent councilmen and accompanying city officials are rushing to answer every sound at the front entrances themselves today—hoping that their 'wandering boys' have arrived on schedule time. For 'tis whispered that although these Lionsess enjoyed the special feed with which they were honored Wednesday in the absence of their husbands, they are perfectly willing to forego any more such privileges just to see their men folk once more.

Likewise many citizens are watching for their representatives who are scheduled to return today or tomorrow, to hear the reports which they will bring of the best paying system in California.

The first official gathering and report of the travelers will be at the regular meeting of the city council Monday night.

LAGUNA BRIDGE LUNCHEON

LAGUNA BEACH, March 17.—Miss Lolita Perine and her mother gave a bridge luncheon Tuesday, at their home on Laguna Heights. Places were laid for twenty-four at the luncheon and there were five tables of bridge in the afternoon. Mrs. Case and Mrs. Roy Purpus carried off the prizes.

Phone 237 for good dairy products.

GOOD PLUMBING IS THE VERY THING—TO MAKE YOU HAPPIER THIS SPRING.

PLUMBING

Sanborn's Little Plumber

In the springtime everybody and his brother and his cousin Bill are looking for happiness. One way to make certain that you're going to enjoy this season of the year is to install some good, dependable plumbing. If you're going to build this spring it would pay you to talk over the specifications with us.

J.D. SANBORN

CITIZEN OF LAGUNA GOES TO HOSPITAL

LAGUNA BEACH, March 17.—'Billy' Willis, one of Laguna's pioneers, was taken to the Orange County hospital in an ambulance sent down for him Thursday.

'Billy,' who is one of the characters of the village, is nearing eighty and for the past number of years has spent at least a month out of every twelve, resting and recuperating at the County hospital.

SUNRISE SERVICE ON PIER PLANNED

HUNTINGTON BEACH, March 17.—A huge white cross, surmounted by a wreath of Easter lilies, will be placed at the end of the Huntington Beach pier for the sunrise services. It was announced this week by local pastors. Sunrise Easter morning will be at 5:25 o'clock and by 6:30 o'clock the service is expected to have been completed.

CIGAR BOXES ARE USED FOR WEAVING

HUNTINGTON BEACH, March 17.—'What are all those girls doing with cigar boxes in school?' demanded one small boy of his playmate.

'Don't know. Must be another one of those women fads. Think they can have cigar boxes cause we men do,' his fifth grade partner answered, then added practically 'Let's go see.'

But as they wandered about among the hundred or more girls transporting open cigar boxes about the grammar school grounds they discovered that the disputed boxes were not fads, but 'bead looms.' Across the open top of each box they discovered fine threads on which the girls were industriously stringing various colored beads in many shapes and designs. All were working fast and furiously to complete the Camp Fire Bands before the Sacred Ceremonial, to be conducted Sunday afternoon.

LAGUNA BEACH

LAGUNA BEACH, March 17.—Miss Anna Hills is back from Whittier, where she has an art class once a month. There are ten in the class, Miss Hills says, and all are very enthusiastic workers.

Mrs. Frank Champion entertained with a small bridge party at her home Thursday, in honor of her house guests, Mr. and Mrs. Elder.

Miss Jean De Anna has gone to Los Angeles for over the weekend.

Mr. and Mrs. Tom Sayles, Mrs. Perry Warren and Oscar Farman are all on the sick list this week, confined to their homes with colds.

There were forty-five present at the Community Club's bridge supper this week and ten tables of bridge.

Mr. and Mrs. J. Powers were the host and hostess.

BABY BOY ARRIVES

LAGUNA BEACH, March 17.—A son was born to Mr. and Mrs. Firey Shaw of Laguna Heights Tuesday, March 13. Mrs. Shaw is Mrs. Alsbach's daughter.

Buy Easter cards at The Summer Shop. The greetings are lovely, and they are being closed out at half price. Birthday and all other card stock at 1/2 off also. Upstairs, 111 1/2 W. 4th St.

Cleaning, Pressing, Shaws, Ph. 137.

New address, Shaw's Odorless Dry Cleaning, 614 W. 4th.

BALBOA COMEDY IS NOW IN REHEARSAL

BALBOA, March 17.—Work on the three-act comedy 'His Excellency, the Governor,' has been started under the direction of Mrs. George Hedy. This play, to be produced in about three weeks, is to be given under the joint auspices of the Women's Civic League and the Ebell Club, and the proceeds from its production will be divided equally between these two organizations.

The two clubs were fortunate in securing the gratuitous services of Mrs. Reld to coach the cast and supervise the production in general. She has been in dramatic work the greater portion of her life, and has, in addition, been one of the producers of the play upon several different occasions, as well as acting one of the leading parts.

The tentative selection of the cast is as follows: His Excellency Sir Montagu Martin, Governor of the Amandaland Islands, Ted Plummer; The Right Honorable Henry Carlton, M. P., H. L. Sherman; Captain Charles Carew, aide de camp to the Governor, Jack Garfield; Mr. John Beavertock, secretary to the Governor, Charles Way; Captain Rivers, Jack Dule; Major Kildare, Harry Garson; a sentry, Percy Wilson; a butler, R. J. Briscoe; a footman, Harold Stein; W. W. Brown, Ethel Carl; Florence Rodgers; Stell de Gex, Mrs. H. G. Stearns.

KNIGHTS TO ATTEND FULLERTON CEREMONY

More than fifty Santa Ana Knights of Columbus are planning to attend the dedication of the new St. Mary's school in Fullerton tomorrow afternoon at 3 p. m., it was learned today.

The Rt. Rev. John J. Cantwell, bishop of the diocese of Monterey and Los Angeles, will officiate and will be assisted by Knights of Columbus from Santa Ana, Anaheim and Whittier.

Following the dedication there will be a banquet held in the social hall of the St. Mary's parish.

It is expected that there will be many Catholic notables from Southern California in attendance, at the dedication of this new parochial school.

CURED HIS RHEUMATISM!

'I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'Uric Acid' until I could taste it. I could not sleep, sleepless nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends might just as well attempt to put out a fire with oil as to try to get rid of your rheumatism, unless you take E. Pinkham's Compound, by taking treatment supposed to drive Uric Acid out of your blood and body. I took Mr. Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism and other disorders, and recover his health and strength from reading 'The Inner Mysteries,' a book now being distributed free by the author, an authority who has devoted over twenty years of his life to the scientific study of this trouble.

Anyone sending name and address to E. B. Clearwater, P. O. 1929, Wall Street, Hallowell, Maine, will receive by mail and entirely free of charge one complete copy of 'The Inner Mysteries,' a book which contains facts overlooked by doctors and scientists for centuries. It will be helping some afflicted friend by handing this good news and opportunity to him.

NOTE: As the number of copies available to readers of this paper is limited, it is advisable that you act promptly.—adv.

CONFERENCE OF ROTARIANS IS BIG MAGNET

ANAHEIM, March 17.—Anaheim Rotarians are making preparations for having the local club well represented at the first annual conference of the second district of Rotary in Pasadena, April 5, 6 and 7. Jack Williams, district governor of Rotary, Long Beach, will be the presiding officer.

Delegates from all sections of California, Nevada and the Hawaiian islands will attend, it has been announced.

Prepare for 3000

Preparations are being made for the accommodation of fully 3000 members. Santa Ana and Orange are other county clubs to be represented.

The official message of Ray Havens, international president of Rotary, and the plan of conducting the conference will be announced by Mr. Williams. He will serve as the direct representative of International Rotary.

Good Speakers Obtained

Speakers of prominence from many sections of the United States have been obtained to deliver messages of an educational nature, on ideals of Rotary, during the conference. All matters of legislation will be set aside for the reading of the gospel of the organization.

Wives of the members attending the conference will be entertained during the three days' visit.

In addition to learning the true principles of Rotary, a plan to include entertainment in the program of events has been provided. Mention has already been made of a trip to Mt. Lowe and the Mission Play with other forms of diversion.

LIONS CLUB IS TO HEAR GOOD ADDRESS

HUNTINGTON BEACH, March 17.—Dr. C. J. Curran, New York, will tell the Lions club Wednesday at their regular luncheon, 'How to Make a Greater Success of Your Business.' Charles P. Patton and William Moomaw are the chairmen of the day and will have charge of the entertainment program.

CAMP FIRE GIRLS WILL GIVE DRAMA

HUNTINGTON BEACH, March 17.—'Happiness' is the name of the play which will be presented Friday night, March 23, at 8 o'clock in the grammar school auditorium by the Manaraha Camp Fire Girls, under the direction of Miss Henrietta Horne and Miss Dorothy Mosher. The following are in the cast: Henrietta Horne, Zelma Brown, Marion Cleave, Burdette Brown, Bessie Manselheimer, Virginia Ward, Irene McGuire, Pauline Black, Effie Howe, Adela Ross.

CLASSES TO MOVE TO NEW QUARTERS

ORANGE, March 17.—Monday morning will find the History and English departments of Orange high school in their new quarters in the recently completed auditorium building.

Liberary principal and dean's offices and the student body room are to be found in the new building.

The moving is to be completed during the week end and classes will meet for the first time in their new locations next week.

The drama class has already taken possession of the auditorium during class hours and the music department is nearly settled in the third floor orchestra and glee club rooms.

L. V. Allen and company have been awarded the engraving contract for the 1923 commencement announcements of Orange union high school.

Formal note paper has been selected and the announcements will be perfectly plain, having only the class seal at the top of the page.

The engraving is to be the shaded Roman which is so popular this year.

THEATERS

TONIGHT'S ATTRACTIONS

YOST — Vaudeville and "Oliver Twist," with Jackie Coogan.

TEMPLE — "Adam and Eva," with Marion Davies.

WEST END — "Do and Dare," with Tom Mix.

PRINCESS — "Rent Free," with Wallace Reid.

"THE WHITE FLOWER" AT WEST END TOMORROW

Surf-board riding and outrigger canoeing, favorite sports of the tropics, are no longer mysteries to Betty Compson, the petite star who went to Hawaii for the purpose of filming her latest picture "The White Flower," which is due for a four days' showing at the West End theater beginning tomorrow.

On the famous beach of Waikiki, under the tutelage of native masters of these fine arts, Miss Compson learned to ride the waves with the best of them.

Of the two, surf-board riding proved to be much more difficult. In the story of "The White Flower" the star plays the role of a half-caste girl, who is a complete mistress of these sea sports. So Miss Compson promptly secured an instructor and devoted all spare time to the pleasurable task of learning just how it is done.

Edmund Lowe, who plays the leading masculine role in this picture, was an enthusiastic pupil of the native instructors, although his role did not demand that he ride the combers before the camera.

Julia Crawford Ivers headed the party of twenty-five persons who went to the Hawaiian Islands to produce this story. In addition to directing the screen play, Mrs. Ivers also wrote the original story of "The White Flower" during a previous visit to Honolulu. The story is dramatic, and the action unusually thrilling.

"THE POWER OF A LIE" AT PRINCESS

That one lie can change the course of several human lives, wreck homes, minds, souls and bodies, is the theme on which Johan Bojer, famous Norwegian novelist, has based a story which is equally well known in this country and in Europe. From a screen version by Charles Kenyon, George Archibald has produced a graphic and powerfully dramatic picture in "The Power of a Lie" which comes to the Princess theater tomorrow.

A remarkable cast was chosen to interpret the clearly drawn characters. It consists of Mabel Julienne Scott, Earl Metcalf, June Elvidge, David Torrence, Phillips Smalley, and Ruby Lafayette.

Colleen Moore and James Morrison discovered while working in "The Nth Commandment" that they are distantly related. Their

Betty Compson who appears in "The White Flower," which opens at the West End tomorrow.

Alice Brady and David Powell in a scene from "Missing Millions," film coming to the Yost theater tomorrow.

"DARLING OF THE RICH" AT YOST WEDNESDAY

"The Darling of the Rich," Betty Blythe's latest starring vehicle, which comes to the Yost theater next Wednesday, deals with high life among the millionaires of New York, and consequently is rich with lavish scenes. No expense has been spared to make realistic the atmosphere of Manhattan wealth and fashion.

Miss Blythe's role is that of the favorite of society, "The Darling of the Rich," and the picture shows many affairs which she attends like a queen—of Manhattan. These affairs are sumptuous, while the gorgeous Betty is naturally appareled in gowns which take the eye and hold it long after the picture has been run. Dorothy Farnum wrote the story of "The Darling of the Rich." John Adolfi directed the picture.

"MISSING MILLIONS" AT YOST TOMORROW

A decidedly novel way of removing gold from an Atlantic liner from which it was stolen under the very eyes of the ship's officers, is illustrated by Alice Brady, the star of "Missing," which comes to the Yost theater tomorrow.

Miss Brady, who has just returned to the screen after a year on the legitimate stage, has the role of Mary Dawson, a crook. Mary is greeted by six innocent looking flappers when the ship reaches port. The girls all wear bandoliers packed with gold bricks so, perhaps, you can guess how it is that they were able to walk off the ship right past the officers.

The story abounds with action of a dramatic quality, including as it does two big robberies, the railroading to prison of an innocent man, two distinct plots for a gold robbery, a big problem and a big sacrifice. The cast is particularly strong, and is headed by David Powell and Frank Losee. The picture is based on two of Jack Boyle's famous Boston Blackie crook stories and it has been splendidly directed by Joseph Henabery.

WALLACE REID FILM AT PRINCESS TONIGHT

By request the Princess theater is tonight showing "Rent Free," one of the late Wallace Reid's pictures.

The story is based on an artist's adventure in avoiding paying rent for a studio. It brings a wealth of romance and sentiment, two qualities the picture lover is looking for, a story of an artist who whistled and hummed and talked to his dog—who painted and helped young women in distress, who never cared where his next meal was coming from, or when. He found love and he found a free home.

"Rent Free," one of the last pictures made by the late Wallace Reid, will be shown at the Princess theater tonight.

"OLIVER TWIST" CLOSES RUN AT YOST TONIGHT

Jackie Coogan has been legally adopted by his own mother. This was done by his parents to safeguard the boy's financial interests which under the guardianship appointed must be supervised by the superior court. Mr. and Mrs. Coogan believed the public was entitled to know that Jackie's earnings would go into Jackie's coffers and into no other's. This was done just prior to the completion of "Oliver Twist," which will be shown for the last time tonight at the Yost theater.

6000 WATCH FILMING OF "ADAM AND EVA" SCENE

Ten policemen were engaged to keep order in the crowd of six thousand people which nightly visited the estate of William L. Marks near Stanford, Conn., to watch Marion Davies, making scenes for her picture, "Adam and Eva," which will be shown at the Temple tonight and tomorrow.

A sloping hillside framed a natural amphitheatre. Beautiful Venetian carnival scenes formed a glowing background for the picturesque costumes worn by the star and other members of the cast. Floating, flower-decked gondolas, fireworks, marble statues and other striking effects made the scene one of great beauty.

MARC MACDERMOTT IN "LIGHTS OF NEW YORK"

Marc MacDermott has the leading part in the second section of the newest William Fox production, "Lights of New York," which will be shown at the Yost theater Monday and Tuesday. In this remarkable photoplay MacDermott is cast as the main character in the episode which deals with society life in the big city.

Marc MacDermott, acclaimed by both press and public as one of the foremost actors of the screen, is said to outdo himself in this production. The episode in which this great actor appears is one of the truest scenes that has ever been flashed on the silver screen, many critics declare.

It deals with the experiences of a man who had the opportunity to make a fortune, but who lost his chances because of a misunderstanding with the girl he loved.

Conrad Nagel will play opposite Hope Hampton in the screen version of "Lawful Larceny."

All the movie stars, do it, even Strongheart, the dog. He spoke over the radio the other night.

TOMORROW'S ATTRACTIONS.

AUTOMOTIVE SECTION

SECTION TWO

SANTA ANA, CALIF., SATURDAY, MARCH 17, 1923

PAGES NINE TO SIXTEEN

MAY 5 SET AS GALA DAY IN COUNTY FOR OLD AUTOS

Expect Many Ancient Cars To 'Strut Stuff' Here In Big Contests

TO STAGE SPEED RACE

S. A. Legion Post, M. and M. Endorse Program; Plan Monster Dance

Saturday, May 5, is to be auto resurrection day in Orange county.

Piles of wreckage, once known as automobiles, but which long ago gave up the struggle and entered what was thought would be their final resting places in junk yards of the county, are beginning to turn over in their graves in anticipation of the day when they will again "strut their stuff" before admiring throngs.

Like Old King Tut, the ancient machines are again expected to hold the center of public interest, forcing the modern automobile out of the limelight for a day.

A local committee, consisting of Horace Pline, Tom Lewis and C. B. Wheatley, local newspapermen, co-operating with Santa Ana Post No. 131, American Legion, is rushing to completion plans for the event which is expected to include a parade, races and a monster dance at the Legion hall in the evening.

Used Cars to Race
The big event of the day's program will be the race for the used car championship of the county, but in addition to the championship contest there will be races for cars in reverse gear, obstacle races and other novel events. Only ancient cars, the older the better, will be allowed in these events.

The parade will open the day's program. In order to do away with all possibility of speeding in this event the committee has arranged to have Justice of the Peace John B. Cox act as grand marshal of the parade and efforts are being made to have a member of the fair sex who spent some time in the Orange county jail on a speeding charge, drive Judge Cox's machine at the head of the procession.

Justice Cox and his fair chauffeur will also act as judges at the races in the afternoon.

M. & M. Backs Plan
The Merchants and Manufacturers' association of Santa Ana has already endorsed the event, which is to be made one of the most novel ever undertaken in Santa Ana. The local Legion post, which will share in the proceeds of the event, has also given its approval to the affair, and all Legion posts of the county are to be given an opportunity to assist in the program and to share in the proceeds.

The day's program will end with a dance at the Legion hall in the evening. Tickets for the dance are to be sold in advance and the car winning the championship race is to be given away at the dance.

The big feature of the parade will be a division in which will appear cars of the present day alongside models of an early vintage. Prizes are to be awarded winning cars in the various divisions of the parade.

Reduce Insurance Rates On Autos 10 to 30 Per Cent

The cost of operating automobiles slipped down another notch this week for those motorists who carry insurance.

According to advices received by local agents, rates have been reduced 10 and 30 per cent according to risk classification, the reduction being retroactive to January 1, 1923.

Public liability rates on commercial cars were reduced 10 and 15 per cent, with premiums on full coverage being reduced 30 per cent.

According to authorities, the reductions are the result of improved traffic conditions, better enforcement of speed laws and decreasing number of accidents.

WILLYS-OVERLAND SHOPS LIKELY TO BE OPENED AT OAKLAND

In the opinion of automobile men, Oakland has "the edge" on the 125 cities in California that have made a bid for the manufacturing plant that the Willys-Overland company proposes establishing in California.

It is conceded that the choice has narrowed down to Oakland and Los Angeles. John N. Willys, who is now making a coast survey of the field with reference to location of the proposed plant, is quoted as saying that such a plant will be under way before the end of this year.

Santa Ana is among the cities that have invited the head of the Willys-Overland company to establish the manufacturing enterprise.

BEGIN POSTING MISSION ROAD AUTO SIGNS

Actual sign-posting of El Camino Real, the "king's highway" of California, has just been started by the Automobile Club of Southern California, according to an announcement made today by Elmer Heidt, local manager.

"This is one of the most significant highway sign-posting projects ever undertaken in America in view of the fact that it permanently establishes the historical mission road along the coast of California and sets the seal of modern road-signing methods on an age-old foot path of romance," Heidt declared.

New signs to be erected by the Automobile club will be placed on the famous "mission bell" road markers which have become familiar to thousands of motorists who have toured in California during the past five years. Wherever there is a mission bell there will also be a brand new automobile sign linking the past of ox carts to the present of motor cars. The Southern California club will have the responsibility of sign-posting that portion of El Camino Real which extends from the San Diego mission on the south to the San Luis Obispo mission on the north. In this territory will be found such famous missions as San Luis Rey, San Juan Capistrano, San Gabriel, Santa Barbara and Santa Ynez.

APPROVE BILLS FOR CAL. ROAD UPKEEP FUND

Measure to Increase Auto License Tax Fee to \$3 Is Recommended

Fifteen million dollars will be available annually for county and state highway maintenance if a bill amended and recommended at the state convention of supervisors at Sacramento is approved in its original form by the state legislature. It was learned here today following the return of members of the Orange county board from the convention.

According to S. H. Finley, supervisor from the First district, the convention adopted recommendations of a committee appointed to investigate and draft a suitable law covering the points of truck weights, and license charges.

Raise License Fee.
The license bill was the basis of the measure approved. The most important change was in raising the general license fee from \$2 to \$3 per year.

As approved by the convention, the measure provides a registration fee of \$3, a two-cent tax on gasoline, a truck weight maximum of 22,000 pounds and an additional tax of trucks of \$10 to \$150 per annum, according to the size of the vehicle.

Under Rail Board.
It also provides that public passenger transportation lines be placed under jurisdiction of the railroad commission, with operators paying 7 per cent tax on gross receipts.

It is estimated the revenue under the bill will approximate \$15,000,000 annually.

Resolutions were adopted urging the state highway commission to disburse moneys in the state highway bond fund according to the program arranged when the last issue of \$40,000,000 was voted.

SALE MARK SET AS AUTO SOLD 'PUSSYFOOT'

According to R. M. Allen, manager of the Orange County Haynes company, William E. ("Pussyfoot") Johnson, of Westerville, O., internationally known prohibitionist, who has traveled the world over in his war on the "wet," was sold a Haynes 57 sport touring car recently in the record-breaking time of fifteen minutes by R. G. Holliday, sales manager of the Columbus-Haynes company, Haynes dealers at Columbus, O.

Johnson is quoted as saying: "I have only one eye, due to an unfortunate incident in England, but I can still see a good automobile and the Haynes is one."

Allen says Johnson intends to travel in the new Haynes on some of his lecture tours.

He is a friend of Elwood Haynes, who is also a pioneer worker in the cause of prohibition.

BUICK WITHOUT SPRINGS TOWS BIG ROLLER

One of the most novel demonstrations of the efficiency and safety of torque tube construction in an automobile was given during Auto Show week in San Francisco by the Howard Automobile company, according to Robert Reid, of the Reid Motor company, local Buick distributor.

"Thousands of persons were surprised to see a car with the rear springs detached from the axle towing an immense steam roller weighing in excess of two and one-half tons," said Reid.

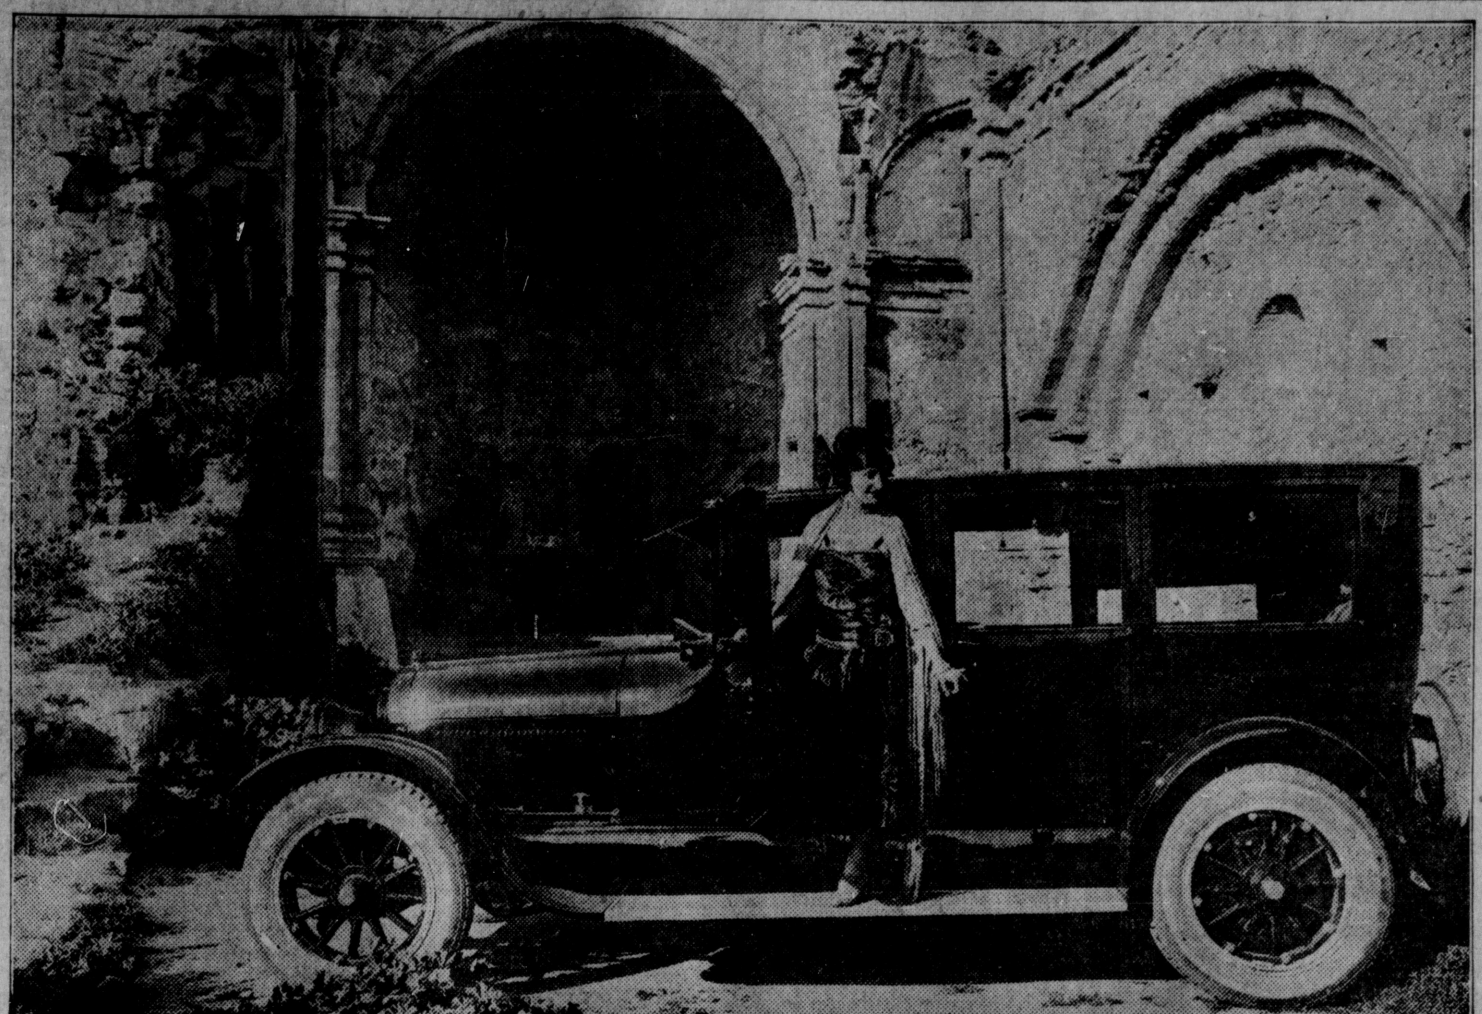

"It was a Buick automobile and the stunt was performed to illustrate the reliability of the torsion drive, regardless of what happened to the rear springs."

"Over the steep hills of San Francisco this steam roller was towed by the Buick, with the two rear springs painted white so that they could be plainly seen as they hung suspended in the air several feet above the rear axle."

"It was a most remarkable demonstration of the power of a Buick and the absolute dependability of the torsion drive, which means that the rear axle is not held in alignment with the rear springs, the power being transmitted direct to the rear wheels and not through the springs."

In Northern France, returning natives in shell-torn districts are making use of the miscellaneous electrical equipment left there by the different armies. Generators, driven by gasoline engines, have been put in use, and the cellars of ruined buildings, or the poorest wooden huts, are furnished with light and power.

HERE IS CADILLAC SUBURBAN, SPANISH DANCER IN QUADRANGLE OF OLD MISSION

TOP—Modern Cadillac Suburban, standing in grassy quadrangle which was once the nave of the original chapel of San Juan Capistrano mission, associating the present with 1812, and suggesting to the mind thoughts of Father Junipero Serra, founder of the mission, and of Antoine de la Mothe Cadillac, prominent in French and American affairs. Miss Elizabeth Briggs, of this city, interpretative dancer and instructor in Spanish dances, is stepping from the car for a tour through the ruins of the noted mission. Lower—Group of local Spanish musicians and dancers at an arch of one of the corridors of the ancient church. From left to right—Gilbert Barrios, violin; Jesus Garcia, guitar; Eloyesa Peryra, Delphina Lopez and Onofre Madrid, dancers.

MEMBERSHIP DRIVE PLANNED BY COUNTY AUTO TRADESMEN

Organization of a committee of the United States pointed to an even greater acceleration of business on a big scale, and that all conditions pointed to an unprecedented era of prosperity and activity in California.

Biddick, who is a jobber in Los Angeles, who is popular with Orange county automobile men, made a brief talk on his observations in Orange county as regards the trades association and declared that certain influences were at work to disintegrate the organization. He warned against the possible results, should this sinister influence be effective, and urged men in the various branches of the industry to remain united.

A saxophone sextette, composed of employees of Glenn Thomas, Long Beach agent for the Studebaker, entertained.

DEALER FORECASTS TIRE PRICE BOOST

According to R. W. Lantz of Lantz Bros., 517 North Main St., Gardner distributors, they have just received an initial shipment of the well-known Howe tires and tubes.

Lantz said: "Howe 'Clover Leaf' red tubes are well-known by most motorists and are stocked by nearly all dealers. The Howe line of tires has met everywhere with approval and after careful survey we took over this tire agency. There will be a slight advance in price within the next fifteen days."

"Our stock comprises a complete line of sizes—all cords; no fabrics being manufactured by the Howe company."

The creation of the automobile happened by accident. This was brought about by the many explosions of the kerosene lamp due to gasoline, which the imperfect distillation processes in the early days of experiments left in the kerosene. To prevent these explosions, the oil was more carefully rectified.

Recognizing the connection of the Cadillac name with French and American history, Father St. John O'Sullivan, in charge of San Juan Capistrano mission, this week granted to Otto Haan, manager of the Cadillac Garage company, Cadillac distributors, the privilege of driving a Cadillac Suburban into the yard of the mission for a picture offering a contrast of the modern method of transportation with crumbling walls of masonry that were erected centuries ago by workmen with the crudest of equipment.

With Miss Elizabeth Briggs, of this city, instructor in Spanish and other types of artistic dancing, the Cadillac was posed in the quadrangle which was once the nave of the original chapel of the old mission.

Link Old, New Journeys.
There, just before the expanse of standing wall is broken by the ruins of the transept, is the quiet, old-world charm of the gardens, where noiseless dark-skinned children of the church pass quietly about their duties. The touch of modernity introduced with the automobile seemed to link those long journeys foot by Father Junipero Serra with the rapid annihilation of miles which travelers of today experience.

Breathing the spirit of the days of the dome, was the car's occupant, Miss Briggs, whose interpretative dancing is proving a delight to Santa Ana. Miss Briggs' sparkling and romantic type of beauty found a happy setting in her Spanish costume of red and gold, veiled with black lace, and among the cloisters of the old mission she seemed to breathe the spirit of the days that are dead.

One glimpsed amid the shadows the brown cask of the padre in the tent on saving the souls of the Indians of the little pueblo, the sole example of a truly Indian village clustered around a mission, which the annals of their establishment afford.

Recall 1812 Quake.
The chapel offering so wonderful a setting for the picture will never be rebuilt. Its crumbling walls will remain untouched by hands of man.

(Continued on Page 10.)

URGES LEVY ON TIRES RATHER THAN ON GAS FOR AIDING ROAD FUND

S. A. Broker Says Proposed Act Unjust to Owners of Small Autos

RAPS SOLONS' STAND

Operators of Big Vehicles Should Pay Most for Upkeep, View

Declaring that truck owners and corporations are getting their gasoline for two cents a gallon less than owners and operators of pleasure cars, G. B. Darnell, broker of this city, today asserted his belief that the referendum would be exercised should the state legislature pass a bill imposing the same tax on fuel consumed by pleasure cars as for fuel used by trucks.

Darnell is the author of a letter on file today with the county clerk severely criticizing the supervisors for their position in favoring adoption of a measure imposing a tax on gasoline.

He suggests that a tax on tires would be the more equitable way of distributing the cost of highway maintenance, with the tax graduated according to the size of the tires.

Suggests Tax Scale.

Pointing out that approximately 50 per cent of the cars using the highway are small machines that cause no damage, Darnell suggests a tax of 20 per cent of the cost price on all tires up to 3 1/2 inches, and a 30 per cent tax on tires between that and 5-inch sizes. He would graduate upward to 15 per cent for the larger tires.

"I am absolutely opposed to operation of a gasoline tax along lines that have so far been suggested," said Darnell. "It is not fair to a majority of automobile owners, who are the operators of small cars. Their machines do no damage whatever to the highways."

"The greater damage is done by trucks and their owners should bear the greater portion of the burden of maintenance."

Referring to the inequality of the tax as between the owner of a Ford and the owner of a high priced truck, Darnell presented the following:

"Let us suppose, for instance, that you own a new Ford costing \$500, and that I own a new five-ton truck and trailer costing \$7000. My property is worth approximately fourteen times as much as yours."

"Suppose your car runs the year around at twenty miles to the gallon of gasoline while my truck averages ten miles to the gallon."

"At two cents a gallon, for every thousand miles my truck runs I will be paying \$2 of gasoline tax, while you pay \$1. With my property costing fourteen times as much as yours, I will be paying only twice as much tax. And this inequality is not for one mile, or one month, or one season but continues so long as we both pay the same number of cents per gallon of fuel used."

Which Does Damage?

"If, however, you and I were determined to tax gasoline, and equally determined to have the tax a just one as between your Ford and my truck, it would be necessary to have every filling station tax the gasoline you use at 2 cents a gallon and mine at 14 cents. Every other class of vehicle between these two extremes would have to be taxed at its proportionate rate. Such a thing, of course, is not impossible, but it is wholly impracticable."

"Wherever a tax rate has been

(Continued on page 10)

FAVORS ACT TO FORCE USE OF PNEUMATICS

Laws compelling use of pneumatic tires on trucks will solve the problem of highway maintenance and make unnecessary the building of truck highways. In the opinion of Dr. L. L. Whitson, motor enthusiast of this city, Whitson today offered this suggestion in contrast to the plan advanced last week by A. M. Lacy, secretary and manager of the People's Finance and Thrift company, who expressed the opinion that a highway should be constructed in the county for the exclusive use of trucks.

"Pneumatic tires and a limitation to the size of tires that may be manufactured are two points that offer solution to the ever-increasing problem of construction and maintenance of highways," Mr. Whitson declared. "There is no use in attempting to build roads for the heaviest trucks of today, for if we should build a system that would support the weights possible in the largest of the trucks, the manufacturers would increase the size and capacity of their vehicles."

"No one can deny that trucks equipped with solid tires do more damage than do trucks using pneumatics. It is apparent then, that elimination of the solid tire and substitution of the pneumatic exclusively, offers a means for checking the breaking up of our highways."

"In my opinion, no more money should be spent in this state in construction of highways until bills are passed making it compulsory for all trucks to be equipped with pneumatic tires and providing a maximum on the size of trucks that may be built."

GOODYEAR COMPANY BOOSTS TIRE PRICE

AKRON, Ohio, March 17.—The Goodyear Tire and Rubber company today announced a ten per cent increase in tire prices and an increase of 7 1/2 per cent increase for inner tubes. The new prices are effective Monday.

TONIGHT'S ATTRACTIONS
YOST — Vaudeville and "Oliver Twist," with Jackie Coogan.
TEMPLE — "Adam and Eva," with Marion Davies.
WEST END — "Do and Dare," with Tom Mix.
PRINCESS — "Rent Free," with Wallace Reid.

"THE WHITE FLOWER" AT WEST END TOMORROW
Surf-board riding and outrigger-canoeing, favorite sports of the tropics, are no longer mysteries to Betty Compson, the petite star who went to Hawaii for the purpose of filming her latest picture "The White Flower," which is due for a four days' showing at the West End theater beginning tomorrow.

On the famous beach of Waikiki, under the tutelage of native masters of these fine arts, Miss Compson learned to ride the waves with the best of them.

Of the two, surf-board riding proved to be much more difficult. In the story of "The White Flower" the star plays the role of a half-caste girl, who is a complete mistress of these sea sports. So Miss Compson promptly secured an instructor and devoted all spare time to the pleasurable task of learning just how it is done.

Edmund Lowe, who plays the leading masculine role in this picture, was an enthusiastic pupil of the native instructors, although his role did not demand that he ride the combers before the camera.

Julia Crawford Ivers headed the party of twenty-five persons who went to the Hawaiian Islands to produce this story. In addition to directing the screen play, Mrs. Ivers also wrote the original story of "The White Flower" during a previous visit to Honolulu. The story is dramatic, and the action unusually thrilling.

"THE POWER OF A LIE" AT PRINCESS

That one lie can change the course of several human lives, wreck homes, minds, souls and bodies, is the theme on which Johan Bojer, famous Norwegian novelist, has based a story which is equally well known in this country and in Europe. From a screen version by Charles Kenyon, George Archibald has produced a graphic and powerfully dramatic picture in "The Power of a Lie" which comes to the Princess theater tomorrow.

A remarkable cast was chosen to interpret the clearly drawn characters. It consists of Mabel Julienne Scott, Earl Metcalf, June Elvidge, David Torrence, Phillips Smalley, and Ruby Lafayette.

Colleen Moore and James Morrison discovered while working in "The Nth Commandment" that they are distantly related. Their

Betty Compson who appears in "The White Flower," which opens at the West End tomorrow.

Alice Brady and David Powell in a scene from "Missing Millions," film coming to the Yost theater tomorrow.

"DARLING OF THE RICH" AT YOST WEDNESDAY

"The Darling of the Rich," Betty Blythe's latest starring vehicle, which comes to the Yost theater next Wednesday, deals with high life among the millionaires of New York, and consequently is rich with lavish scenes. No expense has been spared to make realistic the atmosphere of Manhattan wealth and fashion.

Miss Blythe's role is that of the favorite of society. "The Darling of the Rich," and the picture shows many affairs which she attends like a queen—of Manhattan. These affairs are sumptuous, while the gorgeous Betty is naturally attired in gowns which take the eye and hold it long after the picture has been run. Dorothy Farnum wrote the story of "The Darling of the Rich." John Adolf directed the picture.

"MISSING MILLIONS" AT YOST TOMORROW

A decidedly novel way of removing gold from an Atlantic liner from which it was stolen under the very eyes of the ship's officers, is illustrated by Alice Brady, the star of "Missing," which comes to the Yost theater tomorrow.

Miss Brady, who has just returned to the screen after a year on the legitimate stage, has the role of Mary Dawson, a crook. Mary is greeted by six innocent looking flappers when the ship reaches port. The girls all wear bandoliers packed with gold bricks so, perhaps, you can guess how it is that they were able to walk off the ship right past the officers.

The story abounds with action of a dramatic quality, including as it does two big robberies, the railroading to prison of an innocent man, two distinct plots for a gold robbery, a big problem and a big sacrifice. The cast is particularly strong, and is headed by David Powell and Frank Losee.

The picture is based on two of Jack Boyle's famous Boston Blackie crook stories and it has been splendidly directed by Joseph Henabery.

WALLACE REID FILM AT PRINCESS TONIGHT

By request the Princess theater is tonight showing "Rent Free," one of the late Wallace Reid's pictures.

The story is based on an artist's adventure in avoiding paying rent for a studio. It brings a wealth of romance and sentiment, two qualities the picture lover is looking for. A story of an artist who whistled and hummed and talked to his dog—who painted and helped young women in distress, who never cared where his next meal was coming from, or when. He found love and he found a free home.

"Rent Free," one of the last pictures made by the late Wallace Reid, will be shown at the Princess theater tonight.

"OLIVER TWIST" CLOSES RUN AT YOST TONIGHT

Jackie Coogan has been legally adopted by his own mother. This was done by his parents to safeguard the boy's financial interests which under the guardianship appointed must be supervised by the superior court. Mr. and Mrs. Coogan believed the public was entitled to know that Jackie's earnings would go into Jackie's coffers and into no other's. This was done just prior to the completion of "Oliver Twist," which will be shown for the last time tonight at the Yost theater.

6000 WATCH FILMING OF "ADAM AND EVA" SCENE

Ten policemen were engaged to keep order in the crowd of six thousand people which nightly visited the estate of William L. Marks near Stanford, Conn., to watch Marion Davies, making scenes for her picture, "Adam and Eva," which will be shown at the Temple tonight and tomorrow.

A sloping hillside formed a natural amphitheatre. Beautiful Venetian carnival scenes formed a glowing background for the picturesque costumes worn by the star and other members of the cast. Floating, flower-decked gondolas, fireworks, marble statues and other striking effects made the scene one of great beauty.

MARC MACDERMOTT IN "LIGHTS OF NEW YORK"

Marc MacDermott has the leading part in the second section of the newest William Fox production, "Lights of New York," which will be shown at the Yost theater Monday and Tuesday. In this remarkable photoplay MacDermott is cast as the main character in the episode which deals with society life in the big city.

Marc MacDermott, acclaimed by both press and public as one of the foremost actors of the screen, is said to outdo himself in this production. The episode in which this great actor appears is one of the truest scenes that has ever been flashed on the silver screen, many critics declare.

It deals with the experiences of a man who had the opportunity to make a fortune, but who lost his chances because of a misunderstanding with the girl he loved.

Conrad Nagel will play opposite Hope Hampton in the screen version of "Lawful Larceny."

All the movie stars, do it, even Strongheart, the dog. He spoke over the radio the other night.

TOMORROW'S ATTRACTIONS.

YOST—Vaudeville and "Missing Millions," with Alice Brady.

MAY 5 SET AS GALA DAY IN COUNTY FOR OLD AUTOS

Expect Many Ancient Cars To 'Strut Stuff' Here In Big Contests

TO STAGE SPEED RACE

S. A. Legion Post, M. and M. Endorse Program; Plan Monster Dance

Saturday, May 5, is to be auto resurrection day in Orange county.

Piles of wreckage, once known as automobiles, but which long ago gave up the struggle and entered what was thought would be their final resting places in junk yards of the county, are beginning to turn over in their graves in anticipation of the day when they will again "strut their stuff" before admiring throngs.

Like Old King Tut, the ancient machines are again expected to hold the center of public interest, forcing the modern automobile out of the limelight for a day.

A local committee, consisting of Horace Fine, Tom Lewis and C. B. Wheatley, local newspapermen, co-operating with Santa Ana Post No. 131, American Legion, is rushing to completion plans for the event which is expected to include a parade, races and a monster dance at the Legion hall in the evening.

Used Cars to Race

The big event of the day's program will be the race for the used car championship of the county, but in addition to the championship contest there will be races for cars in reverse gear, obstacle races and other novel events. Only ancient cars, the older the better, will be allowed in these events.

The parade will open the day's program. In order to do away with all possibility of speeding in this event the committee has arranged to have Justice of the Peace John B. Cox act as grand marshal of the parade and efforts are being made to have a member of the fair sex who spent some time in the Orange county jail on a speeding charge drive Judge Cox's machine at the head of the procession.

Justice Cox and his fair chauffeur will also act as judges at the races in the afternoon.

M. & M. Backs Plan

The Merchants and Manufacturers' association of Santa Ana has already endorsed the event, which is to be made one of the most novel ever undertaken in Santa Ana.

The local Legion post, which will share in the proceeds of the event, has also given its approval to the affair, and all Legion posts of the county are to be given an opportunity to assist in the program and to share in the proceeds.

The day's program will end with a dance at the Legion hall in the evening. Tickets for the dance are to be sold in advance and the car winning the championship race is to be given away at the dance.

The big feature of the parade will be a division in which will appear cars of the present day alongside models of an early vintage. Prizes are to be awarded winning cars in the various divisions of the parade.

Electronic Reactions of Abrams, Diagnosis and Treatment. For appointment, phone 1292-W, or 783-J.

Reduce Insurance Rates On Autos 10 to 30 Per Cent

The cost of operating automobiles slipped down another notch this week for those motorists who carry insurance.

According to advices received by local agents, rates have been reduced 10 and 30 per cent according to risk classification, the reduction being retroactive to January 1, 1923.

Public liability rates on commercial cars were reduced 10 and 15 per cent, with premiums on full coverage being reduced 30 per cent.

According to authorities, the reductions are the result of improved traffic conditions, better enforcement of speed laws and decreasing number of accidents.

WILLIS-OVERLAND SHOPS LIKELY TO BE OPENED AT OAKLAND

In the opinion of automobile men, Oakland has "the edge" on the 125 cities in California that have made a bid for the manufacturing plant that the Willis-Overland company proposes establishing in California.

It is conceded that the choice has narrowed down to Oakland and Los Angeles. John N. Willis, who is now making a coast survey of the field with reference to location of the proposed plant, is quoted as saying that such a plant will be under way before the end of this year.

Santa Ana is among the cities that have invited the head of the Willis-Overland company to establish the manufacturing enterprise.

BEGIN POSTING MISSION ROAD AUTO SIGNS

Actual sign-posting of El Camino Real, the "king's highway" of California, has just been started by the Automobile Club of Southern California, according to an announcement made today by Elmer Heidt, local manager.

"This is one of the most significant highway sign-posting projects ever undertaken in America in view of the fact that it permanently establishes the historical mission road along the coast of California and sets the seal of modern road-signing methods on an age-old foot path of romance," Heidt declared.

New signs to be erected by the Automobile club will be placed on the famous "mission bell" road markers, which have become familiar to thousands of motorists who have toured in California during the past five years. Wherever there is a mission bell there will also be a brand new automobile sign linking the past of ox carts to the present of motor cars. The Southern California club will have the responsibility of sign-posting that portion of El Camino Real which extends from the San Diego mission on the south to the San Luis Obispo mission on the north. In this territory will be found such famous missions as San Luis Rey, San Juan Capistrano, San Gabriel, Santa Barbara and Santa Ynez.

APPROVE BILLS FOR CAL. ROAD UPKEEP FUND

Measure to Increase Auto License Tax Fee to \$3 Is Recommended

Fifteen million dollars will be available annually for county and state highway maintenance if a bill amended and recommended at the state convention of supervisors at Sacramento is approved in its original form by the state legislature. It was learned here today following the return of members of the Orange county board from the convention.

According to S. H. Finley, supervisor from the First district, the convention adopted recommendations of a committee appointed to investigate and draft a suitable law covering the points of truck weights, and license charges.

Raise License Fee. The Breed bill was the basis of the measure approved. The most important change was in raising the general license fee from \$2 to \$3 per year.

As approved by the convention, the measure provides a registration fee of \$3, a two-cent tax on gasoline, a truck weight maximum of 22,000 pounds and an additional tax of trucks of \$10 to \$150 per annum, according to the size of the vehicle.

Under Rail Board.

It also provides that public passenger transportation lines be placed under jurisdiction of the railroad commission, with operators paying 7 per cent tax on gross receipts.

It is estimated the revenue under the bill will approximate \$15,000,000 annually.

Resolutions were adopted urging the state highway commission to disburse moneys in the state highway bond fund according to the program arranged when the last issue of \$40,000,000 was voted.

SALE MARK SET AS AUTO SOLD 'PUSSYFOOT'

According to R. M. Allen, manager of the Orange County Haynes company, William E. ("Pussyfoot") Johnson, of Westerville, O., internationally known prohibitionist, who has traveled the world over in his war on the "wet," was sold a Haynes 57 sport touring car recently in the record-breaking time of fifteen minutes by R. G. Holliday, sales manager of the Columbus-Haynes company, Haynes dealers at Columbus, O.

Johnson is quoted as saying: "I have only one eye, due to an unfortunate incident in England, but I can still see a good automobile and the Haynes is one."

Allen says Johnson intends to travel in the new Haynes on some of his lecture tours.

He is a friend of Elwood Haynes, who is also a pioneer worker in the cause of prohibition.

BUICK WITHOUT SPRINGS TOWS BIG ROLLER

One of the most novel demonstrations of the efficiency and safety of torque tube construction in an automobile was given during Auto Show week in San Francisco by the Howard Automobile company, according to Robert Reid, of the Reid Motor company, local Buick distributor.

"Thousands of persons were surprised to see a car with the rear springs detached from the axle towing an immense steam roller weighing in excess of two and one-half tons," said Reid.

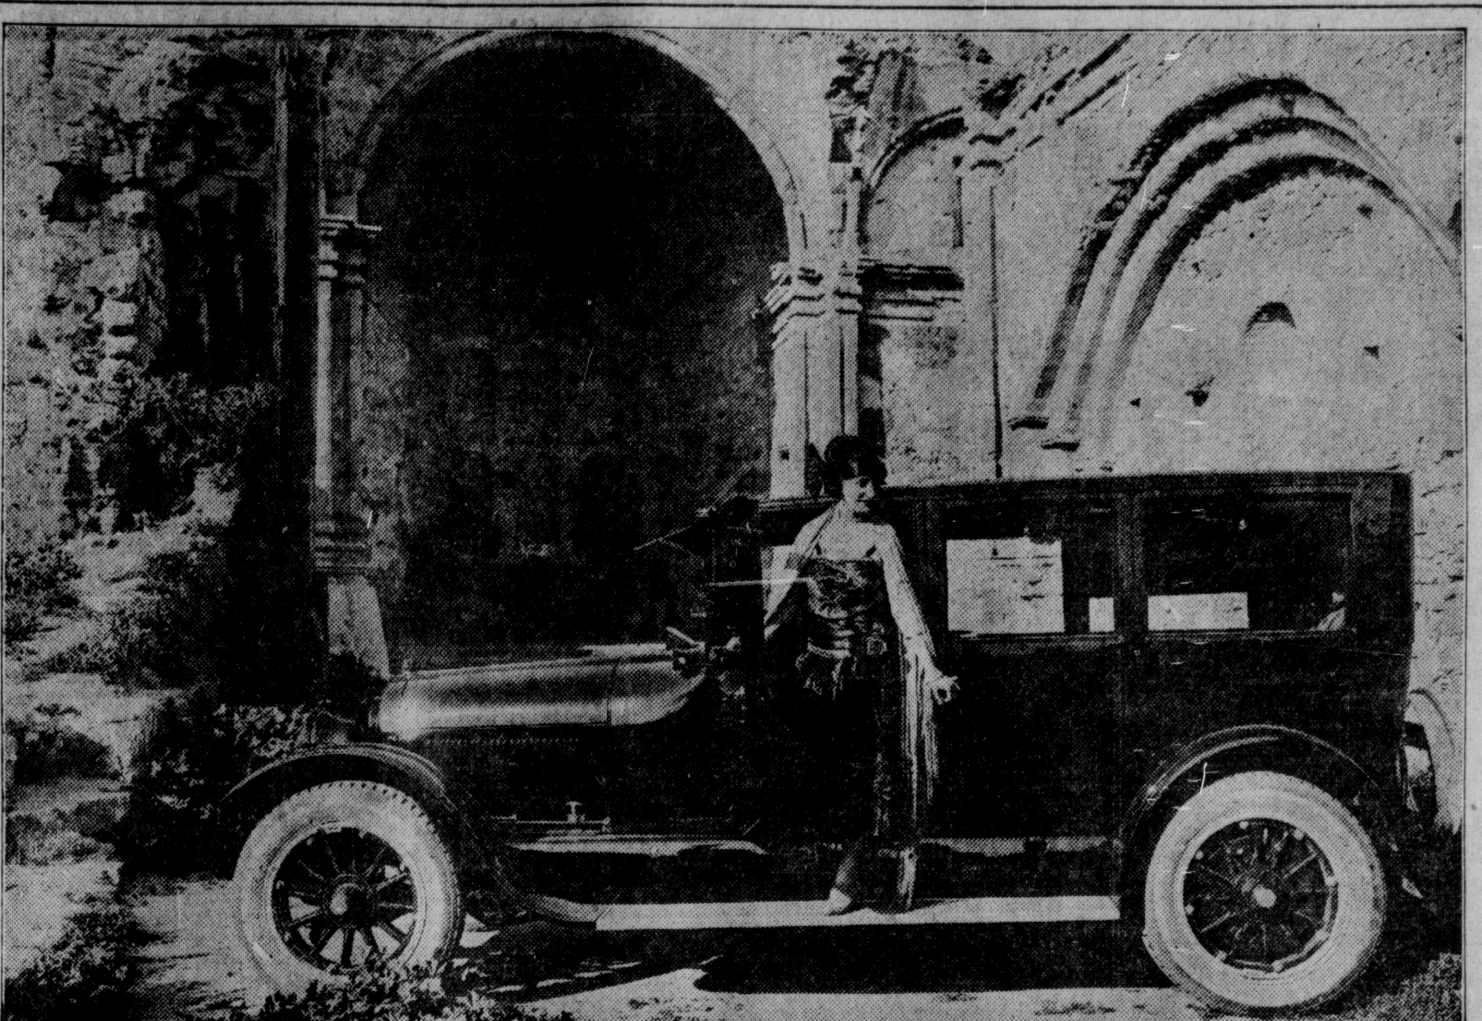

"It was a Buick automobile and the stunt was performed to illustrate the reliability of the torsion drive, regardless of what happened to the rear springs.

"Over the steep hills of San Francisco this steam roller was towed by the Buick, with the two rear springs painted white so that they could be plainly seen as they hung suspended in the air several feet above the rear axle.

"It was a most remarkable demonstration of the power of a Buick and the absolute dependability of the torsion drive, which means that the rear axle is not held in alignment with the rear springs, the power being transmitted direct to the rear wheels and not through the springs."

In Northern France, returning natives in shell-torn districts are making use of the miscellaneous electrical equipment left there by the different armies. Generators, driven by gasoline engines, have been put in use, and the cellars of ruined buildings, or the poorest wooden huts, are furnished with light and power.

HERE IS CADILLAC SUBURBAN, SPANISH DANCER IN QUADRANGLE OF OLD MISSION

TOP—Modern Cadillac Suburban, standing in grassy quadrangle which was once the nave of the original chapel of San Juan Capistrano mission, associating the present with 1812, and suggesting to the mind thoughts of Father Junipero Serra, founder of the mission, and of Antoine de la Mothe Cadillac, promoter in French and American affairs. Miss Elizabeth Briggs, of this city, interpretative dancer and instructor in Spanish dances, is stepping from the car for a tour through the ruins of the noted mission. MEMBERSHIP DRIVE PLANNED BY COUNTY AUTO TRADESMEN

Organization of a committee of twenty-five tradesmen to conduct a drive to increase the membership of the Orange County Automobile Trades association was under contemplation today, following a meeting of the organization at the California hotel, Fullerton, last night, when Harry Mason, president of the state organization; Walter Biddick, former secretary of the county association, H. J. Banta and other Los Angeles men were present to tell of the success they had in adding to the Los Angeles county organization's membership.

Declaring that the automobile industry is the greatest in the United States, Mason predicted that the California Automobile Trades association in a few years would be the strongest trades organization in the state.

Pointing out that a number of ways in which the state association is of service, particularly in the standardization of service, the president urged that dealers and tradesmen of the county make every effort to strengthen the local association.

Banta is at the head of the H. J. Banta company, jobber in Los Angeles. This company, March 1, succeeded to the business of the Weinstein-Nichols company. Re-counting the destruction of the company stock by fire March 1, Banta, in one of his inspiring addresses on co-operation, told how his competitors had come to his assistance, placing their stocks and their office accommodations at his disposal until such time as he could reorganize. As a result, with the exception of one day's interruption, his sales and delivery organizations continued their daily operations.

Result of Harmony. He pointed out that this was the result of close social and business relations with his competitors and of the establishment of mutual confidence.

Speaking of the future of general business in California, Banta asserted that indications throughout the United States pointed to an even greater acceleration of business on a big scale, and that all conditions pointed to an unprecedented era of prosperity and activity in California.

Biddick, who is a jobber in Los Angeles, who is popular with Orange county automobile men, made a brief talk on his observations in Orange county as regards the trades association and declared that certain influences were at work to disintegrate the organization. He warned against the possible results, should this asserted sinister influence be effective, and urged men in the various branches of the industry to remain united.

A saxophone sextette, composed of employees of Glenn Thomas Long Beach agent for the Studebaker, entertained.

Recognizing the connection of the Cadillac name with French and American history, Father St. John O'Sullivan, in charge of San Juan Capistrano mission, this week granted to Otto Haan, manager of the Cadillac Garage company, Cadillac distributors, the privilege of driving a Cadillac Suburban into the yard of the mission for a picture offering a contrast of the modern method of transportation with crumbling walls of masonry that were erected centuries ago by workmen with the crudest of equipment.

With Miss Elizabeth Briggs, of this city, instructor in Spanish and other types of artistic dancing, the Cadillac was posed in the quadrangle which was once the nave of the original chapel of the old mission.

Link Old, New Journeys. There, just before the expanse of standing wall is broken by the ruins of the transept, is the quiet, old-world charm of the gardens, where noiseless dark-skinned children of the church pass quietly about their duties. The touch of modernity introduced with the automobile seemed to link those long journeys afoot by Father Junipero Serra with the rapid annihilation of miles which travelers of today experience.

Breathing the spirit of the days of the dons, was the car's occupant, Miss Briggs, whose interpretive dancing is proving a delight to Santa Ana. Miss Briggs' sparkling and romantic type of beauty found a happy setting in her Spanish costume of red and gold, veiled with black lace, and among the cloisters of the old mission she seemed to breathe the spirit of the days that are dead.

One glimpsed amid the shadows the brown casaque of the padre intent on saving the souls of the Indians of the little pueblo, the sole example of a truly Indian village clustered around a mission, which the annals of their establishment afford.

Recall 1812 Quake. The chapel offering so wonderful a setting for the picture will never be rebuilt. Its crumbling walls will remain untouched by hands of man.

The creation of the automobile happened by accident. This was brought about by the many explosions of the kerosene lamp due to gasoline, which the imperfect distillation processes in the early days of experiments left in the kerosene. To prevent these explosions, the oil was more carefully rectified.

DEALER FORECASTS TIRE PRICE BOOST

According to R. W. Lantz of Lantz Bros., 517 North Main St., Gardner distributors, they have just received an initial shipment of the well-known Howe tires and tubes.

Lantz said: "Howe 'Clover Leaf' red tubes are well-known by most motorists and are stocked by nearly all dealers. The Howe line of tires has met everywhere with approval and after careful survey we took over this tire agency. There will be a slight advance in price within the next fifteen days.

"Our stock comprises a complete line of sizes—all cords; no fabrics being manufactured by the Howe company."

FAVORS ACT TO FORCE USE OF PNEUMATICS

Laws compelling use of pneumatic tires on trucks will solve the problem of highway maintenance and make unnecessary the building of truck highways, in the opinion of Dr. L. L. Whitson, motor enthusiast of this city.

Whitson today offered this suggestion in contrast to the plan advanced last week by A. M. Lacy, secretary and manager of the People's Finance and Thrift company, who expressed the opinion that a highway should be constructed in the county for the exclusive use of trucks.

"Pneumatic tires and a limitation to the size of tires that may be manufactured are two points that offer solution to the ever-increasing problem of construction and maintenance of highways," Mr. Whitson declared. "There is no use in attempting to build roads for the heaviest trucks of today, for if we should build a system that would support the weights possible in the largest of the trucks, the manufacturers would increase the size and capacity of their vehicles."

"No one can deny that trucks equipped with solid tires do more damage than do trucks using pneumatics. It is apparent then, that elimination of the solid tire and substitution of the pneumatic exclusively, offers a means for checking the breaking up of our highways."

"In my opinion, no more money should be spent in this state in construction of highways until bills are passed making it compulsory for all trucks to be equipped with pneumatic tires and providing a maximum on the size of trucks that may be built."

Referring to the inequality of the tax as between the owner of a Ford and the owner of a high priced truck, Darnell presented the following:

"Let us suppose, for instance, that you own a new Ford costing \$500, and that I own a new five-ton truck and trailer costing \$2000. My property is worth approximately fourteen times as much as yours."

"Suppose your car runs the year around at twenty miles to the gallon of gasoline while my truck averages ten miles to the gallon. At two cents a gallon, for every thousand miles my truck runs I will be paying \$2 of gasoline tax, while you pay \$1. With my property costing fourteen times as much as yours, I will be paying only twice as much tax. And this inequality is not for one mile, or one month, or one season but continues so long as we both pay the same number of cents per gallon of fuel used."

Which Does Damage? "Which does the most damage?" "If, however, you and I were determined to tax gasoline, and equally determined to have the tax a just one as between your Ford and my truck, it would be necessary to have every filling station tax the gasoline you use at 2 cents a gallon and mine at 14 cents. Every other class of vehicle between these two extremes would have to be taxed at its proportionate rate. Such a thing, of course, is not impossible, but it is wholly impracticable."

"Wherever a tax rate has been determined to tax gasoline, and equally determined to have the tax a just one as between your Ford and my truck, it would be necessary to have every filling station tax the gasoline you use at 2 cents a gallon and mine at 14 cents. Every other class of vehicle between these two extremes would have to be taxed at its proportionate rate. Such a thing, of course, is not impossible, but it is wholly impracticable."

URGES LEVY ON TIRES RATHER THAN ON GAS FOR AIDING ROAD FUND

S. A. Broker Says Proposed Act Unjust to Owners of Small Autos

RAPS SOLONS' STAND

Operators of Big Vehicles Should Pay Most for Upkeep, View

Declaring that truck owners and corporations are getting their gasoline for two cents a gallon less than owners and operators of pleasure cars, G. B. Darnell, broker of this city, today asserted his belief that the referendum would be exercised should the state legislature pass a bill imposing the same tax on fuel consumed by pleasure cars as for fuel used by trucks.

Darnell is the author of a letter on file today with the county clerk severely criticizing the supervisors for their position in favoring adoption of a measure imposing a tax on gasoline.

He suggests that a tax on tires would be the more equitable way of distributing the cost of highway maintenance, with the tax graduated according to the size of the tires.

Suggests Tax Scales. Pointing out that approximately 50 per cent of the cars using the highway are small machines that cause no damage, Darnell suggests a tax of 20 per cent of the cost price on all tires up to 3 1/2 inches, and a 30 per cent tax on tires between that and 5-inch sizes. He would graduate upward to 15 per cent for the larger tires.

"I am absolutely opposed to operation of a gasoline tax along lines that have so far been suggested," said Darnell. "It is not fair to a majority of automobile owners, who are the operators of small cars. Their machines do no damage whatever to the highways."

"The greater damage is done by trucks and their owners should bear the greater portion of the burden of maintenance."

Claims Inequality. Referring to the inequality of the tax as between the owner of a Ford and the owner of a high priced truck, Darnell presented the following:

"Let us suppose, for instance, that you own a new Ford costing \$500, and that I own a new five-ton truck and trailer costing \$2000. My property is worth approximately fourteen times as much as yours."

"Suppose your car runs the year around at twenty miles to the gallon of gasoline while my truck averages ten miles to the gallon. Here is Oakland's New "Mileage Basis" Plan

Oakland's new "Mileage Basis" Plan tells you in terms of smooth, untroubled miles the sort of service an Oakland Six really gives. Ask us for the complete details.

The "Mileage Basis" Plan

Main Bearings—40,000 miles or more without attention.

Valves—15,000 miles or more without need of grinding.

Connecting Rods—40,000 miles or more without attention.

Cylinders, Pistons, Rings—Guaranteed in writing 15,000 miles against "oil pumping."

Gas Mileage—20 to 25 miles per gallon.

Tires—15,000 to 25,000 miles per set.

Transmission, axles, and major parts—Life of the car.

DANCING GIRL SEES MISSION IN CADILLAC

(Continued from page 9)

until they revert to their original earth. It was there in 1812 that the full force of the earthquake shock was felt, when the walls crashed during services, and when only those who sought the sanctuary were saved. It is a melancholy ruin, but is touched with a strange beauty by the healing fingers of time.

Citizens of Detroit, on the fifth of this month, celebrated the birthday of the founder of that city, Antoine de la Mothe Cadillac, by the unveiling of a bronze tablet erected to his memory on the site of the original Fort Pontchartrain, which the pioneer built at this strategic point in 1701 as a barrier against the passage of British troops and their Indian allies. He was born in 1658, in Gascony, France.

Citizens of the Southland with a keen appreciation of the historic value of the ancient mission, have raised funds for the preservation of the structure and this year began operations to restore the original church of Father Serra.

Strengthen Old Walls.
Old walls have been strengthened by piles of masonry and adobe brick, timbers have been reinforced and work on restoration of the old chapel is now well under way.

The lofty towers of the original church will never be rebuilt but the chapel will be restored as nearly to its original state of perfection as possible. Even the ancient frescoes of the ceiling will be restored while the altar, now being put in place, will be decked with the beautiful silver and rare linens once used in the service by Father Serra himself.

The ruins of the church speak of the famous "year of the earthquake," 1812, when for months, the seismic disturbance was almost continuous. Scientists have since declared that the disaster at the church was due rather to faulty construction than to the tremor itself, since the work was all done by neophytes and the stones, rough-hewn and irregular in size, required more skill than they possessed to place in the thick walls and arched dome-like roofs in a manner to insure solidity.

It is stated on reliable authority that of the fifty personages gathered for mass on that Sunday morning, December 8, 1812, only half a dozen escaped.

At the instance of Father O'Sullivan, who was ill with influenza, Anthony Joyce, bookkeeper, extended courtesies which made possible the securing of the picture of the Cadillac in the mission setting.

OUTLOOK PLEASES NEW FORD DEALER

George Dunton, who purchased the local agency of the Ford and Lincoln automobiles recently, declared today that business here is developing rapidly and that he is well satisfied with the outlook for a big business year.

Dunton reports delivery of new cars as follows since he took over the agency:

Fred Trefren, H. H. Robertson, W. Horibe, Eugene Griset, F. Barlow, W. H. Skelton, Ewing Beardsley company, G. C. Bissett, Clarence Whitehead, Santa Ana; Jose Robles, El Modena; Mrs. Alex Ricardos, San Juan Capistrano; F. A. Lawrence, Westminster; Jesse R. Starkey, Garden Grove; A. May, Louis F. Rochat, Frank M. Anderson, Costa Mesa; Florence Veech, Fern E. Warner, Orange; C. Valentin, Talbert; Verman M. Bobst, Anaheim; Pilowend Nieto, Andres Gallenas, Glorietta; Lino Lechugo, San Bernardino; A. R. Phelps, Laguna Beach.

Willard Batteries Again Leads

In the Radio, as well as the Automobile Industry, Willard Batteries are recognized by experts as giving the best results and standing up under harder wear and tear.

We have a stock of the new Willard Radio Batteries, fully charged ready to please those who wish the best Battery for their Radio sets.

Chatter! Clatter!

Don't you sometimes feel a little sorry for that rear axle of yours as it goes clattering over the rough roads? And don't you sometimes worry a little bit about it, particularly after you have hit a good hard bump? But you will marvel at how much easier your car will ride, and how little you will feel the bumps after you have equipped your car with Gabriel Snubbers.

They prevent jolting, bouncing, shaking things loose and rattling the car to pieces. Priced from \$17.00 the set up.

DELIVERY OF BUICK MACHINES REPORTED

J. W. Tubbs, manager of the Reid Motor company, Buick agent, reported the following Buick deliveries for this week: J. C. Kirby and Dr. J. B. Van Horn, Santa Ana, touring sedans; Percy J. Wilson, Balboa, touring; Ben De Brouwer, touring; Ralph H. Dean, roadster, and Enoch Eby, sport roadster, all of Huntington Beach.

URGES LEVY ON TIRES RATHER THAN ON GAS

(Continued From Page 9.)

made a law, it has been on the basis of a uniform flat rate of one, two or three cents per gallon, regardless of the value of the property owned by the taxpayer or the damage done to the roads.

Other States Differ.
"In other states where they have dirt or gravel roads, the conditions are entirely different. On such roads the light machine possibly does as much damage, when the roads are in certain condition, as does the truck, and the same tax would be very fair all around."

"It is different in California, where concrete road maintenance uses up most of the road funds. In my opinion, trucks that do 95 per cent of the damage should pay more for road maintenance than they do, or that it would be possible to make them pay by a flat tax rate on gasoline."

"A graduated tax on tires will come nearer distributing the costs equally in proportion to use of the roads by the different classes of vehicles."

"The trucks are here to stay, and all we ask is that they pay their just share of road upkeep."

USED CAR MARKET PLAN FINDS FAVOR

According to Roy Wilson, manager of the Certified Used Car market operated here by the Orange County Automobile Dealers' association, agents from many communities have been here recently to investigate the Orange County Appleby method of handling the used car situation.

The latest visitors were Bush Ludwig, Chandler and Cleveland agent, and Glenn W. Blake, Marmon distributor, both of Santa Barbara. Both men declared that the system here is one of the best solutions of the problem that has come to their attention.

The plan also has received the unqualified endorsement of Robert Martland, secretary and manager of the California Automobile Trade association.

HAS OWN 'PIKE'S PEAK' FOR TESTS

According to L. E. Carpenter, local distributor for the Chandler and Cleveland, a dealer in Chicago has built a "Pike's Peak" of his own on a vacant lot adjoining his service building, for use in demonstrating the hill-climbing qualities of the new Chandler equipped with the new Pike's Peak motor.

"A ramp with grades approximating those on the famous peak was constructed, and on this man-made Pike's Peak frequent demonstrations of the new Chandler are made," said Carpenter. "The Chandler is built to master hills, and the Chicago agent was in a quandary as to how to demonstrate to Chicagoans the full power of the car until he conceived the idea of building the ramp."

2 NASH TRAINLOADS BREAK CAL. RECORD

Declared by W. C. May to be the greatest single shipment of automobiles ever consigned to California, two trainloads of Nash automobiles have been shipped to the state by the Nash Motor company. One of the shipments arrived this week. The other is due early next week. The May Motor company to get two carloads out of the shipment.

Sixty freight cars comprise one train, while there are fifty-five cars in the other. Both trains make up a total of 515 automobiles.

Included in the shipment are the new model Nash fours and sixes. The cars will be exhibited in Los Angeles during the coming week. "California has a habit of breaking records in many different lines and now it shatters a motor car shipment record to satisfy its unprecedented demand for Nash cars," May said. "While the Nash Motors last year shipped to California just twice as many cars as in 1921, shipments for the first two months of this year exceeded the total for January, February and March, 1922."

This is the Tread

The Tread of the Western Giant Cord, the tread that wears, and wears, and wears. Look at it—heavy, strong, built-up square, to give a maximum of traction and wearing surface. Yes, it still wears after most treads are gone.

The Tread of Safety—see the strong bars of rubber along the side of the tread, and the row of suction cups down the center—these with the flatness of the tread mean a non-skid security that is dependable. Users say it is the best non-skid they have ever used.

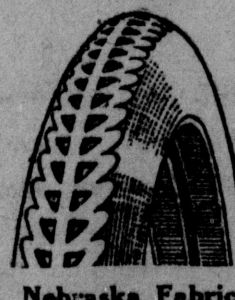

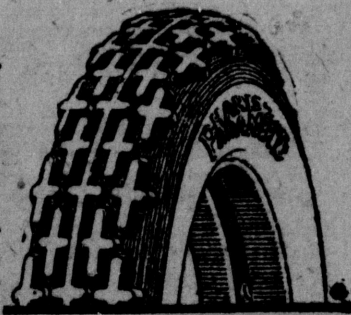

The Western Giant Cord is guaranteed for 12,000 miles, and the guarantee is backed by the strength of our entire organization. You can buy these tires only at "Western Auto" stores, but you will buy only "Western Giants" after you have tried them.

Not only are prices lower than other fine tires, but for a limited period a Guaranteed Tube is being given with each Western Giant Cord.

Lower in Price Than Other Fine Tires

Fabric Tires

Thousands of customers come back to us year after year for more fabric tires because they get good service. We handle three grades: The Western Giant, which is the finest material and workmanship procurable, guaranteed 8000 miles; the Pharis, which is standard quality, full size and weight and our "old standby" since 1914, guaranteed 7000 miles; also the Nebraska, a really good, serviceable tire at an extremely low price, guaranteed 6000 miles.

Nebraska Fabric

TAX PAID	FABRIC TIRE PRICES	NON-PAID
SIZE	NEBRASKA Fabric	PHARIS Fabric
30x3	\$ 6.85	\$ 7.55
30x3 1/2	7.95	8.80
32x3 1/2	11.05	11.55
31x4	12.30	12.80
32x4	14.75	15.35
33x4	14.95	15.50
34x4	15.25	15.90

Fabric tire prices do not include tubes

A Complete Stock at Orange County Ignition Works

Here's a Real Bargain—

Qualitone Loud Speaker \$4.50

A Loud Speaker for as low as \$4.50 seems almost improbable, doesn't it? Nevertheless we have managed to secure several of these very popular Qualitone Loud Speakers to sell at this price. Very easily attached.

And a Genuine Truetone as Low as \$8.00

The real Truetone Loud Speaker, so much in demand, priced from \$8.00 to as high as \$25.00. Made with a wooden tone chamber, this Loud Speaker gives a soft, true, clear tone with a maximum volume of sound.

Complete Sets as Well as Standard Parts

We'll be glad to demonstrate some of the newest sets now in stock for your approval and quote you special prices on them. Come in and see them for yourself or phone or write for our representative to call.

For those who wish parts for their own sets, we have provided a fine assortment of tubes, tube sockets, headphones, one and two step amplifiers, condensers, rheostats and both A and B batteries.

These are all well known makes, priced at a standard prices.

For Every Make Automobile Battery

Our brand of Battery Service is the same. Careful attention, capable advice and kindly courtesy is the rule that prevails amongst our Battery Men.

No matter what make of Battery in your car, drive into our Service Department and sample the kind of Service we give at Battery Headquarters.

Compare

Trust your own judgment in battery buying, if your judgment is based on facts.

Compare the VESTA isolator which firmly and evenly locks the plates apart.

ANOTHER EXCLUSIVE FEATURE (MATS)

Another patented feature is the TREATMENT of the wooden MATS. This treatment makes the wood acid resisting so that short circuits in the form of filaments of lead (called treeing) are prevented.

These reasons plainly show why VESTA MATS should—and DO—last longer in Vesta batteries than separators last in other makes of batteries in the same service.

PORO HARD PLATES

VESTA PLATES are hard, but, by a new process of manufacture, they are very porous, capable of filtering water.

This permits the chemical action to take place through the plate and not merely on the surface.

Vesta Poro-Hard Plates have capacity because of their great porosity, and endurance and life, due to their hardness.

The facts given show that there are vital reasons why Vesta Batteries last longer.

A comparison of Vesta with any other make quickly shows essential features and extra value which spell true economy to the buyer.

CALLS MEET OF BUREAU HEADS AS TO FAIR

J. A. Smiley, president of the Orange county farm bureau, today set 1:30 p. m., next Wednesday, as the hour for a meeting of the directors of the bureau to consider the proposal that the next county fair be managed by the farm bureau.

The adjournment of the directors of the Orange County Fair association, Thursday afternoon, was with the understanding that their work was through, and with the expectation that the fair would be taken over by the farm bureau.

It was stated today that the directors of the farm bureau had not made any demand on the directors of the association under which \$4500 had been sought for prizes. The report of R. D. Flaherty as a committeeman of the fair association directors was the only document on hand in that regard. Flaherty had reviewed the situation as a committeeman, and not as a representative of the farm bureau.

In his report, Flaherty stated that the cost of the agricultural department would be approximately the same as the cost of operating that department at the fair last year. While the prizes offered totaled more than last year, other expenses were to be cut, under the Flaherty plan, to make up for this. After thoroughly considering the situation, and in the promotion of harmony and in harmonious accord, the fair association directors came to the conclusion that the logical place for the management of the fair was in the farm bureau. The association directors individually are pledging their support to the farm bureau should it undertake the management of the fair, as it confidently is expected that it will.

'BANDIT QUEEN'S' COURT FIGHT FAILS

Martha Deckman, asserted "bandit queen," who left a farm in Kansas to get a "kick out of life," must remain in prison until her alleged confederates in a series of hold-ups, among them that of William May of Santa Ana, stand trial, Los Angeles dispatches today said.

Martha has pleaded guilty and asked for probation, but Judge Shenk said she must wait until the others are tried. Probation is rarely given in highway robbery cases.

Martha confessed to implication in eleven hold-ups. She told the judge she wanted to go home to her mother in Kansas. Delpha Amed, a young woman, will go on trial next Tuesday in connection with the case. J. H. Robinson, another member of the gang, will be dealt with by juvenile authorities and R. W. Simpson, a sailor, has already been disciplined by naval authorities.

BRILLIANT MUSIC PROGRAM IS ANNOUNCED FOR BENEFIT

Santa Ana and Orange county music-lovers who attend the great benefit performance to be given in the high school auditorium here next Monday night are assured some of the best entertainment ever offered in Orange county, according to Clarence Gustlin, chairman, here today.

"This benefit," said Gustlin, in announcing the complete program, "is designed to raise funds to defray the expense of the convention of the California Federation of Music clubs which will be held here early in April. A glance at the program will convince music-lovers that the committee on arrangements has left no stone unturned in an effort to present the very best talent obtainable."

With this excellent program as the lure, Gustlin said he felt the auditorium would be taxed to its capacity when the performance opens at 8 p. m. The program announced by Gustlin follows:

Rotary quartette, "Let us tell you about Orange county." Santa Ana high school orchestra, "The Black Queen," overture, Fred White.

Orange County Musical Teachers' association, special numbers. Orange County Choral union, "O, Gladsome Light," "The Golden Legend," Sullivan.

U. S. JURY TO SIFT LAND BUBBLE CASE

That the so-called Irvine "land bubble" case, which has been under investigation in Los Angeles for several weeks, will be placed before the federal grand jury there was revealed today with the announcement in Los Angeles that Adam Wilhelm, government investigator, has completed his investigation of the matter and that United States District Attorney Joe Burke will take the next step in the near future.

According to Burke and his investigators, scores of persons, acting upon the advice of Los Angeles promoters, have filed homestead claims on the great Irvine ranch in Orange county. Despite the fact that the land office rejected these filings, the claimants still clamored for their asserted rights. This resulted in an exhaustive investigation, led by Burke and Adam Wilhelm, of the interior department.

Just when the grand jury will consider the matter is not known, but it was said Burke prefers to submit the data to the new grand jury, the old body, although still in existence, being occupied with cases already submitted.

FULLERTON HAILS COUNTY SHRINERS

More than sixty Santa Ana Shriners and their ladies were today recalling the pleasures of an entertainment given last night at Fullerton at which nearly 250 county Shriner folk were guests of the Fullerton club.

Two facts, brought out last night, were causing county fez wearers to feel particularly proud of their club. The first was the announcement that in the campaign for funds for the new temple building in Los Angeles, the Orange County Shriner club "went over the top" for the biggest subscription given by any similar clubs.

The other reason for elation was that Louis M. Cole, potentate of Al Malaka temple, Los Angeles, who made the principal talk of the evening, congratulated the Orange county club, upon having the most enthusiastic organization of its kind, and commented on the marked success the club has made in the past year under the presidency of D. Eymann Huff, who has recently been elected to a second term.

A varied program of music was supplied by the Fullerton union high school students and others.

Cole's talk consisted chiefly in discussing plans for the new temple in Los Angeles.

Southern California representation at the Shrine convention in Washington, D. C., to be held in April, was informally discussed.

The program was efficiently handled by Cloyd Hartranft.

ACQUIT WILKENS IN WIFE MURDER TRIAL

(By United Press Leased Wire)

SAN FRANCISCO, March 17.—Henry Wilkens was home with his motherless children today, free from charges of having murdered his wife.

After the jury had been out more than twenty-four hours, a verdict acquitting Wilkens was returned late yesterday.

Wilkens was alleged to have conspired with Arthur and Walter Castor to stage a "holdup" in which Mrs. Wilkens was shot to death. On his first trial the jury disagreed.

NASH

This record-breaking shipment consists of two trains, one with 60 and one with 51 fifty-foot automobile cars, carrying a total of 515 Nash cars, valued at nearly three-quarters of a million dollars. Train No. 1 traveled from Kenosha, Wisconsin, via C. & N. W., U. P. and S. P. Train No. 2 was routed from Kenosha over the C. & N. W., C. R. I. & P., E. P. & S. W. and Southern Pacific.

California's Greatest Single Shipment of Motor Cars Has Arrived! 111 Carloads

All this week conjecture has run high as to who was making the greatest single shipment of motor cars in the history of California.

Now we can announce it is here. And the cars are the new model Nash Fours and Sixes.

California has a habit of breaking records in many different lines and now she shatters a motor car shipment record to satisfy her unprecedented demand for Nash cars.

Two complete trains, one totaling 60 and one totaling 51 fifty-foot automobile cars, were required to handle the load.

Today we inaugurate a special exhibition of these cars in honor of the broken record.

A special invitation is cordially extended to you to come and view the important and far-reaching improvements Nash has embodied in this new line.

Come early. Even this big shipment will be taken up quickly. All over the country these new models have been attracting intense interest.

The following are the prices on Nash cars delivered here:

Six Prices: Five-Passenger Touring, \$1475; Seven-Passenger Touring, \$1645; Seven-Passenger Sedan, \$2495; Five-Passenger Sedan, \$2335; Coupe, \$2175; Four-Door Coupe, \$2385; Roadster, \$1445; Sport Model, \$1920, delivered here.

Four Prices: Five-Passenger Touring, \$1145; Roadster, \$1125; Five-Passenger Sedan, \$1695; Carriole, \$1515; Sport Model, \$1435, delivered here.

Michelin disc wheels are \$26.25 additional.

Buick Seven-Passenger Touring—\$1435

The Famous Buick Clutch

A finger's pressure disengages the Buick clutch yet the clutch is absolutely positive in its action. The clutch in all 1923 models has been still further improved by making the clutch hub a drop forging with ground bearing surfaces, instead of malleable iron.

Sweeping refinements in motor, chassis, body and equipment mark the Buick seven-passenger open car for 1923.

Re-designing has brought the car's height down several inches with no sacrifice of head-room; an entirely new cantilever spring suspension provides a degree of riding comfort unexcelled.

Above the windshield is a visor of distinctive design, there is a cowl ventilator, a gasoline gauge on the dash, a rear-view mirror, a transmission lock, the shifting lever has been extended. The entire car shows a completeness of equipment not to be found elsewhere within a thousand dollars of its price.

The Buick Line for 1923 comprises fourteen models: Four-8 Pass. Roadster, \$2865; 5 Pass. Touring, \$3385; 5 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1595; 6 Pass. Touring Sedan, \$1585. Six-8 Pass. Roadster, \$1175; 6 Pass. Touring, \$1195; 6 Pass. Touring Sedan, \$1585; 6 Pass. Sedan, \$1585; 4 Pass. Coupe, \$1395; 7 Pass. Touring, \$1495; 7 Pass. Sedan, \$1595; Sport Roadster, \$1625; Sport Touring, \$1675. Prices f. o. b. Flint. Ask about the G. M. A. C. Purchase Plan, which provides for Deferred Payments.

THE HONOR OF M. LUTARD

BY E. PHILLIPS OPPENHEIM

Copyright, 1922, by E. Phillips Oppenheim
Arrgt. NEA Service, Inc.

BEGIN HERE TODAY
Vendetta begins between MICHAEL SAYERS, noted criminal, and

SIR NORMAN GREYES, once of Scotland Yard, when Sayers' beautiful housemaid, JANET, saves him from Sir Norman by shooting dead the officer sent to arrest him. Janet becomes Sayers' wife and accomplice. In the Leeds bank robbery, Michael (known to Greyes as "Stanfield") barely escapes and has to flee the country.

Sayers plots with another well-known criminal, Paul Gont, to ruin the political leader, Philippe Lutarde. Gont sends for Janet to assist them. Sir Norman is hired by the government to protect Lutarde and promises to do all in his power to keep the leader from harm. Greyes

meets Janet on the street and takes her to lunch.

NOW GO ON WITH STORY

Sir Norman Talks.
I saw her luggage through the customs for which, as she knew no French, she was grateful. I offered her a seat in the car which had been sent for me, but she shook her head.

"I am going to the Gare de l'Est," she said.

"Where you will take a fresh cab and drive to the address which you do not intend me to hear," I remarked. "You need not go out of your way. I will give you another parcel. I will make no effort to discover your address, so you can take your taxi and drive straight there. I shall be at the Hotel Meurice. If you have an hour to spare, we will drive in the Bois tomorrow."

For the next few days I was immersed in the complications of the business which had brought me to Paris. To my surprise, Janet called to see me at the hotel and we took our drive in the Bois. It was easy to realize that, whatever the business which had brought her to Paris may have been, it was of a disturbing nature. She was nervous and ill at ease, looking around all the time as though she were afraid of being observed. Somehow, I gathered when we parted that she was obsessed by some new fear, some underlying dread of circumstances, of which, however, she gave me no inkling.

At the end of the third day of my stay a little conference was held in my salon between Guy Ennon—who had worked in the English secret-service during the war, and whose headquarters had been in Paris—myself and Monsieur Destin, an ex-chief of the police, now a member of Lutarde's government. The latter was a short and corpulent little Frenchman, with black mustache and imperial, vivid black eyes and a most vivacious manner.

"Sir Norman Greyes," he said, grasping my hand, "you are welcome. If you can help us to save our chief you are more than welcome. He is in danger—of that I am assured."

Much of the rest of his speech was irrelevant. The gist of the matter, however, was contained in his concluding sentences.

"They will seek to strike through his one weakness—his sentimentality, his excessive good-nature. Philippe Lutarde has always been a lover of women, a kindly and a generous lover. He can resist no appeal to his sympathies; and our French public—you know, perhaps, how strange they are. Whatever our own private lives may be, we tolerate not even indiscretions from our great men. We glorify and sanctify them; we place them on a pedestal; and if they fall, we depose them from our hearts. All nations have their peculiar form of hypocrisy. That is ours. Lutarde's daily life is being examined at the present moment hour by hour."

"By the police?" I asked.
"No! By the agents of a very dangerous gang of criminals, whose chief we believe to be in league with the other side."

"Why not give warning to Monsieur Lutarde?"
"That has been done. He is haughty and impetuous. He will brook no interference with his actions."

"Can I meet him?" I suggested.
"Today at the British Embassy," Guy Ennon replied. "We have arranged a little luncheon. He does not know your errand, and he scarcely even realizes our anxiety."

Our conference broke up soon afterward. At luncheon I found Philippe Lutarde gracious, charming and brilliant. He had the clear skin and bright eyes of a younger man; his snow-white hair was a veritable adornment. He was a delightful companion, and I easily understood the enthusiastic adherence of his friends. Toward the close of luncheon Ennon spoke to him quite seriously of the existence of some conspiracy against either his life or his honor. Lutarde only smiled.

"My friend," he said, "I much appreciate all your efforts on my behalf; but behold, I am seventy years old! A few years more or less of life now are little. As to my honor, that no enemy can besmirch. If I were to surround myself with guards, as you suggest, I should live an artificial life. I know that: without me things might for a time be difficult, and relations between our two countries might suffer. In a month or two—however, all that will be changed—we shall have entered a new era—and for these few months I choose to take my risk. I will not submit to espionage."

Nevertheless for the next three days I cast away my name and resorted to the meager walks of my profession. I shadowed the great

DO FIGURES LIE? CHECK THESE OVER.

A new automobile costs you say \$1000. The first trip out it depreciates 20%—\$200 or more, leaving the value \$750 to \$800. Your old car is really worth about \$500 and you are offered \$250 to \$300—another \$200 to \$250 loss making a total of at least \$400. Now HALF of that amount spent on your old car will thoroughly overhaul and make it worth around \$700; it will have no depreciation and will render service that you would not require of a new car, and you save more than you spend.

If any mistakes in above report same to the—

French statesman, from the moment when he rose, until nightfall. There was a young girl, very beautiful, with great dark eyes and an appealing face, who stopped him one night with some pitiful story. She was limping, and pointed continually to her foot. Lutarde called the flaccid which she indicated. She leaned her fingers upon his arm. I was close enough to see the pressure of them, to note the subtlety of her upward glances. He handed her to the cab. I heard her pleading words. She was lonely. If monsieur would drive with her a little way! But Lutarde shook his head gravely. He paid the taxicab man a fare which surprised him, lifted his hat courteously and walked away. I saw the change in the girl's face as he disappeared. That was just one of his escapes.

We had a more exciting few minutes one night when he insisted upon walking home from the Quai d'Orsay. I saw the four dark, silent figures gliding together, two of them in front of him and two behind, and I saw the waiting motor-car at the corner of the street. Prudence led me to anticipate their action, whatever it might be. When they heard the spit of bullets against the wall, they took to their heels and ran. To the gendarme who came hurrying up, I had only to show my badge of authority, and he procured for us at once a taxicab. Lutarde, convinced now that his enemies were in earnest, yielded to my first proposition. I was installed in his house as majordomo.

We had three or four days of absolute quietude. Then the moment which we had been expecting, arrived. It was about six o'clock in the evening, and I was seated in Monsieur Lutarde's study, copying some letters at a desk and posing as his secretary. A servant brought in a note, which the Minister read hastily and passed to me. It was written on British Foreign Office notepaper and signed by a very important personage. The gist of it was contained in these lines:

The bearer can be altogether trusted. He brings you a verbal message of great importance. You will further our mutual interests if you give it your most serious consideration.

It was a mere chance which led me to retire to what Lutarde was pleased to call my spy-hole. Notwithstanding my disguise, it was perhaps as well that I did so, for to my amazement it was Janet who was presently ushered in. Monsieur Lutarde rose to his feet in some surprise.

"You are the bearer of this letter, madame?" he queried.

PIKES PEAK MOTOR

ALL OVER the country the new Chandler with its phenomenal motor is making its triumphant way.

Locally famous hills are being conquered with masterly decisiveness. Traffic difficulties are being overcome with comforting ease. Performance has been carried to a new high plane.

Notable Motor Improvements

Rarely has a car been received with such enthusiasm. Scarce 60 days have passed since its presentation. Yet capacity operations at the Chandler factory are failing to meet the demand.

Built to master a mountain, the new Chandler power plant has characteristics that rank it among the few truly great motors.

"Pinging" (pre-ignition knocking) has been eliminated. Heating has been overcome. Perfect carburetion and complete combustion assure economy, smoothness, and freedom from adjustments.

Beauty and New Low Prices

Additional factors—superb appearance and new low prices—contribute to the Chandler triumph.

M'TIGUE, BAT SIKI ON EDGE FOR FRAY

DUBLIN, March 17.—With the help of the Irish army, Battling Siki, the world's light heavyweight champion, and Mike McTigue, the champion of Erin, will battle twenty rounds here tonight for the title.

Threats of irregulars to prevent "desecration" of St. Patrick's Day resulted in the taking of extraordinary precautions by the Free State authorities. Soldiers with glistening bayonets were posted in front of the Scala theater, where the bout is to take place and double details of shock troops were stationed near the hotels where the battlers are quarantined. Threats coming from the Republicans warned the authorities that the fighters would be kidnapped and that the theater might be bombed.

Despite the excitement neither of the boxers seemed to be concerned. When told they would be taken to the fight in an armored car McTigue laughed and remarked "that's a fine way for a fighter to travel around." Siki didn't seem to know what it was all about.

The referee and the officials said they could not be intimidated by threats and they would be in the ring at 7 o'clock (2 o'clock New York time) when the first preliminaries start. Siki and McTigue are expected to be in the ring at 8 o'clock but it will more likely be 9 o'clock before the bout starts.

IRVINE CLUB WILL MEET STRONG L. A. OUTFIT TOMORROW

With "Dutch" Hinrichs back in the fold after his tryout with the Los Angeles Angels, Manager A. J. Triebel of the Irvine baseball club will lead his Orange County Harbor league champions against the fast Studebaker Autos team at Irvine tomorrow afternoon.

The Studebakers are rated as one of the strongest semi-professional clubs in Southern California and should offer the Irvine men a stiff argument. The game will get under way at 2:30 o'clock.

BEARS FAVORED TO CONQUER TROJANS

LOS ANGELES, March 17.—The Blue and Gold Bears of cinder path fame today prepared to add new laurels to their fame at Bower Field, where the dual track meet with the University of Southern California will take place this afternoon.

Coach Walter Christie and his squad arrived yesterday from the north and announced that all of his charges are in the pink of condition. The Trojan squad is also in fine fettle and Charley Paddock is hopeful of equalling his world's record of 9.35 in the century.

While local boosters are confident the Trojans will walk off with a majority of the points, neutral observers favor California. Paddock is conceded the 100 and 220 dashes handily. Otto Anderson of U. S. C. is counted on to bring home both hurdles and the broad jump, while "Swede" Anderson is expected to do his stuff and add five points in the shot. Davis won the high jump against the Bears last year and he may repeat.

But that about lets U. S. C. out, barring the usual dope-upsetting races. California is going to have a plain slaughter in the distances and field events—a margin it will be hard for the southerners to overcome.

Coach Christie hopes to get some good results out of Farnsworth, Craw and Sheppard, who will furnish competition for Paddock in the 100.

Much will depend on second and third place winners and in that field California decidedly has the edge.

4A GRADE BASKETERS DEFEAT 4C QUINTET

In a closely contested game yesterday afternoon, the basketball team of the 4A class of the Junior high school defeated the 4C team. The score was 19 to 18.

FIGHT RESULTS

ST. PAUL, Minn.—Mike O'Dowd, former world's middleweight champion and the present New York champion was knocked out for the first time in his career by Jock Malone, St. Paul. The knockout was scored in one minute of the first round.

LEWISTON, Maine.—Eddie Shevlin, New England middleweight champion knocked out Earl Sears in the second round.

BROCKTON, Mass.—Archie Walker, former lightweight amateur champion, stopped Kid Lubbee, Lewiston, in the eighth round.

HOLYOKE, Mass.—Andy Chaney, New York featherweight, won a ten round decision from Jimmy Cooley.

NEW YORK.—Elino Flores, Filipino lightweight, won a ten round decision from Tommy Noble, England.

WINDSOR, Ont., Mar. 17.—Carl Tremaine, Cleveland, defeated Johnny Ertle in ten rounds.

JABS HITS HOMER, BEATS GROVE TEAM

Big First Sacker Ruths At Right Time; Le Bard Is Given Poor Support

Big Earl Jabs swatted the Santa Ana high school baseball team to the top of the Orange league percent column with one out at the ball yesterday afternoon.

The husky Poly first baseman took his turn at the plate in the last half of the eighth round against Garden Grove high school on the local diamond. The score at that juncture was 6 all. When Jabs got through it was 7 to 6 in favor of Santa Ana and that's the way it ended.

Smith, the Garden Grove projector, flirited with Jabs' big willow and the big fellow caught one on the nose for a dab of a homer to the right field fence. There was no one on base at the time.

Swinging surprising strength, the Garden Grove nine made Orion Neff's band like it for the first seven rounds. Smith, the visitors' flinger, had a pretty book and he kept the Santa Ana wrecking crew stepping back and swinging foolishly for most of the route. He fanned fifteen locals.

Gets Poor Support
"Barney" Le Bard, Neff's gunning ace, hurled great baseball but he was given wretched support. At least three of the grovers' eight bingles should have been converted into putouts by good fielding.

Le Bard had his fast ball working well and whiffed twenty batsmen. Garden Grove tallied one in the first canto when Morrill and Smith pounded consecutive triples past Ritchie in center field.

Poly sent two across in the fourth. Finley singled to left and Howell rapped a safety to right. Johnson lifted a short fly to left that Crist dropped. Finley, who had hesitated to see if Crist would catch the ball, was thrown out at third. Howell and Johnson worked the double steal, the former moving to third. Jabs was out at first.

Howell scoring. Ritchie gained a life on Smith's muff. Johnson ringing the bell. Brown whiffed.

Munz's single with two on and two out in the fifth but the grovers ahead again. Munz himself came across when Bickford tossed Crist's essay grounder into the grandstand. That made the score 4 to 2 in favor of the visitors.

Poly Takes Lead

Santa Ana made three tallies in its half of the same spasm and took the lead, 5 to 4. Luck led off with a double to left and took third when Dungan muffed Crist's throw. Le Bard forced Luck at the platter, Smith to Umphress. Bickford drew a pass after Le Bard had pilfered second. Finley connected for his second blow of the pastime, a double to right that scored both Le Bard and Bickford. Finley took third on a passed ball and tied on a wild pitch.

Garden Grove sent two more runs across the plate in the seventh. Santa Ana evened the score in its half when Le Bard walked, stole second, took third on Chaffee's wild heave to third after Umphress' peg had gone into center field, and completed the circuit on Smith's second wild pitch.

Jabs' home run clout to right was the deciding factor as Le Bard was invincible in the last two frames, fanning the last five men to face him.

Summary

Home run—Jabs. 3 base hits—Morrill, Smith. 2 base hits—Dungan, Luck, Finley, Messersall, Crist. Stolen bases—Le Bard (5), Howell, Johnson, Munz, Smith. Struck out, by Le Bard, 20; by Smith, 15. Bases on balls, off Le Bard 1, off Smith 5. Hit by pitched ball—Bowe. Wild pitches—Smith (2), Le Bard. Passed ball—Umphress. Umpire—Billott.

News of the Game

The bugs in the stands were agreed that for a yearling institution, the Garden Grove high school has put a mighty classy team on the field. The Grovers led throughout most of the melee and were always threatening.

Ted Coffman, veteran catcher, was out of the game. He has been laid up with an attack of the flu and may not be able to get in shape for the next league brawl next Friday.

Eddie Linsenbard started the tilt at the first cushion in the absence of Earl Jabs who was over aiding Rav Adkinson's tracksters upset Huntington Beach. Linsenbard only got up to hit once but he cracked a blow to right for a day's

Red Third Sacker Is Star In Third Big League Chance

BABE PINELLI

Baseball produces many unusual situations.

The case of Babe Pinelli, star third sacker of the Cincinnati Reds, is a good example.

Just at present third base is a debatable spot in the Detroit infield. Bobby Jones and Fred Haney will fight it out for the regular berth.

A few years ago Pinelli was a member of the Detroit squad. He was tried out at third at various times and finally sent back to the minors as a trifle shy big league class. In justice to Pinelli, however, it should be stated that he didn't get the opportunity his ability deserved. The moment he slumped in his work he was benched.

Last fall the Chicago club paid something like \$100,000 for Willie Kamm to the San Francisco club of the Coast League. Kamm is expected to star at third base for the Chicago White Sox.

Prior to getting a chance with Detroit, Pinelli was tried out by the White Sox. As at Detroit he never received a very thorough trial.

After being twice passed to the minors by American League clubs Pinelli is resurrected for the third time as a big league possibility and makes good at Cincinnati.

When it is remembered that Pinelli succeeded Heinie Groh at Cincinnati, rated one of the best third sackers in the business, his hope to fame is all the more praiseworthy.

Pinelli, twice a failure in the American League, in one year wins a place in stardom as a National leaguer.

Training Camp Tabs

SAN ANTONIO, Texas.—With rookies taking the places of Eddie Collins and Ernie Johnson, the Chicago White Sox blew into town to start the league series of exhibition games with the New York Giants.

NEW ORLEANS.—Miller Huggins will put his Yankee regulars through their first work out here today when the Yankees play the New Orleans Southern association team.

CLEARWATER, Fla.—Speaking of his two holdouts, Charley Ebbetts, president of the Brooklyn Robins, said he would not give Zach Wheat or Andy High the money they wanted.

TAMPA, Fla.—The Senators play their first exhibition game here today with the Boston Braves.

LAKELAND, Fla.—Tris Speaker goes everything and even more than he asks his players to do. But it was a new stunt even for him when he assumed the role of catcher. It happened that all the regulars were warming up pitchers so Speaker grabbed a mitt and got busy.

ORLANDO, Calif.—Red colts conquered the veterans a second time yesterday when they won an abbreviated game, 8 to 6.

AUGUST, Ga.—Rain and wet grounds prevented the Detroit Tigers from participating in a practice game yesterday, but Manager Cobb put his infielders through a lengthy drill in breaking up hit and run plays and the double steal.

LOS ANGELES.—The Cubs defeated the Angels, 3 to 2, in ten innings.

HOT SPRINGS, Ark.—Walter Maranville is laid up with blistered feet, probably due to strenuous hiking. Walter Schmidt has finally signed a contract.

MONTGOMERY, Ala.—Connie Mack's players have finished their preliminary training steps and from now until the championship race starts the Athletics will play rival teams in exhibition games.

LEESBURG, Fla.—The Phillies regulars and yanpinian teams will stage another battle today if the playing field dries out. Practice was halted yesterday by rain.

CRICQUI SAILS FOR U. S. PARIS, March 17.—Eugene Cricqui, European featherweight champion and France's present ring idol, sails today on the French liner Paris for New York where he is to meet Johnny Kilbane for the world's championship.

average of 1,000.

Crist, the Grovers' left gardener, made a beautiful running catch of Jabs' lone foul in the fifth stanza.

Rav Filott, the Anaheim coach, handled the indicator and got by without any trouble. His work was good.

SANTA ANA UPSETS DOPE, DEFEATS H. B. TRACK SQUAD BY WINNING RELAY RACE

Upsetting the dope completely and bringing the local men into the limelight as a serious contender for honors at the annual Orange county classic, Coach Ray Adkinson's Santa Ana high school track team yesterday afternoon defeated the Huntington Beach squad, Southern California and state champions last year, on the Poly oval by a score of 60 1/4 to 51 1/4.

The meet hinged on the half mile relay and Santa Ana's undefeated quartette, Otto Gardner, Oscar Spencer, Captain Roland Rabe and Arnold Stroschheim, romped home far in the van of the four beach sprinters for the victory.

When the baton event was called the Huntington Beach team was four and a fraction points behind the locals. A victory would have given them the meet.

Gardner, running a beautiful race, gave Spencer a seven yard lead. The blond haired boy increased this eight yards. Rabe added five yards more and Stroschheim, who earlier in the afternoon surprised all the wise ones by nosing out Milt Nash, the crack beach sprinter, in the 220 dash, easily held his big lead.

Vawter Wins Distances

Bob Vawter, star Poly distance man, celebrated his return to the track after a month's ineffectibility, by running away with both the mile and the half mile races. With little competition Vawter eased his way around the four laps in 4:54.

The 220 was the most sensational event of the afternoon. Nash, off to a good start, retained a two-foot advantage at the 200 yard mark. Inch by inch Stroschheim gained on him. Five yards from the tape they were on even terms. In the last few strides, the Santa Ana flyer pulled ahead and won by a foot.

Ross Nichols, the crack Huntington Beach all-around man, competed only in the high jump which he won at 5 feet 7 inches. Nichols is recovering from an injury which he received at San Diego and Coach Walker of the seashore wisely decided not to use him in more than the one event.

Shot Put—Bickmore (HB) first; Jabs (SA) 2nd. Morris (SA) 3rd. Distance, 41 feet 6 inches.

120 yard high hurdles—Bickmore (HB) first; Rabe (SA) 2nd, others disqualified. Time, 16 3/5 sec.

440 yard dash—Nash (HB) first; Stroschheim (SA) 2nd, Lancaster (SA) 3rd. Time, 55 2/5 sec.

Broad Jump—Elliott (HB) first; Nash (HB) 2nd, Bryan (HB) 3rd. Distance, 20 feet 1 inch.

220 yard dash—Gardner (SA) first; Redmond (SA) 2nd, Rabe (SA) 3rd. Time, 28 sec.

Discus Throw—Dungan (SA) first; Anderson (SA) 2nd, Bradbury (HB) 3rd. Distance, 108 feet 5 inches.

Mile run—Vawter (SA) first; Snow (SA) 2nd, Ausing (HB) 3rd. Time, 4 min. 54 sec.

220 yard dash—Stroschheim (SA) first; Nash (HB) 2nd, Rabe (SA) 3rd. Time, 23 3/5 sec.

Pole Vault—Bickmore (HB) first; Bradbury (HB) 2nd, Gardner (SA) and Elliott (HB) tied for 3rd. Height, 11 feet.

Relay—Won by Santa Ana team (Gardner, Spencer, Rabe and Stroschheim) in 1 min. 37 2/5 sec.

Officials—Jack Cort, "Flash" Roney, "Nick" Wilcox, Bill Cole, George Martin, John McKittick.

SMOOTH SAILING? POSSIBLY

The Riverside Enterprise prints as "good news from Sacramento" the announcement that the citrus station summer session bill has been approved by the assembly committee on agriculture and re-referred to the Ways and Means committee. "As Assemblyman Chester Kline, who sponsored the measure, is chairman of the latter committee, it is expected to have smooth sailing there," says the Enterprise.

Assemblyman Kline's bill provides that \$40,000 be appropriated for summer session work at the University of California's Riverside Experiment station. It is a non-budget measure.

All of which calls out caustic comment from the Redlands Facts, which says:

"It seems to be the same old story that economy is a good thing as long as it is on the other fellow. The Facts believes in the summer courses at Riverside, but it also believes in some other activities which are to be done away with, and some of them are just as meritorious. But there seems to be enough of a division in sentiment at Sacramento to indicate that some of the Governor's special appropriations may not have altogether smooth sailing."

FINDING THEMSELVES

What are the boys and girls going to do when they graduate from high school in June and face the great problem of jobs and futures? It is none too soon to take the matter under advisement if a wise choice of occupations is to be made.

Believing this, certain social organizations in one of the larger cities are holding a series of "find yourself" meetings at which the high school seniors are given an opportunity to hear brief addresses by experienced business men and women and to talk over matters with them personally.

This sort of activity should be helpful in any community, and could be organized by any body of thoughtful citizens. The great thing is for the elders to remember that it is the child's own life upon which he is about to embark, not theirs. If he is to be successful, it is better that he follow some natural taste or inclination, even if it goes contrary to the fondest parental dreams. It is possible to attain success in a distasteful job, but it is a long road and doubtful at best.

The trouble is that most boys and girls of high school age know only vaguely, if at all, what they truly would like to do. The "find yourself" meetings give him a chance to think about the subject concretely and arrive at a choice more intelligently. And he who starts intelligently is apt to finish successfully, even though he change his original objective en route.

MEXICO'S LIVESTOCK SHOW

The first pure-bred livestock exhibit to be held in Mexico will occur in Mexico City during the first week of April. More than 600 head of registered United States stock will be exhibited. The Mexican government is keenly interested in promoting the show and has waived all border duties. The railways are reducing transportation rates on cattle.

It is said that all of the American cattle slated for exhibition already have been sold to Mexican breeders who are anxious to build up their herds, depleted by many revolutions. The attention of American breeders especially in Texas has been called to this, and to the possibility it implies of building up a market in Mexico.

This livestock show is only one of many evidences of the Mexican trend toward constructive development and away from ridiculous and costly political revolutions. It points to a happier day for Mexico, when she shall take the place among the nations to which she is entitled by her age and her natural resources.

Sympathetic sentiment and aid in furthering her progress should not be wanting in America, for it is almost as much to American as to Mexican interest to have thrift and peaceful development take place of waste and petty war south of the border.

TWO HUNDRED MILLIONS

The population of the United States, exclusive of foreign possessions, is now placed at 110,000,000. It seems just the other day when the nation was thrilled by the news that it had reached the 100,000,000 mark. Now that mark is rapidly receding and new records loom ahead. There is talk of 200,000,000.

How long will it take to reach that limit? Not so long as most persons suppose. The rate of increase from 1910 to 1920, during most of which period immigration was cut off by the World War, was 14.9 per cent. The rate of increase during the three years since the last census was taken, with immigration restricted to almost nothing by the new law, was exactly the same. This is the lowest percentage of growth recorded in American history. It might be sustained without any immigration whatever.

Call it 15 per cent, to make an even number. We may be sure of that much, at least. At that rate, compounded every decade, the country would have 200,000,000 people in 50 years. It may be expected, therefore, that many millions now living will see the two-hundred-million mark reached and passed.

What will the country be like then? What will the cities be like, with their vast increase of population combined with new and wonderful systems of transportation and working and living conditions? It will be worth living to see.

TUT AND ROBIN HOOD

It seems a far cry from Sherwood Forest to the Valley of Kings near Luxor, from Richard I and the Crusades to the chariots and jewels of King Tut. Yet in the recent American discovery of history, it is safe to say that at present there is more interest in those two historic periods than in any others.

In every paper Americans have been reading about King Tut, pondering upon the civilization of that ancient time, considering its differences from our own and its likenesses with it. Everywhere Americans are seeing the motion picture of Robin Hood, or they have just seen it or are just about to see it. The boorish, fumbling yet always straightforward and good-hearted Richard Platagenet shares the cen-

ter of the stage with the weak boy Tutankhamen. The great tents, the waving pennants, the armor and jousting of the early middle ages are compared with the tombs and statues, the carving and cements of the Nile dwellers of 1,400 years before Christ.

It is all good—this delving into past ways of life, into the outer trappings and the inward motives, into the mechanics of living and into the things that moved men's souls. It helps to make people feel that their personal troubles are of small account, but that their constructive thought and action is of tremendous import.

Congress is the one big business institution in America where a mediocre man can rise to the top merely by hanging onto his job.

Free Speech Sustained
Sacramento Bee.

In Logan County, West Virginia, a condition of affairs has long existed which is in defiance of American traditions. The coal barons have ruled the county as though it were a principality of their own, rather than a part of an American state.

Not only have they controlled the elections and the election officials with a despotic hand, but they have gone to the extreme length of forbidding any union labor spokesmen to enter the county, and also of refusing even to permit the question of unionization of the mines to be discussed at any public gathering.

Freedom of speech and freedom of the press and of assembly have been as much lost there as in Russia under the Romanoffs.

This vicious condition finally came to the attention of the Civil Liberties Union in New York, an organization devoted to protecting the right of free speech in America.

Officials of the organization decided to make a test of the situation, to send its own speakers to Logan and defy the authorities to arrest them.

Full publicity was given to the plan. Sheriff Chaffin, a political henchman of the mine owners, was notified that the meeting was to be held. Among the sponsors were Norman Hagwood and Rev. John A. Ryan, director of the National Catholic Welfare Council.

Permission was refused to use the courthouse, but an open air gathering was arranged for the evening of Sunday, March 4th.

The outcome was unexpected. More than 2,000 people were present. Suppression of the right of the miners to discuss unionism was bitterly denounced. The operators' policy was excoriated. But not an arrest took place, and all efforts to locate the sheriff proved fruitless.

At his home it was stated that he was at his office, and at his office it was said he was at his home.

But his failure to act, together with the failure of the operators to take steps to prevent this meeting as they had closed others where less influential citizens had participated, was confession enough of the weakness of their cause.

They knew they had not a leg to stand on, where it was certain they would be called into the highest courts of the land to answer for their unconstitutional and illegal denial of free speech.

Whether this will assure for the miners future respect for their inherent and sacred rights as citizens, time alone will tell.

But at least a serious blow has been struck at a system which in West Virginia has been a blot and a shame on the American republic. And as such, all liberty-loving citizens will applaud it.

Connecting Up With East
San Bernardino Sun.

Evidently, the most pronounced policy of the new State Highway Commission with reference to construction is that of building the roads that lead into California from other states. With rather limited funds, the members of the commission have specifically outlined two such routes to be improved at once. One of them is the National Old Trails, leading into Southern California from Arizona and Nevada and Utah. The other is the Lincoln Highway that enters the State at Truckee.

Governor Richardson and the members of the commission have just attended a celebration at Reno, and speaking there for the State both the Governor and Chairman Toy, of the Highway Commission, specifically declared for the immediate completion of that road. Mr. Toy declaring for the work to be done this year—this season.

With all former plans and pledges and agreements wiped out, it is not possible to say that the announced policy is unwise or improper. Inter-State and transcontinental motoring is becoming a habit. The number of tourists and the amount of business coming by this method is growing to undreamed of proportions, and while individual localities whose particular roads are neglected because of this policy may feel aggrieved, from the viewpoint of State-wide interests, the plan merits approval. It is worth while to make the highways leading into the State so good that the reputation will serve to attract new motorists.

Put Criminality to Rout
Long Beach Press.

The movement which originated in Los Angeles, to strengthen the forces arrayed against crime in this state, by means of a comprehensive remedial legislative program, has had the good effect of bettering the people, en masse, into a realization of the menace which criminality presents and the urgent need of cooperation on the part of all, singly and collectively, to make the way of the criminal rough and forbidding, in this state.

The people have awakened from their lethargy. Heretofore there has been too much of a tendency on the part of the public to sit back and criticize those charged with enforcement of the laws, and at the same time lend no friendly word and no active help. Too many have treated the great function of law enforcement as being the concern only of the police and constabulary and the courts. But the great awakening is impressing the people that law enforcement is their own business; that laws are made for their protection; that enforcement of law is for their direct and very real benefit; and that, therefore, they should concern themselves directly in all that appertains to better enforcement of law and should aid actively and sympathetically, instead of standing back in sneering, critical mood, leaving the enforcement of law wholly to those who are not principals but only the agents of the people.

Would Try It First
Redlands Facts.

A United States Senator is asking for a national referendum on the Volstead law. The present is no time for such a test. Let the law be first enforced for a year, and then the people will have the necessary information upon which to base their vote. Any dispute now on the subject of prohibition does not hinge on the merits of the law itself, but on its enforcement. A vote of the people for or against present conditions would not be directed at the law but at the refusal of some public officials to enforce it. A referendum on that subject is held at every election, when the people express their preference for men who have a sacred regard for their oath of office or for those who willfully violate it.
